RUSSIA ON GERMAN SOIL

GERMANS BEAT BACK A SURPRISE ATTACK

Berlin, Nov. 30.—(By Wireless to London, 3:05 p. m.)—The following official statement was given out at military headquarters today:

"There is nothing of note to report from the western theater of war.

"On the East Prussian frontier an attempt by strong Russian forces to make a surprise attack on the German fortifications east of Darkehemen failed with heavy losses to the enemy, from whom we captured a few officers and 600 men.

South of Woichsel, the counter attacks which we mentioned yesterday led to satisfactory results. Eighteen cannon and more than 4,500 prisoners fell into our hands.

"Nothing of note has occurred in southern Poland."

RUSSIANS CLAIM VICTORY.

Report Capture of Ten Miles of German Trenches.

Petrograd, Nov. 30.—Six hundred prisoners, seven guns and many wounded fell into Russian hands in yesterday's fighting to the west of Lowicz, where the Russians took ten miles of German trenches between Glovno and Sobota, according to information today.

Glovno is sixteen miles northeast of Lodz and Sobota is twelve miles north of Glovno. The trenches were protected by trip earthwork and wire defenses. It is semi-officially announced that the Germans have received reinforcements in the shape of two infantry divisions and one cavalry division.

The occupation of Glovno, Bolievand Sobota strengthens the right wing, which already is said to have widely outflanked the German left, bringing the Russian right from twenty to twenty-five miles in its advance on Strykow, where a battle now is raging, and puts the German center under an attack from Glovno and Lodz.

The military experts are of the opinion that the German position around Lodz today is far more critical than it was during the initial reverses around Warsaw a month ago.

"Fighting on the Russo-Prussian front is turning advantageously for our side," telegraphs a correspondent of the Army Messenger. "Our cavalry has dispersed the enemy, who, in retiring, is abandoning his munitions of war. The energetic pursuit of our forces prevents the Germans from taking up the positions which they had prepared for their use in the event of a retreat."

Referring to the operations in Galicia, the Army Messenger says:

"All of our operations in Galicia are ending successfully for us. We continue to push the Austrian army in the direction of Cracow. In spite of the intense cold, which is delaying our offensive, we are advancing victoriously."

ALLIES PRESS FIGHTING.

Germans Remain on Defensive in Belgium, Says Paris.

Paris, Nov. 30.—(2:50 p. m.)—The French official communication given out in Paris this afternoon is as follows:

"In Belgium the enemy is remaining on the defensive. The artillery fire has been feeble and we have made progress at certain points. In the vicinity of Fay we hold securely the positions we occupied November 28.

"In the region of Soissons there has been an intermittent artillery fire directed against the town.

"In the Argonne several attacks on the town of Dagatelle were repulsed by our troops.

"There has been a heavy fog on the heights of the Meuse.

"In the Woevre district the enemy bombarded the forest of Apremont, but without result.

"There is nothing to report in the Vosges."

BIG NAVAL BATTLE IS NEAR IN SOUTH ATLANTIC.

Montevedio, Nov. 30.—The recent reports that the German fleet is now in the south Atlantic appear to have been confirmed here today. It is also rumored that a powerful British fleet is nearby.

Interruption of British shipping and the outfitting of German merchant ships with supplies were accepted here as confirmatory of reports of the approach of the German fleet, which is now believed to be off the mouth of the river Plata.

The German steamer Patagonia is being loaded here with provisions, the Sierra Cordoba with coal and the Mera with coal and water.

Sailings of British steamers from Montevedio and the Brazilian port of Santos has been suspended.

Today's War News Given in Summary.

Germany acknowledges that the Russian northern army has penetrated into East Prussia to a distance of fifteen miles southwest of Cumbinen, which is about twenty miles west of the German border. In Belgium, says the French official statement, it is the allies and not the Germans who are now on the offensive. These two points stood out in today's news from the battle fields of Europe.

The German official statement says that strong Russian forces attempted a surprise attack on the fortifications of Darkehemen, in East Prussia, and that they were repulsed. Semi-official information from Petrograd is that operations along the Prussian front are turning to the advantage of the Russians and that the Germans are retiring in disorder. Meanwhile the great battle in Russian Poland, between the Vistula and Warta rivers continues without definite result. The German war office states that the Russians were defeated in a battle south of the Vistula and that 4,500 men were captured. Further south, in Galicia the Russians are said to have reached Cracow and to have begun the siege of the city.

According to the French official statement the German forces in Belgium are on the defensive and the allies have made progress "at certain points." Fighting continues in the Argonne, where the French statement asserts German attacks were repulsed.

The whereabouts of the German Pacific fleet, of which little has been heard since it sank the British cruisers Good Hope and Monmouth, off the coast of Chile nearly a month ago, has become one of the mysteries of the war. Dispatches from Montevedio again report that this fleet is now in the South Atlantic, although it was said last week to have returned off the Chilean coast. LAST DAY FOR PAYING TAXES

Revenue Collector's Office Crowded from Morning to Night.

Immense throngs have been streaming in and out of the revenue collector's office today, it being the last day for paying special taxes to the government without suffering the penalty attached for failure to pay. The time limit is up today.

Deputy Collectors McLaughlin and Thumma have been extremely busy getting the money and by the time the office closes this evening hundreds of dollars will have been collected from those affected by the new tax residing in this district.

Revenue stamps were received Monday morning, but as the demand was greater than the supply it was no time until they had been exhausted. Those unable to get stamps were instructed to get into communication at once with the revenue office at Indianapolis. The late arrival of these stamps at the local office has caused much annoyance and extra work.

Besides the hundreds of visitors at the revenue office each mail brings tax returns from those residing outside of Fort Wayne. In the opinion of Mr. McLaughlin a bulk of the tax will be collected by the time the office closes this evening.

RILEY SLATED FOR MANAGER

While no official announcement has been made it is understood that James E. Riley is slated for the position of manager of the Fort Wayne office of the Western Union to succeed Charles W. Mason.

Mr. Riley has been chief clerk in the local office for a number of years and thoroughly understands the duties of the office.

Announcement of Mr. Mason's resignation was made some days ago. He expects to devote his entire time to the Orpheum theater. Mr. Mason was appointed manager of the Fort Wayne office some months ago, coming here from Evansville. He also has worked for the company in Terre Haute and Marion, O.

R. D. FLEMING AND WILLIAM WIEGMAN KILLING PIGEONS THAT HAVE LONG HAD HOME IN ALLEN COUNTY COURT HOUSE

REFUSE TO HEED WIRELESS RULES

British Warships in Atlantic Hamper Commercial Messages.

New York, Nov. 30.—At least twelve British warships are now patrolling the Atlantic between New York and the Panama canal, sweeping the seas with their wireless, crowding ordinary commercial radios from the air and keeping close check on all forms of shipping, according to wireless operators on the steamship Ancon, that arrived here today from Cristobal.

The wireless activity of these warships, the operators said, is causing great inconvenience to the commercial work of American vessels, as the high powered waves of the men of war are heard continually in utter disregard of commercial business.

"These warships," the Ancon's operator said, "pay no attention to the rules governing wireless operations. With their high power apparatus they cut into the middle of a message and absolutely disregard all request to keep out. We have no means of identifying the ships, as they use code exclusively—code that appears to be made up of a combination of numbers. We counted twelve different warships that jammed our wireless on the way up."

The Ancon brought from the canal zone ten members of the congressional committee on appropriations who have been making an official inspection of the great water way.

WARD ESTABLISHES ALIBI.

Man Held in Connection With Florida Murder Freed.

Miami, Fla., Nov. 30.—R. B. Ward, arrested in connection with the death of A. A. Boggs and his daughter, Marjorie, whose charred bodies were found Wednesday last in the ruins of their home near here, was released from custody today. The authorities stated that Ward clearly had established an alibi. The coroner jury, which has been investigating the case had not concluded its work early today.

OPEN A WAR ON PIGEONS

Big Crowds See Attack on Feathered Hosts at Court House.

GAME WARDENS PICK THEM OFF

Shots Bring the Birds from Ledges of County Building.

Tremendous crowds witnessed the killing of the pigeons Monday morning around the court house and at times the street cars on Calhoun and Main streets had much difficulty in getting through.

Captain Rodney Fleming, of the state fish and game department, and W. H. Wiegmann did the shooting and so accurate were they in their aim that very few shots were wasted. Both gave a splendid exhibition of marksmanship. Very few pigeons landed around the court house that escaped death.

Soft Shot Used.

The two executioners used small guns loaded with soft shot so as not to mar the stonework on the building. In two or three days more pigeons will be shot and this will be kept up until they have entirely been gotten rid of. Ever since the court house was erected they have been regarded as a great nuisance, but no attempt has ever before been made to drive them away.

Throngs of boys, and others more fully grown, snapped up the birds as rapidly as they fell and carried them home, doubtless for use in forming the piece de resistance of a meal.

CABALLERO IN THE VILLA CAMP

Washington, Nov. 30.—Official dispatches today confirmed earlier reports that Gen. Luis Caballero, governor of Tamaulipas, has joined the Villa forces in Mexico. As he is in control of Tampico the peaceful entry of the troops which have been marching eastward from San Luis Potosi is now expected. Caballero has been claimed by both the Carranza and the Villa factions. Caballero has telegraphed to Gutierrez his allegiance to the Aguas Calientes convention.

In a dispatch dated at Queretaro, temporary capital of the convention faction, Special Agent Canova, of the state department, said a rumor was current that Gen. Pablo Gonzalez, one of the [illegible]

STORK WILL GET MOTHER'S MONEY

Little Girl Says Big Bird is Coming to Home at Christmas.

"And please dear Santa Claus, don't forget us 'cause mother says a big bird is coming to our house and she will need all her money."

This is the pathetic appeal in one of the letters received at the office of the Fort Wayne Sentinel from a little girl who wants to participate in the Sentinel-Empress fund.

She says she has a little brother and a little sister and she asks that both of them be remembered. This "big bird" that is coming undoubtedly is the the stork and those homes fortunate enough to have received one or more visits from this "big bird" have incurred expenses that eat into the stores of money heavily and where it has been there three or four times the burden on the head of the house becomes hard to bear and the only consolation is that it means another to love and care for.

However, to the man and woman who are dependent upon the earnings of the father are compelled to deny themselves many things and to deny their little ones the happiness of receiving presents at Christmas.

Fortunately there are a lot of very charitable people in Fort Wayne who will probably circumvent the stork, or rather who will prevent it from imposing an expense that will rob the children of the household of the happiness of the greatest of all holidays.

Last year there was a generous response to the fund and this year more money can be used as there is a greater demand for it and the fact that the list is opened earlier will result in larger subscriptions.

The list has been opened at The Sentinel office where the subscriptions will be received at any time. The lists are being received and investigations being made to insure that every dollar subscribed will be used for the benefit of children who would otherwise receive no gifts at Christmas.

RESIDENCE HIT BY $500 BLAZE

Fire, which originated in the cellar, damaged the residence of Philip E. Werkman, 2337 Hanna street, to the extent of $500, Monday morning.

It is thought that the fire originated in a pile of kindling, which became ignited by the heat from the furnace close by. The flames spread from the basement to the rooms above, which were badly damaged by smoke, fire and water. The loss is fully covered by insurance.

Mrs. Werkman, who had been in the grocery conducted by her husband, which is located the first door east of the residence, happened to return to the house about 10 o'clock and upon opening the door was choked by the dense smoke which filled the dwelling. She immediately called the fire department, which made a speedy run to the burning domicile. After an hour's work the firemen succeeded in extinguishing the flames.

STONE SPEAKS FOR EMPLOYES

Arbitration in Rail Wage Dispute Begins at Chicago.

SESSION LIKELY TO BE LONG ONE

Case is Most Important Yet to Come Under Arbitration Law.

Chicago, Nov. 30.—Arbitration of the differences over wages and hours of employment of 98 western railroads and their 55,000 enginemen began here today before a board of arbitration appointed under the provisions of the Newlands act. It is regarded as the most important case thus far to come under the law.

In a general way it is stated that the wage increases sought by the men is about 10 per cent. They were represented by Warren S. Stone, grand chief engineer of the Brotherhood of Locomotive Engineers, and William S. Carter, president of the Brotherhood of Locomotive firemen and enginemen.

The railroads were represented by the twelve committeemen of the managers' association assisted by legal counsel. The evidence it was predicted, will be largely statistical, although it is probable that about forty witnesses, divided equally between the two sides, will be heard.

It was thought that most of today's session would be occupied in adopting rules of procedure, arranging for the number of witnesses to appear for the respective parties to the arbitration and other routine matters. Ninety days are allowed to present evidence, and an award is expected ten days later. The arbitrators are W. L. Park and H. E. Byram, representing the railroads; S. A. Burgess and Timothy Shea, for the employes, and Judge Peter C. Pritchard and Charles Nagel, appointed by the government.

The board of arbitration selected Judge Peter C. Pritchard as chairman, and H. S. Milsted, of Washington, secretary. In the opening statement W. S. Stone, grand chief engiiner of the Brotherhood of Locomotive Engineers, presented the case of the employes.

Mr. Stone's Statement.

In his opening statement to the arbitration board Warren S. Stone, grand chief engineer of the Brotherhood of Locomotive Engineers reviewed the conferences which have preceded the present arbitration. The representative of the men laid stress on the hardships

MARION LAYMEN LAUD DR. LYON

Speak at Preparatory Meeting at First Presbyterian Church.

Great things were predicted for Fort Wayne as a result of the Dr. Lyon tabernacle meetings to be held here starting December 27, by two laymen of Marion, who spoke Sunday afternoon at the First Presbyterian church.

George B. Lindsay, editor of the Marion Chronicle, and Louie DeWolf, a real estate dealer, told to an audience that filled the large auditorium of the church what had been accomplished in Marion and if given proper co-operation predicted Dr. Lyon would do equally as great things in this city.

Mr. DeWolf said he had never spoken in public in his life until after the Lyon meetings. Before he had given little thought to the work of the church and was very much opposed to the tabernacle meeting. He said he felt it wasn't necessary to employ an out-of-town man to hold a revival, believing that the ministers of the city could do just as much good and at much less expense. He was soon to be convinced of his mistake, he said.

"A year ago I had little use for the church even though I believed in Jesus Christ," he continued. "I thought the churches were full of hypocrites, but during the Lyon meeting I made up my mind that it was better to be in church with a few hypocrites than in h— with all of them."

Converts From Muncie.

When 1,400 Lyon converts from Muncie marched past the club where he was sitting one night on their way to the tabernacle it caused him to think. He had often prayed for some dear one who was ill, but after they had been restored to health he had always gone on his way forgetting God and his duty to the church. He told of an explosion when his wife was horribly burned and for days hovered between life and death. At that time he prayed to God to save her and He did. Again he forgot his God.

It was the visitors from Muncie that caused him to really think and the next night or two he attended and soon was converted. He said he never knew before there were so many good people in the world.

The speaker urged the Christians of Fort Wayne to pray for the success of the meeting and then to work. He said it was hypocrisy to pray for a thing and not work for it. There has been a wonderful change in Marion since the meetings, he declared. The churches have been awakened and the city in general has been benefited.

"In years to come you will look back to the meetings in Fort Wayne and thank God for having sent Dr. Lyon and his party here," he said in closing.

Lindsay Talks.

While an active church member Mr. Lindsay said that at first he was opposed to the coming of Dr. Lyon. In spite of his opposition, however, the tabernacle was erected and he soon made up his mind to get in line.

"Whether the meetings are conducted as you would conduct them, even though Dr. Lyon does not preach to suit you, or the music is not to your liking, jump right into the meetings anyway," he said. "I made up my mind that an evangelistic meeting might even do me good."

He said he put his newspaper back of the movement, giving it space right on the front page. Although an editor always regards his editorial page as the sacred part of his paper he said he cheerfully opened that page to it, attempting to answer all objections and do everything he could to boost the movement.

At first he declared the meetings did not particularly interest him—it didn't seem that much headway was being made. But soon there was a great awakening, especially following the visit of the Muncie delegation. Then, he said, he began to sit up and take notice.

Not a Miracle Worker.

"I would not have you think that Dr. Lyon is a miracle worker," he continued. "At first you may be disappointed in him. He's very earnest and enthusiastic and not particularly gifted in oratory. I think his strength can best be explained in that biblical expression; 'Not by might nor by power, but by My spirit saith Jehovah of Hosts.' I think that is one reason why we had such permanent results."

Mr. Lindsay said that much personal work was done and that he believed that if the devil had come to reside in Marion during that time an effort would have been made to bring him to Christ. He told of the necessity for personal work, declaring that the people will be more responsive than at any other time. The meetings in Marion resulted in a general uplift in the town, better citizenship and better conditions generally.

NEW EFFORT TO SETTLE STRIKE

President Hopeful Commission May Bring Peace in Colorado.

Washington, Nov. 30.—Another effort at the settlement of the Colorado coal strike moved forward today with President Wilson's appointment of a commission to attempt to bring the operators and miners together. The commission is composed of Seth Low, of New York; Charles W. Mills, of Philadelphia, and Patrick Gilday, of Clearfield, Pa. All of them have been prominently identified with the settlement of labor troubles.

The commission will not deal with the present differences between the operators and miners in the Colorado coal fields, but will attempt to settle similar disputes in the future. Efforts to bring about a settlement of the present strike by an agreement between the operators and miners, it is announced, will be continued by the federal mediators who have been endeavoring for some time to adjust the controversy.

The president in a statement announcing the appointment of the commission reviews in detail the various steps taken by the federal government to bring about a settlement of the present troubles. He then expresses the hope that the parties to the controversy will make use of the commission as an instrument of peace to prevent a repetition of similar troubles in the future.

President Wilson's plan for a temporary settlement of the strike which he suggested some time ago contemplated appointment of a commission similar to the one he has just named. The plan was accepted by the miners, but rejected by the operators, their principal objection being to a commission.

The president said: "I think the country regretted their decision and was disappointed that they should have taken so uncompromising a position."

HAS NOTHING TO SAY.

Indianapolis, Nov. 30.—The Colorado coal strike situation was to form one of the principal topics of the adjourned meeting of the executive board of the United Mine Workers of America at the union headquarters here today. John P. White, president of the organization, said the unfinished business left over from the Philadelphia meeting would also be considered.

URGES A PHYSICAL TEST FOR COLLEGE

Columbia University Officer Says It Would Be Beneficial.

New York, Nov. 30.—A physical test is urged by Dr. William H. McCastline, Columbia university medical officer, as an entrance requirement for admission to the colleges throughout the country. In his annual report made public today Dr. McCastline says that if the entrance requirements [illegible]

school would be stimulated to take more judicious care of his physical needs and to encourage him to appreciate the relative value of health to the full enjoyment of play and work.

"For entrance to college a man must prepare himself intellectually for his work and show by certificate or examination his qualifications. Until recently, little attention has been given to his health qualifications and physical fitness.

"I believe that even with the raising of the standards of scholarship the college and university experiences would find men in a better state of health at graduation and in better shape physically as well as mentally to take up their life work, if proper stress be laid upon health and physical habits during the formative years of the boy's training in the upper elementary and high schools."

RUSS GUNS BATTER AUSTRIAN FORTRESS

Milan, Via London, Nov. 30.—(8:10 a. m.)—The siege of Cracow has begun, according to a correspondent of the newspaper Corriere Della Sera, who is with the Muscovite army.

He wires that the Russians are bombarding the forts with their heavy siege guns and that one of the suburbs of the city is reported to be in flames.

NOT CLAIMING SO MUCH.

Russian Triumph Over Germans Heavily Discounted.

London, Nov. 30.—(11:30 a. m.)—References to the Russian success in North Poland have become somewhat chastened since the cautionary report by Grand Duke Nicholas, commander of the Russian forces in the field, was made public. Nevertheless, the military critics in the capitals of the allies according to dispatches reaching London, remain convinced that the German invasion of Russian Poland has suffered a check which only the most strenuous efforts of the German commanders can save from degenerating into disaster.

A news report from Petrograd sets forth that the Germans, apparently ignorant of the extent of the Russian opposition along the Vistula are holding this opposition in contempt, threw heavy forces against the Russian center, leaving very thin lines of communication between their wings. This created a situation said to be without precedence in the history of military strategy.

In the meantime the resumption of the Russian offensive resulted in a wedge, dominated by Lodz, being thrust into the German center. If the Germans can hold their lines of communication with their wings intact the invaders may be able to withdraw, in the view of British observers, without suffering disaster.

Berlin and Vienna continue to report that the battle along the rivers Vistula and Warta is proceeding without decisive result, although minor successes attended with the capture of prisoners and guns are claimed for the Austrian and German operation.

On the western front, according to the communication given out in Paris last night, a lull prevailed except in the Argonne, where the German attacks are said to have been fruitless. Unofficial dispatches declare that Zeebrugge is again preparing for an assault from the sea, with the Germans directing their activities toward the suppression of all efforts to signal from the land to British ships off the coast.

CHURCH JANITOR HELD AS SLAYER

Mount Pleasant, Iowa, Nov. 30.—J. B. Jordan, janitor of the First Methodist church, is under arrest here today charged with the murder of his 19-year-old daughter, Inez.

The girl died November 18 as a result, it is charged, of eating poisoned pancakes.

Her mother, brother and the accused were also made ill at the time.

PUTS BAN ON BRITISH SONG.

Daniels Approves Action of Lieutenant Commander Evans.

Washington, Nov. 30.—Secretary Daniels today expressed approval of the action of Lieut. Commander F. T. Evans, commanding the naval training station at Newport in forbidding the singing of "It's a Long Way to Tipperary" by naval apprentices. Secretary Daniels said as "Tipperary" was the marching song of the British forces, it ought not to be sung or played by American sailors any more than should the Marseillaise or "Wacht am Rhine."

ROGERS

Charles Hopkins and John Edward Emery in "The Marriage of Columbine."

New York, Nov. 28.—Pews in a theater! It's a sight to make the most hardened playgoer gasp. And it hits him right in the face when he steps from the quaint and tiny lobby of the Punch and Judy, New York's newest "little theater," into its quaint and tiny auditorium.

There they are—some thirty rows of dark, polished pew-backs, stretching unbrokenly across from one side-aisle to the other. The impression of having gotten into a beautifully appointed little chapel is for a moment almost too insisted to shake off. Then you observe the asbestos drop, and the how of coop-like boxes running around the upper part of the wall, and you realize that you really are in a theater.

The Punch and Judy is an actor's dream of a theater, come true. Charles Hopkins is the actor. He wanted just such a little theater, in the metropolis, in which to produce artistic and intimate plays. He got the money. He built the theater, and he has produced his first play, "The Marriage of Columbine."

What's that? Did some one ask, "Where did an actor get money enough to build a theater?" Can't say. The program doesn't announce. But it certainly was some considerable stunt. There's many an actor on Broadway this fall who would like to get money enough to build a back-yard dwelling for a pom poodle.

Both exterior and interior of the Punch and Judy are old English in construction and design. On the stucco front, and also on the walls, each side of the proceniun, are painted representations of the historic characters after whom the playhouse was named.

"The Marriage of Columbine" is a somewhat satirical little comedy, dealing with the lives of circus performers in provincial England. It was written by Harold Chapin, an English actor, now at the front. Hopkins plays the leading part. His wife has the principal feminine role, and they are assisted by probably the most capable trio of character actors who could be assembled on the American stage today—Edward Emery, Louise Closser Hale and Herbert Yost. The work of these three, in this play, would justify the building of several new theaters.

NON-RESIDENTS PROHIBITED.

Will Not Be Allowed Hereafter to Seine Cisco in This State.

Seinin geisco by non-residents will not be allowed in this state in the future. Four Ohio and two Michigan men who had been seining cisco for a week at Clear lake were ordered to turn in their nets Saturday evening by Captain Rodney Fleming, of the state fish and game department. While seining cisco is a violation of the state law, which forbids the use of nets of any character, cisco fish cannot be caught in any other way and as a result the department has permitted it. In the future, however, the privilege will not be allowed to non-residents.

This Is the Heart of TOYLAND

Our Toy Section never held such a wealth of Toys from the Toy centers of the world as is shown this season.

Readers of this advertisement have, no doubt, seen from time to time statements to the effect hat there would be few toys for American children this Christmas. However true that statement may be in the majority of instances, it is totally disproved in OUR TOY SECTION. So far in advance do we order, and in such great quantities, that the Toys for The People's Store are among the first made and the first shipped. We repeat, THERE IS NO SHORTAGE OF TOYS HERE.

The children, and the fathers and mothers of children are invited to visit the Toy Section any day, whether to purchase or merely to examine at leisure the multitude of interesting things pertaining to the holiday season.

In its much enlarged and improved surroundings the Toy Section this year offers facilities for enjoyment never equaled in the history of the store. Third Floor.

BOYS FIGHT WITH KNIVES.

Bloody Duel is Fought by Lads in Huntington.

Huntington, Ind., Nov. 30.—A gash of four inches long was cut in Nelson Fosnough's right arm Saturday afternoon in a clash with Earl Isenberg in the alley between Jefferson and Warren streets.

Fosnough is twelve years old and Isenberg fifteen. The fight was the result of a quarrel which started last Friday, the younger of the boys resenting the question "What were you and the old woman chewing the rag about?" and replying "It is none of your business."

When they met yesterday in the alley the quarrel was resumed. Isenberg drew a large pocketknife and Fosnough defended himself with a penknife. There was no one to interfere and the boys sparred for an opening. Isenberg slashed Fosnough on the right arm and at the sight of the blood the latter broke into tears and hastened to a doctor's office and the former lost no time in going to his home. The cut was not deep, but required five stitches to close it. Fosnough choked back the tears and remained quiet when chided by the physician.

MARKLE SCHOOL NOT BARRED.

Bluffton, Ind., Nov. 30.—Markle high school authorities have been notified by the board of control of the Indiana High School Athletic association that its ruling in the controversy between Roanoke and Markle over the latter playing a professional in a recent basketball game was not intended to expel Markle from the association but the professional players, Von Crow, of Zanesville, whose entrance in a tied game which had gone overtime turned the tide in favor of Markle, can not play with any team in the association under the amended ruling of the board and Markle can continue meeting amateur teams in the county league.

TETANUS PROVES FATAL.

Hartford City, Ind., Nov. 30.—The first victim of the deadly corn shredder is Clarence Shaw, who died Saturday at his home west of the city from lockjaw following injury to his left hand, which was mangled in a corn shredder a week ago last Thursday. Tetanus developed last Wednesday and since that time Shaw's life had been despaired of. The decedent lived near Kidner bridge, about nine miles west of this city.

ELKHART PIONEER PASSES.

Goshen, Ind., Nov. 30.—Benjamin F. Kinney, aged 79 years and long a resident of Elkhart county, is dead at his home in Washington township, four miles northwest of Bristol, after an illness with a complication of ailments. Born in Snyder county, Pa., Oct. 22, 1835, Mr. Kinney came to this county by wagon in 1849, settling in Washington township. The journey required four weeks. In 1859 he married Miss Catherine Layton and they had ever since lived on the farm where they began housekeeping. Mrs. Kinney died the 21st of last month.

BOYS ARRESTED FOR CRUELTY.

Lagrange, Ind., Nov. 30.—Fourteen-year-old sons of Lee Fair and Dale Hart, of this place, are under arrest for cruelty to animals for having saturated a high-bred dog belonging to L. R. Wade with turpentine and setting fire to the inflammable liquid. The dog tore madly through the streets, his hairy coat a mass of flames. Edward Penchard caught the dog and extinguished the flames. The Hart and Fair lads were arrested and confessed. They implicate Ralph Foster, 18, in the act, claiming he furnished money to buy the turpentine and assisted to pour it on the dog.

WARSAW ELKS' MEMORIAL.

Warsaw, Ind., Nov. 30.—On next Sunday, Dec. 6, at 3 o'clock p. m., Warsaw lodge, No. 802, Benevolent and Protective Order of Elks, will hold its annual "Lodge of Sorrow." It is the occasion of the annual memorial services dedicated to departed members and the order of exercises is always appropriate for the occasion. Hon. Samuel Strickler, who is a member of Marion (Ind.) lodge of Elks, has accepted the invitation to deliver the memorial address.

AUBURN KINDERGARTEN OPENED.

Auburn, Ind., Nov. 30.—Auburn's first kindergarten was opened today at 9 o'clock at the home of Mrs. Carrie DePew on South Main streets. Miss Royce, an experienced teacher in kindergarten work and a licensed Indiana teacher, has charge of the school. The work will be conducted in such a way that at the completion of the term the pupils will be prepared to do primary work.

BOY LOSES ARM IN SHREDDER.

Columbia City, Ind., Nov. 30.—William Johnson, aged 20, had an arm torn off in a corn shredder on the farm of Henry W. Miller in Thorncreek township. The machine had become clogged and Johnson thrust in his hand to remove the obstruction and his arm was drawn into the roller and crushed to a pulp up to the elbow. Amputation was necessary.

CORN PRIZES AWARDED.

Van Wert, O., Nov. 30.—The second annual Van Wert county corn show came to a close Saturday and in the opinion of the judges and others qualified to speak, it was the best show of the kind ever held in this section of the state. The entries in the corn section number 215 and included some of the finest specimens of corn ever grown in this county. The prizes were awarded Saturday.

QUARANTINE NOT LIFTED.

Kendallville, Ind., Nov. 30.—Acting on advice given by Dr. J. W. Morr, health officer of Noble county, the local health authorities decided not to lift the diphtheria quarantine in this city today as had been intended. Dr. Morr thought it better to go on the principle of "safety first" and be sure that the ground already gained in fighting the scourge should not be lost by hasty action. It is believed the worst is over and that within a few days affairs will resume normal channels in Kendallville.

DOCTORS GET BIG WELCOME

Many Call During Day and Warmly Welcome Our New Specialists.

Such an enthusiastic reception as was given the great medical specialists, the Inter-State Doctors, is seldom accorded any scientific organization. All day long their quarters on the second floor at 205 West Berry street, were crowded with callers. Many patients from the city waited hours to get to consult the master specialist, Dr. Bartley, who is in personal charge. Business men were there also to extend a welcoming hand to the doctors.

One man came from Kokomo. Mr. Goodyear, of Wabash, came to see the specialist because his brother had been cured of rheumatism at the Inter-State Doctors' Steubenville, Ohio, institute. The doctors were very well pleased, but indeed tired, when the noon hour came and gave out news that other members of the staff would arrive from the east next week and an additional room secured, so that all callers can be taken care of promptly.

The grand offer of free examination, free consultation and free treatment, which extends to all callers before Dec. 15, is indeed a generous offer. The only charge made is for the medicine used, which must be cash. To the very needy medicine will be furnished free.

The object of this free offer is to show to the sick of the community what the Inter-State Treatment will do in curing long standing, deep-seated chronic diseases.

THE SENTINEL'S DAILY SCRIPTURE READING.

11 Peter 3:1-13.

1 This second epistle, beloved, I now write unto you; in both which I stir up your pure minds by way of remembrance:

2 That ye may be mindful of the words which were spoken before by the holy prophets, and of the commandment of us the apostles of the Lord and Saviour:

3 Knowing this first, that there shall come in the last days scoffers, walking after their own lusts,

4 And saying, Where is the promise of his coming? for since the fathers fell asleep, all things continue as they were from the beginning of the creation.

5 For this they willingly are ignorant of, that by the word of God the heavens were of old, and the earth standing out of the water and in the water:

6 Whereby the world that then was, being overflowed with water, perished:

7 But the heavens and the earth, which are now, by the same word are kept in store, reserved unto fire against the day of judgment and perdition of ungodly men.

8 But, beloved, be not ignorant of this one thing, that one day is with the Lord as a thousand years, and a thousand years as one day.

9 The Lord is not slack concerning his promise, as some men count slackness; but is long suffering to us-ward, not willing that any should perish, but that all should come to repentance.

10 But the day of the Lord will come as a thief in the night; in the which the heavens shall pass away with a great noise, and the elements shall melt with fervent heat, the earth also and the works that are therein shall be burned up.

11 Seeing then that all these things shall be dissolved, what manner of persons ought ye to be in all holy conversation and godliness,

12 Looking for and hastening unto the coming of the day of God, wherein the heavens being on fire shall be dissolved, and the elements shall melt with fervent heat?

13 Nevertheless we, according to his promise, look for new heavens and a new earth, wherein dwelleth righteousness.

Gary and the Vice Problem

Following a somewhat impressive fanfare of reform trumpets a few months ago, the city of Gary is permitting its old redlight district to re-establish itself, and administration authorities there are quoted as declaring that the policy of suppression has been a failure. It has been found impossible, says the Gary dispatch, to prevent disorderly houses from springing up in residence sections of the city, and whereat there as an ignominious retreat to the old conditions which provoked criticism and terminated in the upheaval that placed the present administration in power.

But one construction can be placed on such a decision as is now announced from Gary. It amounts to nothing less than a shameless admission of police inefficiency that is most amazing. The reform policy was inaugurated on July 29, last. In precisely four brief months of a trial the administration is willing to concede that it is beaten—that it is unable to cope with the powers of the underworld and that it is in point of fact not in control and is unable to enforce the laws. It virtually confesses to the world that it is unequal to the task it undertook, but one looks in vain for any disposition to step down and out and make way for others who might accomplish it. Altogether, the situation does not present an especially comforting basis for reflection.

Very happily, however, there is evidence that public opinion in Gary is not a unit as to the wisdom of the administration's retreat. Law-abiding citizens there are threatening impeachment of the mayor unless he rescinds the action under which the segregated district again becomes a recognized institution in the steel city. They decline to accept the administration position that it is helpless and refuse to believe that decency is a failure. Altogether the situation is one which promises some developments which ought to prove valuable to other Indiana cities with similar problems.

Following closely upon Russia's recent action in making that vast nation "dry" by royal edict, comes a movement to abolish liquor in the British army that promises to be effectual. Together these constitute the most noteworthy and most significant of recent temperance efforts. The leaders of these vast legions of fighting men are in position to see that the alcoholic drink is as great an evil in the business of war as it is in other avenues of life. The world is rapidly coming to realize that it will be vastly better off without it.

Marion county, which comprises the Seventh congressional district, discovers that in proportion to the representation in other districts of Indiana, it is entitled to constitute one and one-fourth of a congressional district instead of merely one as at present. Perhaps the under party in any of the districts surrounding the Seventh would be willing to spare one-fourth of the opposition if this little act of kindness would make the state capital any happier.

Doubtless the persistent habitues of the county jail will promptly catalogue the new determination to compel them to work along with those other horrors with which the European war is now filling the newspapers. Anything that is liable to break in upon the protracted periods of idleness and ease at public expense is certain to produce a profound shock among those who have been enjoying relief from life's strenuosities as guests of the county.

SUPERIOR JUDGE IN SAN FRANCISCO HOLDS COURT IN A STABLE.

Session of Judge Graham's court in a stable. On the extreme right is the judge. In the center of the picture is the chief witness—a horse.

San Francisco, Nov. 30.—Judge Thomas F. Graham, of this city, convened his department of the superior court in a barn here recently. A horse, a stableman, a farmer and a number of court attaches attended.

This is how it came about: James Smith, a drayman, was being sued by Thomas O'Hara, a rancher, for $73, balance due on a $3,000 shipment of hay.

Smith alleged and averred to Judge Graham that "rocks, bricks, clods and stones as big as your-r head, your-r honor, were in the middle of thim bales." so he held out payment on their equivalent value in hay.

As Smith couldn't bring his stable into court in order to prove his contention it was decided to move the court to his stable where the horse which had eaten the hay could be duly sworn to testify as to whether he had found rocks, clods and bones in his fodder or not.

PRESS COMMENT ON SMYRNA INCIDENT.

"A Friendly Act."

Ohio State Journal:—"The Smyrna harbor was mined. The shot across the bow of the launch was simply to impress the seamen with the warning that it was dangerous to proceed further. It was a friendly and not a hostile act."

"The Kindly Turk."

Kansas City Journal:—"It seems that the kindly Turk fired that shot only to warn of nearby submarines. How could we ever have suspected the benevolent purposes of our humane friend, the Turk."

"No Reason to Doubt."

Philadelphia Press:—"There is no reason to doubt the truth of explanations on the part of the officials of the Turkish government and neither is there any reason to believe that that government would intentionally offer any affront to ours."

"Smoke Cleared Away."

Cleveland Plain Dealer:—"So the haze and smoke are cleared away, and this little 'international incident' assumes its proper unimportance. No one has been barking or making faces at the United States."

"Not Exactly Hostile."

Kansas City Times:—"The Turkish shots at the Tennessee's boat are reported by the captain to have been not exactly hostile, but 'unfriendly.' Well, they might be so regarded."

"American Citizens."

Schenectady Gazette:—"It will be well for the government to impress upon Turkey, however, the fact that the Turkish government will be held responsible for any injury to American citizens within its jurisdiction."

"Subject for Congratulation."

Baltimore Sun:—"At all events, the explanation is one which we cannot refuse to accept, and the passing of this possible cause of international friction is a subject for general congratulation."

"The Last Thing."

Utica Press:—"The last thing Americans want is to be in any way mixed up with the present European complications, and there is no reasonable likelihood that they will be."

TIMES LOOKING UP.

(Grand Rapids News.)

There is no better barometer of trade and manufacturing conditions than the business forecast issued by the banks. To those who may doubt whether labor conditions are improving, the following bank statement may be of interest:

"Probably 40 per cent. of the labor employed in the metal trades, the textile trades and heavy manufacturing generally was out of employment at the beginning of this closing quarter of the year. Not since 1893 has the number of unemployed been so large in this country as on October 1. Since that date, increased orders for home consumption, the opening, conversion or equipment of factories for the making of goods previously bought in Europe and the receipt of heavy orders for supplies from the belligerent nations have each served to reduce the number of the unemployed. Within a fortnight, enough mills have resumed or increased their working forces to re-employ 25 per cent. of the idle, and it is safe to assume that not more than 25 per cent. of the labor usually employed in the heavy manufacturing lines is idle at this writing, with good prospects of the number being decreased daily. Among those concerns which have been favored with heavy orders from the nations at war, many are operating at full capacity and some working twenty-four hours a day for the first time in their histories."

Every condition today seems to point toward a prosperous year to come. America is becoming the supply station for Europe, and American labor is as certain to reap the benefit as the sun is certain to rise tomorrow.

Pointers for Women.

Almost every woman who has raised a family will remember instances where she has prevented serious sickness by having the right medicine at hand ready for instant use when needed. A common cold can be cured much more quickly when properly treated as soon as the cold has been contracted instead of waiting until it has become settled in the system. You will find Chamberlain's Cough Remedy especially efficient in cases of colds and croup in children. When given as soon as the child becomes hoarse, which is the first symptom of croup, it will prevent the attack. For sale by all dealers.—Adv.

The entertainment was an impromptu affair in honor of Mrs. Lizzie Mayer and her sister, Miss Sadie Churchill. The quartet is composed of Messrs. E. F. Yarnelle, O. H. Worden, A. J. Lang and C. L. Olds.

The Haffner homestead on Madison street was the scene of brilliancy and gaiety Thanksgiving night when the Nonpareil club was entertained at a reception that was the most notable in its history. Miss Emma and Mrs. George Haffner were assisted in receiving by a committee composed of Misses Laura Donahue, Laura Gouty and Emma Ferkel and F. E. Ehinger. The floral decorations were profuse and beautiful.

FEWER SUICIDES SHOW PROSPERITY

F. L. Hoffman, an Authority on Subject, Reports Big Decrease.

New York, Nov. 28.—A study of suicide in its relation to life insurance contributed by Frederick L. Hoffman, to the Spectator, discloses the fact that suicide is on the decline. The highest average rate per 100,000 of population in 100 cities of the United States is shown by the statistics from San Diego, Cal., where the average rate last year was 47.7, an increase of 6.4 on the figures for the decade ending in 1912. San Francisco is next, with a rate of 45.1, a decline of 3.9 for the same decade, and Sacramento, Cal., third, with a rate of 34.5, a decline of 4.7 for the decade.

The statistics show that the suicide rate for Manhattan and the Bronx last year was 17.8 in 100,000 population, a decline of 1.9 from the average suicide rate for the decade ending in 1912. Last year there were 533 suicides in the two boroughs, as against 5,087 for the previous ten years. The city showing the fewest suicides is Gloucester, Mass., where one person killed himself last year, as against thirty for the ten years previously a decline in the average rate of 7.6. For insured males, there is a decided increase in the rate, while for insured females the rate is practically the same for each period of life.

From 1903 to 1912, in 100 cities of this country, 40,765 persons committed suicide, being an average of 19.7 per 100,000 of population. In 1913 there were 4,470 suicides in the same cities, or a rate of 18.7. There was, therefore, an actual decline in the suicide rate of 1 per 100,000 of population. Of the 100 cities, 40 show an increase in the suicide rate and 51 show a decline. Out of 20 cities, which during the decade ending with 1912 had a suicide rate of from 22.6 to 49.0, 11 show an increase in suicidal frequency against 9 showing a decline.

"As far as it is possible to judge," says Mr. Hoffman, "a maximum suicide figure for American cities was attained in 1908, when the rate reached 21.8 per 100,000 of population. The rate of 18.7 for 1913 was the lowest on record since 1903, with the exception of 1906. A diminishing suicide rate may be safely assumed to reflect in a general way an improvement in the social and economic condition of the country, and in this respect the evidence available is quite conclusive that the year 1913 was one of widely diffused prosperity."

Mr. Hoffman says further that while much is being done through associated effort to diminish the mortality from typhoid fever, which in 1912 approximated 16,000 deaths, practically nothing is being done to produce a wholesale and necessary reaction of public opinion against the most indefensible of all crimes, the wrongful act of self-murder.

TEACHER-MOTHER ROUSES SYMPATHY OF NATION IN FIGHT FOR RIGHTS.

New York, Nov. 30.—While Mrs. Lorna Wagner, the New York high school teacher, is taking care of her new-born baby, the press of the nation and the people, too, are discussing the right of the board of education to suspend her because she lived up to her belief that teachers should not be barred from motherhood.

The board refused to give Mrs. Wagner leave of absence and suspended her because she remained out of school. She will ask the courts to decide her right to leave of absence.

Alfred Gamble Thinks in Figures and Thinks Like Lightning.

Rochester, N. Y., Nov. 30.—Alfred A. Gamble thinks in figures, and when he thinks he thinks like lightning.

When he was going to school in Rochester "teacher" called him "a crank on figures." He knew a whole lot more about them than she did. When he grew up, university professors became interested in him, and he's now giving demonstrations in "lightning calculating" before psychology classes in the west and northwest.

In six seconds this rapid-fire calculator can multiply 7,698 by 5,321 and give the answer, 40,955,737. Give him the date of your birth and he can tell you almost instantly the day of the week you were born.

"It's just a knack, this rapid figuring of mine," says Gamble. "I've been doing it ever since I was five years old. I was always adding or multiplying the house numbers and automobile license numbers and before I knew it I was a 'lightning calculator.'" Columbia, McGill, Syracuse and Berkeley are some of the universities before which Gamble has demonstrated his ability in figures. He is twenty-one years old.

Explosive Coughs Fairly Rack You to Pieces

Foley's Honey and Tar is Just Like Oil on Troubled Waters for those Violent Racking Coughs.

They rasp and strain your throat, tear at your chest and lungs, congest the blood in your neck and head, almost strangle you, leave you weak and fairly exhausted. Often they are a symptom of such grave diseases as bronchitis, pleurisy, pneumonia—even tuberculosis.

"Oh, for a bottle of FOLEY'S HONEY and TAR to stop this awful coughing."

FOLEY'S HONEY AND TAR COMPOUND spreads a healing, soothing coating as it glides down the raw inflamed throat. It loosens the cough, brings the phlegm up easily. Takes away that tight feeling across the chest, and eases stuffy, wheezy breathing and hoarseness.

A dealer of Toledo, Ohio, (name furnished) who has sold FOLEY'S HONEY AND TAR for years, writes: "One of my customers came into store to use long distance telephone. He was coughing so violently that he could not talk. I sat him down and gave him a bottle of FOLEY'S HONEY AND TAR, and in 10 minutes he had recovered. He had been unable to work for three months, due to this cough. He says FOLEY'S HONEY AND TAR relieved him entirely of this trouble."

S. MARTIN, Bassett, Nebr., writes: "I had a severe cough and cold and was almost past going. I got a bottle of FOLEY'S HONEY AND TAR and used it frequently, when having violent coughing spells, and am glad to say it cured my cough entirely and my cold soon disappeared."

AT THE TEMPLE.

With a bevy of delightfully graceful young girls furnishing a sweet, charming background for a medley of pleasing dances and contributing materially to the enjoyment of a score or more catchy song hits presented by the peppery, gingery principals, "The Froliques of 1914," the opening performance of the Temple's new burlesque season, is on in full blast. Daily matinees at 2:30 o'clock and evening performances at 8:15 o'clock will be given throughout the week, the Froliques having been booked here long enough to insure everyone's enjoying an opportunity of seeing it.

The Temple's burlesque is super-refined, retaining only the ginger, go and vim of the old style burlesque endeavors with everything suggestive rigorously eluded, but sacrificing none of the pleasure to be derived from a pretty chorus and superb principals.

AT THE EMPRESS.

Morris and Allen, the comedians with the pies, headline the new bill for the first half of the week at the Empress theater. These two young men are comedians who sing with all the success of grand opera stars and their offering gets lots of applause. They have a line of up-to-the-minute comedy and a bunch of songs that are snappy and modern.

"The Man From Italy" is the interesting title of an interesting sketch that is being presented at the Empress by Murry Livingston and company. Mr. Livingston plays the main role in this dramatic comedy playlet, which tells the efforts of an Italian to find his little daughter whom he has not seen for fifteen years. The manner in which he finally discovers her is unexpected and wholly delightful. The remainder of the bill is also pleasing.

AT THE JEFFERSON.

"WHEN THE EARTH TREMBLED."

Is Powerful Co-Attraction With "The Prison on the Cliff" and One of the Linder Farces.

Do you like action? Do you like a good love story? Do you care for a tale crammed full to overflowing with mystery, intrigue and red-blooded adventure? If you do, then you will be an interested spectator at the Jefferson today. The moving powers will evidence themselves in the form of two exceptional dramatic releases, "When the Earth Trembles" and "the Prison on the Cliff," a couple of brilliant photoplays containing an appeal that penetrates and grips. The first named of these pictures is an adaptation from the E. P. Roe novel of that title.

Found on the same program with these two features we have another of the famous Max Linder comedies. Linder is the highest-priced comedian appearing in motion pictures, and in this absurdity, called "Max Has the Boxing Fever," we are given to understand the reason why Linder commands fifty thousand dollars a year for his efforts.

Tomorrow Clara Kimball Young comes to the Jefferson in Owen Davis' peculiar drama, "Lola," the story of a girl who was brought back from the [illegible]

AT THE MAJESTIC.

Thurston, the Magician, at the Majestic, Starting Thursday.

Thurston, the magician, will be the attraction at the Majestic three nights and Saturday matinee, opening Thursday, Dec. 3rd.

Few people know of the extent of his tours. Three times has he encircled the [illegible]

pronouncable titles, have also been astounded by his wonderful performance.

It is no wonder that people of all nationalities want to see this man and entertainer, who attracts by his marvelous mysteries thousands who rarely attend the theater.

It is a great program that Thurston presents this season—many of the old favories that his admirers have seen before and will be more than anxious to see again, and many new ones, including "The New Woman," "Noah's Vision," "The Evolution of the Negro," "Aerial Fishing," "Balaam and His Donkey," "Animated Sketches" and a score of others go to make a program said to be the best offering in the history of magic.

THE ORPHEUM.

"THE MASTER KEY."

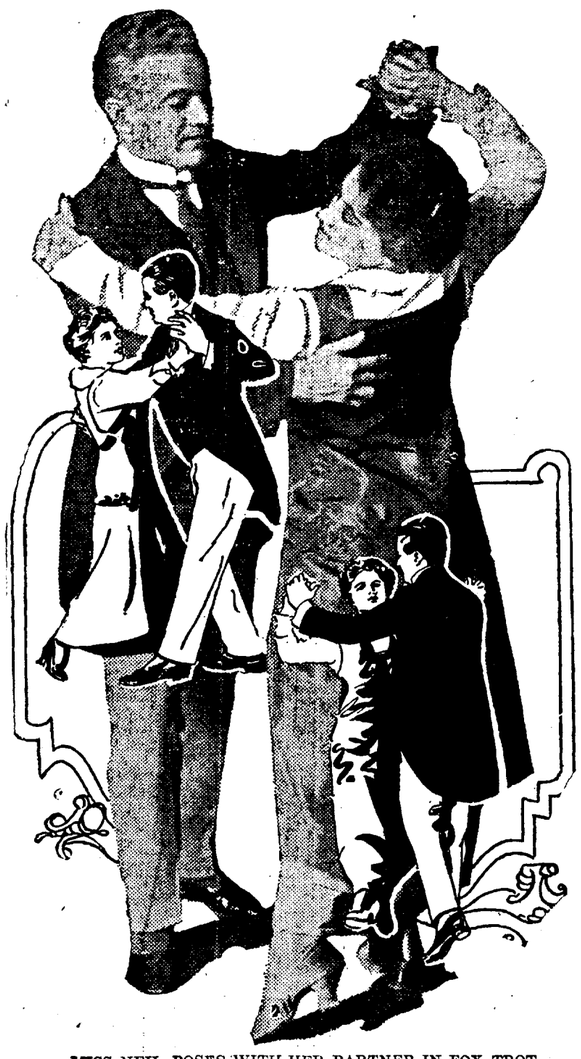
Third Chapter of Story-Picture Headlines Program.

Springing into instant favor at the projection of the very first installment, "The Master Key" is a photo-drama that has set wonderful precedents, and impressed the theater-going public of this city immediately with the significance of the claim of the producers; to-wit: That this is the greatest, the most comprehensive and the costliest serial picture ever made. A tale of adventure and love, it abounds with gripping circumstances, thrilling passages and tremendous climaxes that fairly shake the onlooker with their sheer dramatic power. Robert Leonard and Ella Hall, two of the most prominent luminaries in the moving-picture kingdom, assume the leading roles.

The co-feature with this powerful attraction introduces us to one of the uproarious L-K comedies, "The Blighted Spaniard." Special numbers have been arranged by the orchestra, prominent among them being Sousa's "Charlatan" march and a late "hit" entitled "What More Do You Want." Miss Lyons will sing the official song of the Panama-Pacific Exposition, "California and You."

Next Wednesday and Thursday the long-looked-for "Newlyweds in Fort Wayne" pictures will be seen at the Orpheum.

NEWEST OF "TROTS" IS THE FOX TROT, AND MISS NEIL WRITES OF IT.



MISS NEIL POSES WITH HER PARTNER IN FOX TROT.

Here's another new dance.

Yes, it's a "trot." Most of the new dances are "trots" of one kind or another, but the long, loping stride of the fox, not the strut of the turkey, is the model for the newest "trot"—the "fox trot" that has just come out of London and is presented now to Sentinel readers by Miss Edna Neil.

Miss Neil will tell exactly how the "trot" is danced by exponents of correct ballroom dancing, and that means there are no high "kicks" or vulgar "dips" or fantastic "limps" to detract from its grace or to mar one's enjoyment in the newest of the season's "trots."

Miss Neil is a pupil of Pavlowa's and the originator of many of the season's [illegible]

fox trot; the basic step is merely a walking step, the gentleman stepping forward, with the left foot, the lady back with the right.

The dance is opened with four slow one-steps, allowing two beats of music to each step. After these slow steps there are eight fast steps, allowing one step to each beat of music. As the music is very fast, this makes a sort of patter step. These eight fast steps are continued after each of the following figures.

Figure 1—Gentleman steps left diagonally forward to two counts of the music, slides right across behind left to two counts of the music and runs forward four steps, left foot beginning the running step. Each of the four running steps is done to one beat of the music.

to the front. Gentleman then runs, left foot to left side (count one) to the music, right cross back (count two), left to left side (count 3), right to right side (count 4), left cross back (count 5), right to right side (count 6), and continue through 12 counts or three measures of music.

Figure 3—This is a maxixe two step. Gentleman does a maxixe with left foot (count 1, 2, 3), hold (count 4), four running steps backward beginning with the right foot (count 5, 6, 7, 8). Repeat, starting with left foot.

Figure 4—Fox trot turn—Four running steps, left, right, left, right. Then four running steps, turning to the right in a complete turn.

Figure 5—Wave and box turn—Gentleman takes three steps to the left of his partner or left, right, left, three to the right, three to the left and turn half around, having partner on his left side after the turn.

HOUSEHOLD HELPS.

When engaged on delicate needlework a good idea is to have a little flour in a saucer by you and to dip your fingers in it from time to time. This will not only keep the hands dry, but the work beautifully clean.

Silk handkerchiefs should be washed in a warm lather made with pure soap. This should be blued, as should the rinsing water. Roll up tightly in a cloth and iron the handkerchief between linen or they will turn yellow.

Heavy hats cause headaches and are very bad for the hair. A hat should be light and should not be worn so tightly on the head as to exclude all the air. Lack of ventillation for the hair is one of the causes of baldness.

Destroy the smell of paint by placing pailfuls of cold water in the rooms which are being painted. Change the water night and morning, and, when possible, add a handful of hay to the water in each pail.

As a special we have a 75c four-in-hand tie put up in beautiful Christmas box at 50c. Over 300 patterns.

BLUNDER BY AN ADMIRAL DID IT

Tradition Forced Our Occupancy of Vera Cruz for Seven Months.

(By Gilson Gardner.)

Washington, Nov. 30.—It was a blunder which landed the American forces in Vera Cruz—a blunder by an admiral. Traditionally the admiral was right, but the tradition survived from a time before there were telegraphs or cables or wireless, when admirals were entrusted in distant waters with the functions of international diplomacy. Admirals in the old days were accustomed to uphold the dignity of the nation by compelling respect for the flag and by insisting upon certain formal observances like the firing of guns in salute of the flag and the presentation of apologies when these observances were neglected. Thus it happened that what an admiral regarded as an insult to the American flag made it necessary for the president to send the fleet and 6,000 men to Vera Cruz and to keep them there at large expense for many months.

President Wilson has always opposed war or any step which would lead to forcible intervention in Mexico. But like the kaiser, he is partly surrounded by militarists and in the Mexican incident he was to a certain extent a victim of our military coterie. It was pointed out to him that the morale and prestige of the whole navy would be destroyed should he refuse to back up the admiral who had demanded salutes and apologies without consulting his superiors in Washington. So he backed up the admiral and at once found himself in the position of making war against a friendly people without a declaration of war and without a casus belli. With this situation confronting him, his purpose, quickly hit upon, was to back out with as much dignity as might be assumed. The mediation by the three South American countries was a part of the machinery of this dignified retreat. His final victory was achieved Tuesday, November 24, when General Funston evacuated Vera Cruz and the Mexican revolutionists were left to stew in their own revolution and the Mexican people to work out their political salvation by revolution or otherwise as all nations have done since nations have existed.

Of course American concession holders, including speculators and investors in mines, railroads, oil wells and ranches in Mexico, disapprove of the president's policy, and of course they were keenly disappointed when he resolutely evacuated Vera Cruz. Even the administration organ in New York, The World, shed tears of salt with the regret of depreciated Mexican smelter, mine and railroad securities. It was unpatriotic and poor politics from Wall street's point of view. Even the democratic glorifiers of Wilson as our principal angel of peace gagged at the practical promotion of peace evangelized in the withdrawal of our fleet and troops. Hearst, too, with his million-acre ranch, has suffered the agonies of a boy with green-apple colic.

The explanation is simple on all sides, and the president's Mexican policy is easy to understand when one keeps in mind always this fact: That we blundered into Vera Cruz and that our effort to give the Mexicans freedom and constitutional government does not really extend to a deliberate purpose to shoot them down in order to force democracy and self-government upon them.

Some plan for a system of personal credit banking rather than for land mortgage banks seems to be favored now as a solution of the rural credits proposition. The conference here is working along the lines of the so-called Millikan plan, which is embodies in a bill to aid farmers in pooling their own credit so that this credit may be issued by themselves to carry on farm operations and improvements rather than to establish banks which will refund farm mortgages at a lower rate of interest.

The kitchen sink has commanded the attention of the scientific brains of the agricultural department, and for the liberation of the housewife, a bulletin is now published which declares, "most sinks are too low for even a woman of medium height to wash dishes without stooping and it would be better to have a box or stool for a child or short person to stand on than to oblige a tall woman to stoop to a low sink. The bottom of the sink should not be less than thirty inches from the floor and thirty-one inches is better for a woman of average height." In the same bulletin are a lot more hints about rearranging stove, table and sink in their relation to the pantry door and the dining room door, in order to save steps for the housewife.

BEST SEASON IN FRIAR'S HISTORY

Closed With Victory and Fans Saw Excellent Gridiron Work.

(By Morton R. Williams).

With a victory that read 38 to 0 over the Congerville Athletic club football team of Muncie, the Friars closed on Sunday the best season in the history of independent football here, both in point of good sport and financial success the year will go down as a high mark for the athletic boards that come after the present one.

The record of games for the year is seven won and three lost and in hanging up this mark the Friars have taken on some of the best of the independents and added one college-trained club to the list.

There is just one regret. Wabash is yet to be beaten. Men on the club, the entire membership of the Friars and all of Fort Wayn's vast crowd of fans wanted to see that Wabash crowd downed this year but this pleasure was not afforded them. However, another season is coming.

In addition to the defeat administered by the Wabash club, the locals lost to the Evanston North Ends and to the South Bend Silver Edge aggregation, and among the clubs defeated were the Walsh hall of Notre Dame, Jackson, Mich., Mapleton of Indianapolis, Alexandria and Huntington.

Advanced prices did not materially affect the attendance and the patrons indicated that they will pay good prices to see good football and apparently they were satisfied with the results. The support given the team is all that could have been asked and Prof. Louis Ward, Capt. G. E. Byreade, the players and the athletic board all share in the honor of giving Fort Wayne its best season in football.

Congerville has been here twice before and in the defeat of Sunday lost the rubber game to the Friars.

The visitors kicked off and the Friars lost the ball on a fumble and Muncie started to gain but the locals tightened and they were forced to punt. The Friars got the ball, lost it and recovered it and pulled up to the Muncie goal when Chambers carried it through for the locals' first touchdown. Laird added another point with the kick. During the remainder of the quarter the ball was in the possession of the Friars and the play went up and down the field. This period was the best one played, there was little scrapping and no dirty playing to speak of. In the last part of the period Baird caught a long pass and the play netted the locals forty-five yards. The quarter ended with the ball on Congerville's twenty yard line in Friar hands and the score 7 to 0.

At the start of the second Laird on an end run ran across the Muncie goal but the referee ruled that he ran out and the ball went to the one foot line, from which place Island carried it over. For the next five minutes Muncie and the locals alternated with three attempts to gain, punt and repeat with the opposite side. After this bit of play the visitors made two first downs, netting them a total of twenty-five yards, but after that were unable to gain and the ball went over. A pair of forward passes, one to Pask and the other to Baird, gave forty yards, but on attempting to work the pass game again, a touchback was made and the ball was put in play on Muncie's twenty yard line. After a penalty for off-sides Muncie punted; Island caught the kick and ran, squirmed and wiggled through the field for forty yards. Another end run by Laird gave the Friars their third six points. This was increased one more by his successful goal. The locals had no more than kicked off when the time of the period was up. Score 21 to 0 in the locals' favor.

After the first few minutes of play, when the locals had gained possession of the ball and had lost nearly ten yards, Laird, backed up as if for a drop kick, and then proceeded to make up the loss and a few yards to spare by a fake. After this bit of inside football the Friars lost ground and were forced to kick. Checkaye got the ball back of his owon line and got to his own three yard line when he was dropped. While attempting to punt out of danger Muncie was downed by Laird for a touchback. It was Congerville's ball on the twenty and she punted out of such close quarters. After the locals had lost some ground Island made it up and on coming closer to the goal dropped one over. Some minutes later the Friars got the oval on a fumble and Lubker, who was in at quarter, Island having been hutr in a collision with a heavy Muncie player, gained twenty-five on a quarterback run. A forward pass to Baird gave the same amount and Lubker went through for another touchdown. Laird missed goal. The quarter ended with the score at 32 to 0.

In the first five minutes of play Lubker ran around end for a touchdown after the locals had been penalized twice. Laird was not in form and he missed the kick. The rest of the game was little more than a slugging match, the Congervilleites having found that it was impossible to win took no pains to conceal their slugging and it was visible from all parts of the field. When the whistle blew the score was 38 to 0 and the locals were thoroughly tired out and disgusted.

The whole Friar back field was in great form and its play was largely responsible for the local victory. The Friar line was not in such good shape but all played good ball considering the team they went up against.

Lubker scored the most touchdowns, with two to his credit, and Island came next with one touchdown and a field goal. Chambers and Laird each had one..

The Preliminary.

The West Ends and the South Sides clashed in a one-sided contest that was all West End until the last minute of play when Minnich of the losers dropped one over the goal posts from the thirty yard line. The game was on ice from the time the West Ends started their triumphant march to their first touchdown until the referee's whistle ended the contest and gave the winners the undisputed amateur championship of the city. The game was fast and well played throughout and was minus the kicking which marred the big game. Touchdowns were scored by Bradley, Herring, Bauer and Hilgeman, while Herring, Merrill and Bradley kicked goals. The lineup and score:

SPEEDSTER GETS EARLY START

Billy Carlson

With the race yet six months away, Billy Carlson, shown above, is already lined up for the next Indianapolis sweepstakes contest, at the wheel of a Maxwell. He believes in getting an early start. Carlson is one of the youngsters of the racing profession, but, nevertheless, must be figured with the best of them.

O'MARA WAS OFF TO GREAT START

Former Fort Wayne Player Hitting Fine Clip When He Was Hurt.

Ollie O'Mara was going at a great clip with the Brooklyn National league club when he broke one of his legs early in the season and was retired for the remainder of the year as the official batting averages which have just been released for publication indicate that in sixty-seven games he hit for an average of .263, stole fourteen bases and his safe drives netted him a total of eighty-two bases, ten of his wallops having netted him a couple of sacks each while he landed two three-ply blows and one that was good for the circuit.

Most players have some difficulty getting back in their stride after breaking a leg, but O'Mara is not more than tyenty years of age and his injury ought to mend rapidly and permanently.

One of the saddest things in the official records is the line devoted to John H. Wagner, of the Pittsburg team. This great swatsman and popular baseball player tumbled from his lofty seat in the .300 division to .252 in 150 games and it is safe to wager that in the entire league there is not a player, manager, owner or anybody connected with baseball who is not sorry that this grand veteran of the national game did not finish in his accustomed place among the leaders.

As has been said before, Joseph Connoly is the only Boston player who landed in the charmed circle. He played in 120 games and his record is largely due to the generalship of Manager Geo. Stallings, who did not force him to bat against the left-handed pitchers, and in that way made the best of his batting strength.

Eugene F. Hargrave, who went to the Cubs from the Terre Haute club, and who helped to make the town of New Haven, Allen county, Indiana, more or less famous, played in twenty-three games during his first year in the majors and compiled a batting average of .222, which is pretty good for a youngster whose time was mostly taken up warming up pitchers.

Bob Bescher barely held his place with the Giants as his batting and base running were below his normal standard. He hit .270 in 135 games and pilfered thirty-six bags. This makes him a valuable player but his friends believe that under the tutelage of Manager John J. McGraw he would develop better strength both on the bases and at bat.

George "Dode" Paskert, who had a year of misfortunes, managed to plug along in the face of difficulties and in the end he hung up a mark of .264 in 132 games, while Maximilian Carnarius, otherwise known as Max Carey, slumped badly in batting and base running and in 156 games attained a record of .243 while his base running record suffered very materially and only thirty-eight times did he manage to beat the catchers' throw to the bag.

Edward Joseph Pfeffer, whose pitching for the Brooklyn team was one of the marvels of 1914 baseball, held his own as a batsman. He hit .198 in forty-four games and that is about as well as he ever did in the Central league, which shows that the former Fort Wayne and Grand Rapids hurler hit just the same against National league pitching as against the brand served in the minors.

Earl Yingling's transfer to the Cincinnati club evidently affected his batting eye. Last year he was a pinch hitter extraordinary for the Dodger outfit but when the figures were tabulated at the close of the 1914 season they indicated that this celebrated southpaw had only .188 to his credit. Pete Knisely tumbled to .130, and although William L. Doak, known in Central league circles as "Whitey," hurled marvelous ball for the Cardinals, the best he could do with the willow was .111.

West End Athletic Club Foot Ball Holds the Amateur Championship of Fort Wayne for 1914.

Front row, left to right—Merrill, Hilgemann, Startzman, Brinker, Siples, Meyers.
Rear row, left to right—Bradley, Southern, Murphy, Herring, Seymore, Bauer. Wilt and Rabus, two of the players on the team, were not in the line-up when it beat the South Side Athletic club, and won the title.

GOLF AND AUTOS HURT BASE BALL

Attendance Falls Off and These Are Two of the Causes.

(By Hugh S. Fullerton.)

There has been much argument during the last year as to whether or not baseball will regain its past popularity.

There are some who, deceived by tricks in figures, contend that baseball has not gone back. The truth is it has dropped approximately 40 per cent. in the organized leagues since 1914 high figures and that includes an approximate loss of 25 per cent. in one major league.

Even with the addition of the attendance on Federal league games last season major league baseball shows a heavy loss in attendance. The three leagues drew last year approximately 10 per cent. fewer persons than two did in the years from 1908 to 1912.

There have been so many reasons assigned for this decrease in interest all over the country that it is worth a study. One thing is certain, when there are great major league races minor league business increases. People are interested in baseball and go to any kind of game. When the prospects of a race are poor in the major leagues, business is poor in the minors. This was the case last season—until Boston started its phenomenal spurt. Then business improved all through baseball. Even the Federals drew better. Hard times also are blamed, disgust with the actions of the owners, the greed of players, the Feds, almost everything has been advanced in explanation.

Conditions in Chicago are just about the same as in all other towns. Chicago's attendance fell off heavily, the three clubs not drawing as well as two usually do, even though Comiskey held up well in attendance. Why did not the people go to baseball?

There are around Chicago approximately fifty golf clubs. From figures obtained at least 25,000 persons play golf or watch it at the week ends.

An automobile statistician furnishes figures to prove that on a nice Saturday afternoon or Sunday there are at least 180,000 persons riding in automobiles. Figure one-third of that number as men and boys and you have 60,000 out in automobiles.

That makes at least 85,000 men and boys of the athletic outdoor type drawn away from baseball on Saturdays and Sundays.

But it will require good baseball and exciting races to get a golfer to quit active playing of golf in order to watch someone else play baseball and it will take much to get a fellow to abandon an automobile ride into the country to sit in a grandstand. If you don't believe it wait until you are invited to a ride and a ball game the same afternoon.

JUDGE EGGEMAN SPEAKS HIS MIND

Criticises Opponents of Detention Home in Sentencing Girls.

"But for the fact that some people in this city have effectively opposed it we would have in Fort Wayne a proper place where you might be cared for and given the influences and surroundings that would make you a better woman. We need such a home and you ought to have the care and influence of such a home, but the opposition I speak of has prevented our having it, though it is well known and admitted that a detention home for girls is one of the greatest needs of this city. I have no other course, much as I would like to give you the chance you deserve, than to let the sentence stand."

So spoke Judge John W. Eggeman in the circuit court Monday forenoon in pronouncing sentence on Mrs. Velma Myers, one of the three young shoplifters arrested last week. Judge Eggeman spoke with feeling and his allusion was to opposition that was made to the plan to use the home of the late Samuel Baum, 1313 West Wayne street, as a detention home for girls and women. Miss Minnette Baum, who inherited the property from her father, had offered to utilize the residence for that purpose, but the proposal aroused in the neighborhood an opposition that seems likely to defeat the proposed benevolence.

Mrs. Velma Myers, aged 19, and her sisters-in-law, Misses Millicent Myers, aged 20, and Naomi Myers, aged 18, pleaded guilty to petit larceny and on their pleas the state rested. The young women were put on the stand by the defense. Each told the story of her life. Millicent and Naomi Myers early in life lost their father, the late Charles Myers, of Huntertown, and were left on the hands of their mother, who was then and still is an almost helpless paralytic. They were put in the Allen county orphans' home and for varying periods remained there. Millicent left when young and most of the time worked for her living. Naomi remained there until older and was for a time in the Julia Work school for girls at Plymouth. Mrs. Myers lost her father when she was a young girl and she told of a long course of wandering from city to city to earn her living. She met her husband, Clarence Myers, brother of the other two girls, in Kansas City. Last April they were married in Fort Wayne. All the girls denied that they had ever stolen anything before they began their shoplifting campaign in this city two weeks ago. Millicent confessed moral delinquency of another sort. They confessed the robberies at the Myers Dry Goods company's store, at the People's store, at Saul's and the stealing of a set of furs at the Orpheum theater. When they presented themselves for sentence, Millicent Myers, weeping bitterly, asked Judge Eggeman to be merciful to her younger sister, whom she said was less to blame than any of them. Judge Eggeman then pronounced the following sentences: Mrs. Velma Myers, ninety days in the correctional department of the woman's prison; Millicent Myers, one to eight years in the woman's prison; Naomi Myers, ninety days in the correctional department of the woman's prison. The age of Millicent compelled the court under the law to be more severe, but the sentence was suspended on her promise to go to the home of Mrs. James Nipper, in Lakeside, where she will be taken care of. She promised to be obedient and to keep off the streets. Naomi's sentence was suspended upon her promise to go to the Julia Work school for a time, try to improve her education and to make a good woman of herself. Judge Eggeman had no alternative but to commit Mrs. Myers to the correctional department of the woman's prison and it was when he spoke of that being the only course that he alluded to the defect of the detention home plan.

The three girls were arrested by Detective Sergeant W. F. Pappert and Officer Charles Eisenhut in their rooms in the old Calderwood hotel block, where some $300 worth of stolen property was recovered.

The great sale of Hart, Schaffner & Marx fine suits and overcoats at the Patterson-Fletcher Co. store began at 10 o'clock this morning. Although the weather is very bad for winter clothing the store was crowded with buyers. One thing quite noticeable was the many outside customers from places like Bluffton, Huntington, Lagrange and Auburn. When these people see Hart, Schaffner & Marx suits and overcoats at $12 and $15 that cost them $22 and $25 at home they do not have to be urged to buy.

TRIP IS POSTPONED.

Tour of County by Red Cross Seal Workers to Be Made Later.

Because of the inclement weather the automobile tour of the county in the interest of the sale of Red Cross seals which was to have started Monday morning has been postponed indefinitely. Just as soon as the weather will permit it is expected that all the towns in the county will be visited.

While several sales were made Monday there was none for any large amount. Those sold today were as follows: Fort Wayne Mercantile company, $10; Perry Randall, $5; Ed Longfield, $5; Seavey Hardware company, $5; Klett Lumber company, $5; Keller & Son, $5; L. H. Ransom, $5; Improved Order of Red Men, $5. A total of 106,700 seals have been sold since the campaign started and a strenuous effort is being made to pass the 300,000 mark.

NEW HAVEN ROAD IS OPEN.

That the new concrete road from the city limits to New Haven is now fully completed and open without restriction it entire length is announced by the county commissioners. PRISONERS ALL PLEAD SICKNESS

Not a Man Consents to Go Out of Jail to Work for City.

"Are we sick?"

"Yea, verily, we are sick unto death."

"Do we want to go outside to earn our bread in the sweat of our brows?"

"Verily, we do not."

"Shall we work?"

"Nay, good masters, none of us shall work."

Of this import and tenor was the almost unanimous rejoinder of the twenty-one bums in the Allen county jail when told to get ready Monday morning to go out and work for the city of Fort Wayne. Twenty-one had been inspected and thought fit for labor. Of these an even score pleaded sickness or physical unfitness of some sort. Every malady from an old stomach trouble to corns and ingrowing toenails was given for refusing to work. The one man who was willing to work was not permitted to go because it is suspected that he means to take leg bail if he gets a chance.

The weather may have had something to do with it, but the fact remains that instead of a dozen prisoners being put to work along the river banks under Street Superintendent Strodel not a county convict heaved a shovel load or delivered a stroke with a pick or an ax. Another trial will be made with them.

TESTED UP TO LIMIT.

A Load of 3,000 Kilowats Put on New Unit at Lighting Plant.

The new 3,000-kilowatt turbo generator at the city electric light plant was given a test up to the limit Monday afternoon. The full load that the big generator is designed to carry was put on it and it stood the test. The new unit that has more than doubled the capacity of the city light and power works, had been given previous tests, but this was the first full load it had been asked to carry. The current from the new unit will not be put on the distribution lines until further tests of connections have been made.

WILL BRING BACK THE PLANS.

General Agent Blair, of Nickel Plate, to See Engineers.

General Agent S. K. Blair, of the Nickel Plate railroad, informed the board of works Monday that he would be in Cleveland Tuesday and would then obtain from the Nickel Plate civil engineers the plans and estimates for grade separation at Canal and Coombs streets and for the elevation at a new street the railroad proposes as a substitute for the other two. The board is waiting for these plans in order to pass a resolution for track elevation at Canal and Coombs streets, which the people of the east end are clamoring for. A new saloon is being erected on property that will have to be vacated to widen Canal street if that thoroughfare should be opened across the tracks.

OIL PEDDLERS COME IN.

City Sealer C. B. Tolan had all the oil peddlers in the city at his office Saturday and Monday to inspect their measures. There are eight vendors, not counting the Standard and other large jobbers. The measures were found accurate.

GROCERY INSPECTION ON.

The inspection division of the board of health is now conducting the semi-annual inspection of groceries, meat markets and the like. Conditions so far have been found in most cases good. State Inspector Hutchins, who was in the city all last week, says Fort Wayne outranks all other cities in the state in respect of places where foodstuffs are sold.

BUILDING SHOWS SLUMP.

During the present month the volume of building in Fort Wayne, as shown by the permits taken out, was $100,975, as compared with $102,150 in November, 1913. The total for the eleven months of this year is $2,320,735, as compared with $2,661,162 in the corresponding period last year.

CITY COURT RECEIPTS.

The city court receipts for November, 1914, are $338, a heavy gain over November last year, when the receipts were but $297.

SAME CHECK MAN PULLED THIS JOB

The same man who defrauded the Suelzer grocery, on Fairfield avenue, of over $11 Saturday night, similarly victimized the Gable & File grocery, corner of Creighton avenue and Gay street, a little while later. The man went into the Gable & File store, purchased a bill of goods amounting to $1.50, tendered a check for $12.60, drawn in the Old National bank, and received $11.10 cash in change. He ordered the groceries delivered to 2325 Weisser Park avenue. When the delivery boy went out on that street he found there was no such number. The check is identical in appearance with the one passed at the Suelzer store and that the same man worked both jobs is clear.

Deputies in County Clerk's Office Have Nothing Definite Planned.

Deputies Robert J. Travis, John J. Lantenier, William M. Clutter and John C. Dowling, deputies in the office of County Clerk William E. Gerding, say they have not yet had time to plan for their future activities following their retirement from positions in that office January 1. County Clerk-elect David C. Stout has announced the appointment of an entire new office staff and all the deputies now in service, some of whom have been in the office many years, will go into other employment. Mr. Clutter, superior court deputy, will probably devote his time to life insurance, in which he has been engaged when relief from official duties permitted, and Mr. Travis, office deputy, will give attention to work for a bonding company that he has been connected with. Mr. Dowling, circuit court deputy, has not considered his future employment, nor has Mr. Lantenier, office deputy. William H. Roehrs, cashier and bookkeeper in the office, has been confined to his home for many weeks with serious illness. None of the deputies knew for a certainty until announcement of the new appointees was made just what Clerk-elect Stout purposed to do in the reorganization of the force. All of the deputies are diligent, faithful and capable men and will not be apt to find it difficult to obtain the sort of employment they are best suited for.

The men chosen by Clerk-elect Stout for the deputyships under him are as follows:

Fred Schnitker, of New Haven, succeeds Robert J. Travis.

Alois J. Brink, 628 East Wayne street, Fort Wayne, succeeds John J. Lanternier.

Edward W. Young, 1328 Stophlet street, Fort Wayne, succeeds John C. Dowling in the circuit court room.

Arthur Lamont, Jefferson township, succeeds William M. Clutter in superior court room.

Samuel Henline, 1225 Barthold street, Fort Wayne.

Mr. Schnitker is democratic precinct committeeman in New Haven, where he is engaged with his father in manufacturing pursuits.

A. J. Brink is a bookkeeper and was for a time with the Federal Security company. Arthur Lamont resides on a farm in Jefferson township. His father is Frank Lamont, trustee of that township.

Edward W. Young is a machinist in the Fort Wayne Electric works, but has had experience as a bookkeeper.

Samuel Henline is a carpenter contractor and has had experience that equips him for clerical duties.

All of these men have been active in democratic work and all of them have had business college training. Clerk-elect Stout says he knows all his appointees are qualified, fit and competent and will give satisfaction. The new appointees will enter the clerk's office within a few days and remain with the deputies they are to succeed a few days in order to gain some familiarity with their duties.

Richard Croker and Indian bride.

Palm beach, Fla., Nov. 30.—Richard Croker, former chief of the Tammany "braves," and his girl bride, Princess Sequoyah of the Cherokee tribe of Indians, are the 'observed of all observers' and the target of all camera men at Palm Beach, where they are spending their honeymoon at the Croker estate.

The marriage of the veteran political leader and horseman took place in New York November 26. Although the bride is a descendant of Chief Sequoyah and rightfully a princess, she was known before her marriage as Miss Beulah Benton Edmondson. She is twenty-three, Croker is seventy-three.

Few people in Fort Wayne, outside of Brotherhood of Railroad Trainmen ranks, know that Fort Wayne lodge, No. 136, B. R. T., ranks second in point of numbers of the 877 lodges in the United States and Canada. The brotherhood has a total membership of 135,000 and of these 730 are enrolled in Fort Wayne lodge. This number does not embrace the entire number of eligible people in the city, but it is a big per cent, and if the increase of the past year is maintained another year, January, 1916, will see a 100 per cent. B. R. T. lodge in Fort Wayne.

Besides its influence in maintaining the high standard of wages that exists among train employes in the United States, the B. R. T. is a power for good generally. It promotes the general welfare and the social, moral and intellectual interest of its members and when disability or death occurs, it cares for the dependents of the members through the benefits provided. It has four classes of insurance and each is paid in full in case of death or total disability. The policies are for $550, $1,100, $1,500 and $2,000 respectively. The insurance branch was organized thirty-two years ago and has paid to the beneficiaries of deceased or crippled members during that time over $30,000,000. There are women and children in Fort Wayne, widows and orphans of deceased members, who have been saved from want by this means.

Fort Wayne lodge, No. 136, B. R. T., held its election last Friday night, as stated in Saturday's Sentinel, and above are the portraits of four of the successful candidates for office. It was a referendum ballot system election, the names of the candidates being printed with a blank following each name for the X, which indicates the voter's choice for that office. Two of the officers, Secretary N. S. Patton and Treasurer E. D. Spahr, were re-elected, as were also the two medical examiners, Dr. I. E. Morris and Dr. L. J. Schermerhorn. W. E. Ferguson, who is succeeded as president by J. E. Karns, held that office for six consecutive years and was not a candidate for re-election. President J. E. Karns is a local freight flagman on the Pennsylvania; Vice President L. J. Christman is a Pennsylvania yard conductor; Treasurer E. D. Spahr is a passenger flagman on the Pennsylvania, and Journal Agent R. A. Knoff is a freight flagman on the Pennsylvania. These officers will be installed at the last meeting in December.

DANALDSON WANTS STATION

Appeals to Public Utiltiy Board and Investigation is Being Made.

Donaldson, a small station on the Pennsylvania seventy-two miles west of Fort Wayne, wants a new freight and passenger station and failing to immediately interest the railway company, took the matter up with the public utility commission. That body and the division officials visited Donaldson today to look over the ground and confer with some of the leading residents, including the town officials. The railway officials went to Donaldson on the division special train. In the party were Supt. W. M. Wardrop, Trainmaster C. L. Hamilton, Chief Clerk Robert Learmonth, Division Freight Agent E. T. Wood, Division Engineer Guy Scott, Attorney Fred E. Zollars and Star Union Agent H. M. Quicksell.

RECEIVED BAD SCALPWOUND.

John Scott, engine preparer at the Wabash round house, working at nights, received a bad scalp wound at 8:30 o'clock last night, to close which Dr. C. F. Kaadt had to take five stitches. The wound was received when a chunk of coal rolled from the tender and struck Mr. Scott on the head, knocking him unconscious.

MUST STAMP BILLS OF LADING.

The war tax on bills of lading becomes effective tomorrow and local freight agents have provided themselves with stamps to be sold to the shippers in case the latter have not been supplied from other sources. Every bill of lading must receive a one-cent revenue stamp, furnished by the shipper and carefully cancelled by him before the freight will be moved. The full text of the act was published by the Sentinel some days ago.

CORN SPECIAL TRAIN LEAVES.

A special train made up of a club car, a day coach, six Pullman sleepers and an observation car left this city at 11:15 o'clock this morning for Van Wert, where it commenced picking up the boys who are entitled to a trip known as the "Corn Special Tour" to Philadelphia, Washington and New York. On the return trip the special will leave New York next Friday. George Bradley accompanied the boys, representing the Pennsylvania trainmaster, and the train crew was made up as follows: Conductor A. T. Smith, Engineer H. E. Wagner, Fireman G. L. Case and Brakemen C. A. Hess and W. J. Smith. The train was pulled to Crestline by engine 7048.

The accident happened Friday at Jonesville, Mich., where Dagress and a gang of men were doing some track work. Dr. J. M. Dinnen attended the man.

One of the engines attached to the Pennsylvania limited, No. 2, last night, broke a tire at Richey, Ohio, and had to abandon the run. While being cut out from the train, the engine was derailed and the wreck crew had to go to Richey to pick up the crippled engine and bring it to the city. The train was taken into Crestline by the single engine, arriving there only twenty-five minutes late.

Vacanas Petree, a foreigner, arrested Saturday by Pennsylvania Patrolman Connor, when he found the man wandering around in the east yards, was later released by Captain Henry Stoll. The fellow told the captain that he was robbed of $35 and his overcoat at 5 o'clock Friday night at Gary, and being out of employment, came here in search of work. The fellow appeared to be honest.

Has Been Agent For Fifteen Years

EDWIN H. KIRKLAND.

Edwin H. Kirkland, Pennsylvania freight agent at Fort Wayne, and one of the best known traffic men in the city, is rounding out the fifteenth year in that capacity. He was transferred from Lima to this city to succeed Fred Sawyer December 1, 1899, and then several months later, in June, 1900, the present transfer system, which increased the work of the agent and the men over whom he has charge, was established. Mr. Kirkland will soon be eligible to membership in the Pennsylvania Employes' Veteran association. He began work for the company in the capacity of messenger in the Chicago office, under William Borner, who later became general western agent of the Pennsylvania. From that humble position Mr. Kirkland worked upwards, receiving many promotions, until he became chief clerk of inbound freight. A few months later the outbound freight clerk resigned and his duties were added to those of Mr. Kirkland and performed by him until October 1, 1898, when he received the appointment of freight agent at Lima, from whence he came when he assumed the duties of his present office. Mr. Kirkland worked under four superintendents—C. D. Garlick, C. D. Lay, [illegible]

WEST COAST NOT SO NERVOUS NOW

British Columbia Cities Learn German Cruisers Are Far Away.

Seattle, Wash., Nov. 30.—With all five of the German cruisers in the Pacific accounted for in southern waters, the British Columbia cities of Victoria, Vancouver and Prince Rupert have recovered from the feeling of uneasiness which prevailed when the Scharnhorst, Gneisenau, Leipzig, Dresden and Nurnberg were reported at several places in North American waters. The Laipzig was sighted as far north as Cape Mendocino, Cal., Aug. 19, and then headed for South America. This is the nearest approach of a German cruiser to British Columbia since the war began.

Reports of naval engagements in the north Pacific persist, yet are pure invention, according to British naval authorities. The allies' patrol of the coast continues, with the powerful Japanese cruiser Idzumo off California, the large British cruiser Newcastle moving along the Oregon and Washington coast and the Canadian cruiser Rainbow, which is not formidable, guarding British Columbia. The huge Blunnel liner, Protesistaus, renamed the Aid, and the tramp steamer Banksdale are coal carriers for these three cruisers. There are coaling stations at Esquimalt and a harbor on the west coast of Vancouver Island. There are two submarines at Esquimalt.

Broughton channel, just north of Vancouver island, has been closed and mined and is commanded by shore guns. The lights have been extinguished.

The seven trains are scheduled to meet in Pittsburg tonight.

NO NEW CASES.

Officials Believe Hoof and Mouth Disease Is Under Control.

Officials of Allen county believe they have the hoof and mouth disease under control. No new cases have been reported, although there are many false alarms.

The herd of cattle on the John Nail farm was not killed until Monday on account of the trench not being completed. Two herds on the Huntington road were inspected Sunday by Dr. W. F. Myers, county veterinarian, but no symptoms of the hoof and mouth disease were found.

GERMAN SHIPS IN SOUTH ATLANTIC

Buenos Aires, Nov. 30.—Dispatches received here from Montevedio insist there is good reason to believe that the German squadron which has been operating in the Pacific ocean is at present in the South Atlantic. Neither the French nor the British legation here has any information to confirm these reports; nevertheless, private dispatches give them credence. It is related among other things that several German steamers are preparing to leave Montevedio to provision the German war ships.

Reports that the German Pacific squadron had succeeded in making its way to the Atlantic have been current for two days. Under date of November 28 Montevedio reported that the German squadron had been sighted 600 miles north of Punta Pilar, Brazil, heading northeast.

LOVE, NOT DREADNAUGHTS.

Bryan Says Armaments Will Never Bring World Peace.

Chicago, Nov. 30.—"Love, not dreadnaughts and siege guns will bring peace to warring Europe," said Secretary of State Bryan here last night in an address to a meeting of Chicago Presbyterians. Mr. Bryan declared that national flags should stand for brotherly love instead of armaments. He denounced the liquor traffic, saying that it was useless to attempt to cure the evils of society without stopping the sources of evil.

Secretary Bryan was embarrassed when, after his address a young woman, one of a line formed to shake his hand, attempted to embrace him. The young woman said that she was "Miss Lowe," and declared that she was a cousin of Mr. Bryan and that she was going to give him a hug. She attempted to do so, but Mr. Bryan evaded the caress, saying that he did not know her.

KNOCKS WHEEL OFF CAB.

Mrs. Charles Crawsby and Babies Have a Narrow Escape.

Mrs. Charles Crawsby, 1305 Sherman street, had a narrow escape Saturday evening in attempting to cross Berry street on Calhoun. She was pushing a baby cab in which were two youngsters when an automobile driven by C. F. Mize, 712 Lawton place, came along and knocked one of the wheels off the cab. She did not lose her presence of mind but grabbed her babies and saved them from serious injury or possible death. Mize immediately stopped his machine and took Mrs. Crawsby and children home. Nobody was to blame, according to the crossing policeman.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed with Sulphur It Brings Back Its Lustre and Abundance.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks dry, wispy and scraggly, just a few applications of Sage Tea and Sulphur enhances its appearance a hundredfold.

Don't stay gray! Look Young! Either prepare the tonic at home or get from any drug store a 50 cent bottle of "Wyeth's Sage and Sulphur Compound." Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully and removes dandruff, stops scalp itching and falling hair; besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.—Adv.

"Resolved, That we, the Fort Wayne Graded Union of Sunday School Teachers, heartily endorse the work of the Columbia street mission and recommend its support to the churches of Fort Wayne.

"We further recommend the appointment of a committee for the investigation of social service conditions and needs of the city, this report to be printed and distributed in all the churches. Said committee to be chosen from the ministers, physicians and laymen of the city."

SPEAKS TO TRAVELING MEN.

Rev. A. J. Folsom Delivers Sermon for Salesmen in the City.

Rev. A. J. Folsom, pastor of the Plymouth Congregational church, delivered a sermon Sunday evening to the members of the Commercial Travelers and many other salesmen in the city on the subject, "The Salesman at Work." Many of the firms of the city co-operated with Rev. Folsom and urged their salesmen to attend.

"There are three principles in western civilization," said Rev. Folsom, "and they are efficiency, action and achievement. Efficiency becomes the great word, action the master force and achievement the alluring ideal." We are living in a time when life is substituted for philosophy. To think clearly is not enough—one must act clearly." He finished by saying, "Therefore what a man is and what he does is the true measure of life."

Washinton Society Gives Her Welcome

Washington, D. C., Nov. 30.—The new leader of the "army set," Mrs. Hugh L. Scott, has received a cordial welcome from Washington society.

General and Mrs. Scott made their home in Washington a few years ago when the former was head of the army war college. So Mrs. Scott is by no means a stranger to capital society.

GIRL TEACHER BATTLES MADMAN TO SAVE CHILDREN FROM SLAUGHTER.

(By Norman Rose.)

Washington, Pa., Nov. 30.—Grappling frantically with a madman, who wielded a huge corn cutter, Grace Jones, a frail little school teacher, preserved by her heroism her own life and the lives of the forty children in her school.

This is sthe girl's first term as teacher and she has charge of the little country schoolhouse in West Finley township. Robert Dreamer, a boy of seventeen, had previously been among the pupils of the school, but during the early part of Miss Jones' term was away from his home visiting relatives.

A few days ago he returned and began to attend the school. Teacher and pupils, as well as other persons in the neighborhood, soon noticed that he was mentally unbalanced, but for a day or two he showed no sign of being dangerous. Then, one day, he drew a large knife several times during school hours, and menaced the teacher when her back was turned. Several of the children screamed, and warned Miss Jones, who, quite without fear of the boy, rebuked him and made him put away his knife.

The next day Dreamer appeared suddenly at the school, some time after its session had begun, rushing in with the corn cutter in his hand and threatening the lives of teacher and pupils. He first made a lunge at a boy sitting near the door. The little chap, with a scream, evaded him, and fled to Miss Jones, whilst others shouted to the children, who were screaming in terror, and to some extent reassured and quieted them. She then commanded Dreamer to leave the school, and by sheer self-possession forced him to retreat part way to the open door.

But the demented boy suddenly darted around her, picked up a dictionary from her desk, and hurled it at her, knocking her down. Before she could get up, he was upon her with the corn knife, and a terrible struggle ensued. The slender girl battled desperately, but was almost exhausted when one of the larger boys in the school finally got up courage to come to her aid, and between them they forced Dreamer out of the door, closing and locking it after him.

The madman then attempted to get in at the various windows, but teacher and pupils together attacked him whenever his face appeared at a window, and he was kept out until the screams of the children had attracted the attention of men passing by. Upon the approach of these men, Dreamer fled, and Miss Jones and her pupils were taken to their homes.

No insanity warrant has been issued for Dreamer, and as he is still at liberty, parents have refused to send their children to the school, which is closed, and is likely to remain so until some action is taken.

Miss Jones is recuperating at the home of her parents, and there seems little likelihood of her returning to the school.

Distressing Bronchial Coughs "Hang On" and Weaken.

Foley's Honey and Tar easily raises the phlegm and heals the raw inflamed surfaces.

That tight feeling over your chest, and distressing bronchial cough are usually worse at night, and you lose the sleep you sorely need to keep up your strength.

FOLEY'S HONEY AND TAR eases that tight feeling and leaves a healing coating as it glides down the throat. The tickling, rasping cough and hoarseness disappear, and the phlegm is raised easily and copiously.

There is more healing in one bottle of FOLEY'S HONEY AND TAR COMPOUND than in a like quantity of any other cough and cold medicine. It heals to the last drop.

W. J. BELLAMY, Clarksburg, Ky., writes: "My boy, 16 years old, had bronchial trouble ever since he was a baby. We feared he would go into consumption. I heard of a similar case where FOLEY'S HONEY AND TAR COMPOUND effected a cure, and bought a bottle. My son commenced to improve after the first few doses, and the first bottle stopped his stubborn cough. FOLEY'S HONEY AND TAR has given better satisfaction than any medicine I ever used. I think this wonderful medicine has saved the boy's life."

You save money when you buy FOLEY'S HONEY AND TAR COMPOUND, because just a few doses stops the cough and cold, one bottle lasts a long time, and the last dose is as good as the first. Refuse substitutes

ROCKEFELLER TO CHANGE HIS PLEA

Millionaire Now Seeking Permission from Federal Court.

New York, Nov. 30.—William Rockefeller, Standard Oil millionaire, besought today permission of the federal court to change his plea to the indictment charging him and twenty other former directors of the New York, New Haven & Hartford Railroad company with criminal violation of the anti-trust law. Mr. Rockefeller filed a plea in abatement last Monday.

Mr. Rockefeller was joined in his application for such permission by Robert W. Taft, Charles A. Brooker, Wm. Skinner and James S. Elton. These defendants filed pleas in abatement with Mr. Rockefeller last Monday.

In their applications to Judge Sessions the defendants did not indicate the nature of the plea they had in mind but simply asserted their desire to file a substitute plea.

Under the plea in abatement they sought to have the indictment dismissed on the grounds that it was defective. The alleged defect consisted of the fact that one of the court officials connected with drafting the indictment was a resident of New Jersey instead of New York.

Applications for permission to change their pleas were made also by D. Newton Barney, Frederick F. Brewster, Henry K. McHarg and George F. Baker. A vigorous argument against the granting of such permission was made by Assistant Attorney General Swacker. Judge Sessions granted permission to all nine men to change their pleas. Substitute pleas were not offered at once, however, and argument proceeded on the original pleas in abatement.

CHICAGO GRAIN AND PROVISIONS.

Chicago, Nov. 30.—Lower cables and big receipts northwest had a bearish effect today on the wheat market here. After opening unchanged to ½c lower, the market rallied a little, but then sagged lower than before. Heavy arrivals of new crop shipments gave a setback to corn. The opening, which ranged from ½c to ¾c higher, was followed by a decided break all around.
The close was strong at ⅞c to 1⅛@1¼c net advance.
Oats were governed by corn.
The close was from ¼c off to ⅛c up compared with Saturday night.
Provisions weakened owing to plentiful receipts of hogs at the principal western centers.

THE DAY ON WALL STREET.

New York, Nov. 30.—The bond market opened dull and listless on the New York stock exchange today, the first full day of trading of any sort since the exchange was closed on July 30. Unusual interest was manifested among brokers, who thought that the two hour session of Saturday did not afford a full test of conditions and feared that there might be a general tendency to liquidate by foreign holders.
Nothing of this sort developed durng the first quarter hour of trading. For a full minute after the opening the ticker remained silent; not a single bond was sold. Five minutes after the opening gong nine bonds with a face value of $9,000 had been sold. The market appeared to be in a state of stagnation. U. S. Steel 5s rose ⅛ to 99¾; Southern Pacific convertible 4s and Distillers' securities 5s were off ⅛, selling at 80¾ and 55½, respectively. Westinghouse convertibles declined three points and Central Pacific 4s declined 3½ points.
All fears of a flood of liquidation from abroad seemed to vanish within the first quarter of an hour. Indications were that the second day of restricted trading in bonds would be much like the first.
As the day progressed the bulk of the trading was in small lots but occasionally twenty or thirty bonds changed hands in one transaction. Prices were irregular, with a better inquiry for a limited number of industrials and specialties whose products have been in greater demand by reason of the war.
Notable declines of the early session ranged from three to seven points in Central Pacific 4s, Chicago, Rock Island & Pacific railway 5s, Oregon Short Line 6s and Lorillard 7s. Among the few advances were Interoborough 4s, Pennsylvania 3½s and Lackawanna Steel 5s.
Altogether forty-six different issues were traded in up to noon. At that time sales approximated $550,000.

STONE SPEAKS FOR EMPLOYES

(Continued from Page 1.)

suffered by the men, their long hours of service, the hazards which they encounter and weight of responsibility thrown on the man at the throttle and the fireman at the stoke hole. He insisted that there would be no attempt on the part of the employes to distort facts and that by truthful witnesses he would show that the employes were clearly entitled to better service conditions and higher wages than the railroad managers were inclined to accord them. In brief, he said, that the wage movement of the employes was begun two years ago and that later it was decided that the Brotherhood of Locomotive Firemen and engineers should work jointly with the Brotherhood of Locomotive Engineers in the presentation of requests to the railroads, and in October, 1913, the sixteen articles to be arbitrated by the present board were approved by the membership of both organizations. He told of counter propositions being submitted by the railroad managers and of the joint conference which occupied several months last winter, culminating in July in the agreement to arbitrate.

Opposes Any Decrease.

Mr. Stone insisted that any award of the board of arbitration should not decrease the present wages or impose less desirable conditions on the employes and in this connection quoted from a statement of the railroad managers that "it was not intended to make any reduction in wages."
"This being true," he said, "we have not come here to give away a single thing we have but we want and believe we are entitled to the increase we ask to go with it."
After describing the hardships of the men in the cab and noting that traffic each year is becoming more congested, that each year the public demands faster time and better service, that each year larger locomotives are built and heavier tonnage hauled, the chief engineer said "and it must not be overlooked that all of these increased burdens fall on the same men, their number not having been increased for the purpose of dividing this work and responsibility.

Much Taken Out of Men.

"There never was a time in the history of the railroad world when as much was being taken out of the men in the cab as now—requirements that are beyond the limit of human endurance."
Summing up he declared "We shall endeavor to show that during the past 24 years the western railroads have made remarkable gains in productive efficiency by the installation of locomotives of greater tractive power. By the elimination of curves and reduction of grades remarkable increases in train loads have been made. The burden of all these economies in the interests of railroad investments is borne by the men in the transportation service.
"The effect on engineers and fireman has been threefold.
"There has been increase in their labor and responsibilities. Their productive efficiency has been greatly increased. Their earning capacity even at the slightly increased scales of payment they have received has declined.
"We hope to show that these railroads not satisfied with the present hard conditions which have reached the limit of human endurance, are intending to add further to existing train loads, thereby increasing the labors and responsibilities of the engineers and firemen."
Quoting a statement of the managers last July in which it was pointed out that increase in the expenses of railroad operation through compliance with the employes requests would in the long run make the public the sufferers, Mr. Stone said: "A little group of financial pirates will exploit some railroad and place a burden on the public which generations yet unborn will have to bear, and you hear not even a whisper of the rights of suffering public."

JEFF WAS GIVEN A DOUBLE JOLT

Police Court Regular Goes Over to Jail to Join the Winter Colony.

The constitutional rights of Jeff Myers, dean of local police characters, were invaded in the city court Monday morning by the infliction of cruel and unusual punishment. Twice in a period of three minutes Jeff was jolted for the same offense. Guilty of public intoxication with previous offenses laid against him, Jeff begged hard to be let go and flashed an order from Wayne Township Trustee Henry Branning admitting him to the poor house.

"Your honor, this is the first time in all my life I have been driven to this. I want to get out there for the winter and I will stay there."

Examination of the order disclosed that it was issued to "J. Mark," the which was not by any means Jeff.

"I'll have to send you over, Jeff, for a long term. I have let you off twice before and you don't make good. One hundred days in jail and $10 and costs."

Jeff's jaw fell and a spasm of pain contorted his features. He was taken back to his cell. Then it was discovered that the court had reversed the details of the penalty and Jeff was sent for. He came with blithe step into the court room, his face beaming with joy. He thought the court had relented on more careful consideration of his deserts.

"Jeff, I didn't do what I thought I was doing when I pronounced sentence. That fine of $10 and costs and one hundred days in jail do not stand," said Judge Kerr, and Jeff looked the gratitude he could not utter.

"You are fined $100 and costs and sentenced to ten days in jail. It's all the same—one hundred and twenty days in jail, which is what I meant to give you. They are putting the boys over there to work outdoors and you will have plenty of exercise, lots of sunshine and a good appetite. That's all."

Again Jeff's jaw did the business of dropping, and he pleaded that he was an old man and might not survive the ordeal of long confinement and hard work. He will be in jail until March 29.

Met Man With the Bottle.

Harry Dockery, on Sunday, met up with the mysterious man with the bottle, only in his case there were two of him. He imbibed with gusto and went clear down and clear out on Lewis street, just east of Calhoun, and was there picked up by the police. Dockery said he had been on the water wagon since August and succumbed easily to a moderate quantity of booze. He got fifteen days.

Other City Court Cases.

Frank Williams was the name given by a man picked up drunk Saturday night. He had lost his bearings and about all else and he was locked up. He said he had taken the jag cure eighteen months ago and that Saturday, in Detroit, he tore the hair off his diploma for the first time. Williams went over for eleven days.

Harry Callahan was crazy drunk when Officer Fred Smith got him early Sunday morning. In court he said he would climb the water wagon and lash himself to the seat. Judge Kerr gave him a chance and ordered him to report in thirty days. He was released on his own recognizance.

Frank Bush, of Lima, Ohio, came to Fort Wayne and got drunk. He said he would get right back to Lima and was told to start.

Theodore Browning and Ellsworth Bradford, drunks, were fined $1 and costs, and John R. Kane, another drunk, was held until December 3 to get thoroughly sober.

John O'Brien, vagrant, and Harry Holsey and William Snyder, drunks, were turned loose.

WAS JAMES KAPLAN'S CAR.

Owner of Auto That Struck Another Gave Fictitious Name.

Last Wednesday night, when Willett Clayton, 635 Prospect street, driving his car on the Lincoln highway east of the city, was run into from the rear by another car, the offending driver gave the name of Williams and said his residence was 516 Webster street. The police investigated and found that there was no such number on Webster street and that no man named Williams resided in the neighborhood. The car driven by the alleged Williams more Indiana license No. 64,756. Chief Lenz has just received from the secretary of state, in response to his inquiry, the information that license 64,756 was issued to James Kaplan(223 East Main street, Fort Wayne. Kaplan will be asked to explain and may be prosecuted for violating the law that requires motorists who injure persons or damage property to report to the police, giving correct name and address.

THROWS AT DOG; BREAKS PANE.

Mrs. Florence Mentzer, 411 Bass street, reports to the police that three men who passed her home had annoyed her dog. When the dog ran out one of the men threw a stone at it, missed the canine and broke a window of the residence. The men then ran away.

RESIDENCE IS ROBBED.

The residence of George Davidson, 706 Davis street, was robbed some time between 7 and 9 o'clock Saturday evening, while the family was absent. A gold locket, a gold signet ring, a razor and a small iron clock were taken.

THE UNKINDEST CUT.

A colored tramp who was given something to eat by Pearl Green, colored maid at the home of I. Weil, 721 West Wayne street, stole her purse containing $7 while she was getting food for him.

CASHES WORTHLESS CHECK.

A worthless check calling for $12.65 and drawn on the Old National bank, was cashed Saturday evening at the Joe Suelzer grocery, 2201 Fairfield avenue. The check was drawn in favor of "Roy Leese" and signed "R. C. Richardson." A small bill of groceries was purchased and the change for the balance was given in cash.

U. S. SOCIETY WOMAN TURNS COOK TO AID LONDON'S POOR.

MRS. BEN LATHROP.

San Francisco, Nov. 30.—Mrs. Ben Lathrop, former San Francisco society matron and wife of a well known stock broker, is to don a cook's apron and prepare gallons of soup to be sold to starving women in the Duchess of Marlborough's soup kitchen in London.

Mrs. Lathrop formerly was Miss Isabelle Harris, and is well known as a talented singer.

The novel mode of relief in which Mrs. Lathrop is to participate will be inaugurated for the benefit of hungry and poverty stricken women. The charges will be trivial—a quart of soup with a quarter of a pound of bread for a penny.

The first kitchen will be opened in the Islington section. It is here that Mrs. Lathrop will be cook, and it is expected that a heavy demand upon the duchess' kitchen will keep the charity workers busy day and night.

GERMANS BEAT BACK A SURPRISE ATTACK

Berlin, Nov. 30.—(By Wireless to London, 3:05 p. m.)—The following official statement was given out at military headquarters today:

"There is nothing of note to report from the western theater of war.

"On the East Prussian frontier an attempt by strong Russian forces to make a surprise attack on the German fortifications east of Darkehemen failed with heavy losses to the enemy, from whom we captured a few officers and 600 men.

South of Weichsel, the counter attacks which we mentioned yesterday led to satisfactory results. Eighteen cannon and more than 4,500 prisoners fell into our hands.

"Nothing of note has occurred in southern Poland."

RUSSIANS CLAIM VICTORY.

Report Capture of Ten Miles of German Trenches.

Petrograd, Nov. 30.—Six hundred prisoners, seven guns and many wounded fell into Russian hands in yesterday's fighting to the west of Lowicz, where the Russians took ten miles of German trenches between Glovno and Sobota, according to information today.

Glovno is sixteen miles northeast of Lodz and Sobota is twelve miles north of Glovno. The trenches were protected by trip earthwork and wire defenses. It is semi-officially announced that the Germans have received reinforcements in the shape of two infantry divisions and one cavalry division.

The occupation of Glovno, Bolisv and Sobota strengthens the right wing, which already is said to have widely outflanked the German left, bringing the Russian right from twenty to twenty-five miles in its advance on Strykow, where a battle now is raging, and puts the German center under an attack from Glovno and Lodz.

The military experts are of the opinion that the German position around Lodz today is far more critical than it was during the initial reverses around Warsaw a month ago.

"Fighting on the Russo-Prussian front is turning advantageously for our side," telegraphs a correspondent of the Army Messenger. "Our cavalry has dispersed the enemy, who, in retiring, is abandoning his munitions of war. The energetic pursuit of our forces prevents the Germans from taking up the positions which they had prepared for their use in the event of a retreat."

Referring to the operations in Galicia, the Army Messenger says:

"All of our operations in Galicia are ending successfully for us. We continue to push the Austrian army in the direction of Cracow. In spite of the intense cold, which is delaying our offensive, we are advancing victoriously."

ALLIES PRESS FIGHTING.

Germans Remain on Defensive in Belgium, Says Paris.

Paris, Nov. 30.—(2:50 p. m.)—The French official communication given out in Paris this afternoon is as follows:

"In Belgium the enemy is remaining on the defensive. The artillery fire has bee feeble and we have made progress at certain points. In the vicinity of Fay we hold securely the positions we occupied November 28.

"In the region of Soissons there has been an intermittent artillery fire directed against the town.

"In the Argonne several attacks on the town of Dagatelle were repulsed by our troops.

"There has been a heavy fog on the heights of the Meuse.

"In the Woevre district the enemy bombarded the forest of Apremont, but without result.

"There is nothing to report in the Vosges."

BIG NAVAL BATTLE IS NEAR IN SOUTH ATLANTIC.

Montevedio, Nov. 30.—The recent reports that the German fleet is now in the south Atlantic appear to have been confirmed here today. It is also rumored that a powerful British fleet is nearby.

Interruption of British shipping and the outfitting of German merchant ships with supplies were accepted here as confirmatory of reports of the approach of the German fleet, which is now believed to be off the mouth of the river Plata.

The German steamer Patagonia is being loaded here with provisions, the Sierra Cordoba with coal and the Mera with coal and water.

Sailings of British steamers from Montevedio and the Brazilian port of Santos has been suspended.

Today's War News Given in Summary.

Germany acknowledges that the Russian northern army has penetrated into East Prussia to a distance of fifteen miles southwest of Gumbinen, which is about twenty miles west of the German border. In Belgium, says the French official statement, it is the allies and not the Germans who are now on the offensive. These two points stood out in today's news from the battle fields of Europe.

The German official statement says that strong Russian forces attempted a surprise attack on the fortifications of Darkehemen, in East Prussia, and that they were repulsed. Semi-official information from Petrograd is that operations along the Prussian front are turning to the advantage of the Russians and that the Germans are retiring in disorder. Meanwhile the great battle in Russian Poland, between the Vistula and Warta rivers continues without definite result. The German war office states that the Russians were defeated in a battle south of the Vistula and that 4,500 men were captured. Further south, in Galicia the Russians are said to have reached Cracow and to have begun the siege of the city.

According to the French official statement the German forces in Belgium are on the defensive and the allies have made progress "at certain points." Fighting continues in the Argonne, where the French statement asserts German attacks were repulsed.

The whereabouts of the German Pacific fleet, of which little has been heard since it sank the British cruisers Good Hope and Monmouth, off the coast of Chile nearly a month ago, has become one of the mysteries of the war. Dispatches from Montevedio again report that this fleet is now in the South Atlantic, although it was said last week to have remained off the Chilean coast. British and Japanese naval squadrons have been scouring the seas for weeks for the Germans.

LAST DAY FOR PAYING TAXES

Revenue Collector's Office Crowded from Morning to Night.

Immense throngs have been streaming in and out of the revenue collector's office today, it being the last day for paying special taxes to the government without suffering the penalty attached for failure to pay. The time limit is up today.

Deputy Collectors McLaughlin and Thumma have been extremely busy getting the money and by the time the office closes this evening hundreds of dollars will have been collected from those affected by the new tax residing in this district.

Revenue stamps were received Monday morning, but as the demand was greater than the supply it was no time until they had been exhausted. Those unable to get stamps were instructed to get into communication at once with the revenue office at Indianapolis. The late arrival of these stamps at the local office has caused much annoyance and extra work.

Besides the hundreds of visitors at the revenue office each mail brings tax returns from those residing outside of Fort Wayne. In the opinion of Mr. McLaughlin a bulk of the tax will be collected by the time the office closes this evening.

RILEY SLATED FOR MANAGER

While no official announcement has been made it is understood that James E. Riley is slated for the position of manager of the Fort Wayne office of the Western Union to succeed Charles W. Mason.

Mr. Riley has been chief clerk in the local office for a number of years and thoroughly understands the duties of the office.

Announcement of Mr. Mason's resignation was made some days ago. He expects to devote his entire time to the Orpheum theater. Mr. Mason was appointed manager of the Fort Wayne office some months ago, coming here from Evansville. He also has worked for the company in Terre Haute and Marion, O.

R. D. FLEMING AND WILLIAM WIEGMAN KILLING PIGEONS THAT HAVE LONG HAD HOME IN ALLEN COUNTY COURT HOUSE

REFUSE TO HEED WIRELESS RULES

British Warships in Atlantic Hamper Commercial Messages.

New York, Nov. 30.—At least twelve British warships are now patrolling the Atlantic between New York and the Panama canal, sweeping the seas with their wireless, crowding ordinary commercial radios from the air and keeping close check on all forms of shipping, according to wireless operators on the steamship Ancon, that arrived here today from Cristobal.

The wireless activity of these warships, the operators said, is causing great inconvenience to the commercial work of American vessels, as the high powered waves of the men of war are heard continually in utter disregard of commercial business.

"These warships," the Ancon's operator said, "pay no attention to the rules governing wireless operations. With their high power apparatus they cut into the middle of a message and absolutely disregard all request to keep out. We have no means of identifying the ships, as they use code exclusively—code that appears to be made up of a combination of numbers. We counted twelve different warships that jammed our wireless on the way up."

The Ancon brought from the canal zone ten members of the congressional committee on appropriations who have been making an official inspection of the great water way.

WARD ESTABLISHES ALIBI.

Man Held in Connection With Florida Murder Freed.

Miami, Fla., Nov. 30.—R. B. Ward, arrested in connection with the death of A. A. Boggs and his daughter, Marjorie, whose charred bodies were found Wednesday last in the ruins of their home near here, was released from custody today. The authorities stated that Ward clearly had established an alibi. The coroner jury, which has been investigating the case had not concluded its work early today.

WILL NOT BE SUSPENDED.

Increased Passenger Fares Become Effective Tomorrow.

Washington, Nov. 30.—Increased passenger fares in central passenger association territory, becoming effective tomorrow, and increases in mileage book rates, becoming effective on Dec. 7, will not be suspended by the interstate commerce commission. Official announcement was made today.

GIRL ENDS OWN LIFE AS LOVER IS KILLED.

Decatur, Ill., Nov. 30.—Despondent over the death of her sweetheart, Frank Summers, who was killed when his automobile overturned last night, Miss Ura Scott, a prominent young Clinton woman, committed suicide today by taking poison. Summers was hurrying to keep a theater engagement with Miss Scott when he met with the accident.

OPEN A WAR ON PIGEONS

Big Crowds See Attack on Feathered Hosts at Court House.

GAME WARDENS PICK THEM OFF

Shots Bring the Birds from Ledges of County Building.

Tremendous crowds witnessed the killing of the pigeons Monday morning around the court house and at times the street cars on Calhoun and Main streets had much difficulty in getting through.

Captain Rodney Fleming, of the state fish and game department, and W. H. Wiegmann did the shooting and so accurate were they in their aim that very few shots were wasted. Both gave a splendid exhibition of marksmanship. Very few pigeons landed around the court house that escaped death.

Soft Shot Used.

The two executioners used small guns loaded with soft shot so as not to mar the stonework on the building. In two or three days more pigeons will be shot and this will be kept up until they have entirely been gotten rid of. Ever since the court house was erected they have been regarded as a great nuisance, but no attempt has ever before been made to drive them away.

Throngs of boys, and others more fully grown, snapped up the birds as rapidly as they fell and carried them home, doubtless for use in forming the piece de resistance of a meal.

CABALLERO IN THE VILLA CAMP

Washington, Nov. 30.—Official dispatches today confirmed earlier reports that Gen. Luis Caballero, governor of Tamaulipas, has joined the Villa forces in Mexico. As he is in control of Tampico the peaceful entry of the troops which have been marching eastward from San Luis Potosi is now expected. Caballero has been claimed by both the Carranza and the Villa factions. Caballero has telegraphed to Gutierrez his allegiance to the Aguas Calientes convention.

In a dispatch dated at Queretaro, temporary capital of the convention faction, Special Agent Canova, of the state department, said a rumor was current that Gen. Pablo Gonzales, one of the Carranza division commanders, had proclaimed himself provisional president and named a cabinet. Canova was unable to confirm the rumor.

STORK WILL GET MOTHER'S MONEY

Little Girl Says Big Bird is Coming to Home at Christmas.

"And please dear Santa Claus, don't forget us 'cause mother says a big bird is coming to our house and she will need all her money."

This is the pathetic appeal in one of the letters received at the office of the Fort Wayne Sentinel from a little girl who wants to participate in the Sentinel-Empress fund.

She says she has a little brother and a little sister and she asks that both of them be remembered. This "big bird" that is coming undoubtedly is the the stork and those homes fortunate enough to have received one or more visits from this "big bird" have incurred expenses that eat into the stores of money heavily and where it has been there three or four times the burden on the head of the house becomes hard to bear and the only consolation is that it means another to love and care for.

However, to the man and woman who are dependent upon the earnings of the father are compelled to deny themselves many things and to deny their little ones the happiness of receiving presents at Christmas.

Fortunately there are a lot of very charitable people in Fort Wayne who will probably circumvent the stork, or rather who will prevent it from imposing an expense that will rob the children of the household of the happiness of the greatest of all holidays.

Last year there was a generous response to the fund and this year more money can be used as there is a greater demand for it and the fact that the list is opened earlier will result in larger subscriptions.

The list has been opened at The Sentinel office where the subscriptions will be received at any time. The lists are being received and investigations being made to insure that every dollar subscribed will be used for the benefit of children who would otherwise receive no gifts at Christmas.

READY FOR STATE TAX CONFERENCE

Indianapolis, Nov. 30.—Reports to the Indiana State Tax association today indicated that all of the larger cities in the state have appointed delegates to the two days' state tax conference which Governor Ralston will open tomorrow.

The sessions tomorrow will be on "Public Expenditures" and "The Growth of High Tax Rates." The Wednesday sessions will be on "What Other States Are Doing" and "What Is the Remedy for the Tax Problem in Indiana?"

The sessions are to be open to all interested in the tax question and are to constitute an open forum. Former Governors Hanly and Durbin will participate in the discussions.

RESIDENCE HIT BY $500 BLAZE

Fire, which originated in the cellar, damaged the residence of Philip E. Werkman, 2337 Hanna street, to the extent of $500, Monday morning.

It is thought that the fire originated in a pile of kindling, which became ignited by the heat from the furnace close by. The flames spread from the basement to the rooms above, which were badly damaged by smoke, fire and water. The loss is fully covered by insurance.

Mrs. Werkman, who had been in the grocery conducted by her husband, which is located the first door east of the residence, happened to return to the house about 10 o'clock and upon opening the door was choked by the dense smoke which filled the dwelling. She immediately called the fire department, which made a speedy run to the burning domicile. After an hour's work the firemen succeeded in extinguishing the flames.

STONE SPEAKS FOR EMPLOYES

Arbitration in Rail Wage Dispute Begins at Chicago.

SESSION LIKELY TO BE LONG ONE

Case is Most Important Yet to Come Under Arbitration Law.

Chicago, Nov. 30.—Arbitration of the differences over wages and hours of employment of 98 western railroads and their 55,000 engineemen began here today before a board of arbitration appointed under the provisions of the Newlands act. It is regarded as the most important case thus far to come under the law.

In a general way it is stated that the wage increases sought by the men is about 10 per cent. They were represented by Warren S. Stone, grand chief engineer of the Brotherhood of Locomotive Engineers, and William S. Carter, president of the Brotherhood of Locomotive firemen and enginemen.

The railroads were represented by the twelve committeemen of the managers' association assisted by legal counsel. The evidence it was predicted, will be largely statistical, although it is probable that about forty witnesses, divided equally between the two sides, will be heard.

It was thought that most of today's session would be occupied in adopting rules of procedure, arranging for the number of witnesses to appear for the respective parties to the arbitration and other routine matters. Ninety days are allowed to present evidence, and an award is expected ten days later. The arbitrators are W. L. Park and H. E. Byram, representing the railroads; S. A. Burgess and Timothy Shea, for the employes, and Judge Peter C. Pritchard and Charles Nagel, appointed by the government.

The board of arbitration selected Judge Peter C. Pritchard as chairman, and H. S. Milested, of Washington, secretary. In the opening statement W. S. Stone, grand chief engineer of the Brotherhood of Locomotive Engineers, presented the case of the employes.

Mr. Stone's Statement.

In his opening statement to the arbitration board Warren S. Stone, grand chief engineer of the Brotherhood of Locomotive Engineers reviewed the conferences which have preceded the present arbitration. The representative of the men laid stress on the hardships

LAST-MINUTE NEWS

TWENTY-FOUR GO TO PENAL FARM

First Convicts Taken to Indiana State Prison Without Walls.

Greencastle, Ind., Nov. 30.—Today marked a new epoch in Indiana of handling prisoners because for the first time in the history of the state criminals are being cared for at a prison without walls.

Twenty-four prisoners from the Michigan City state prison arrived at the state penal farm, five miles south of this city, this afternoon and are the first men to be cared for by the state at the new institution obtained through special legislation and the expenditure of $60,000. The twenty-four men were turned over to Charles E. Talkington, superintendent of the farm.

They will be used by the farm management in erecting buildings for their own use as well as the use of other prisoners who will soon be received at the farm. Tents have been erected for temporary use and the work of putting up more substantial buildings for them to live in will be begun immediately.

No strict guards will be kept on them, other than to have one or two guards for the entire party, because they are regarded as men who can be trusted and it was because of this fact that they were chosen from all the men in the Michigan City prison to be the first prisoners in Indiana's new prison without walls.

MARION LAYMEN LAUD DR. LYON

Speak at Preparatory Meeting at First Presbyterian Church.

Great things were predicted for Fort Wayne as a result of the Dr. Lyon tabernacle meetings to be held here starting December 27, by two laymen of Marion, who spoke Sunday afternoon at the First Presbyterian church.

George B. Lindsay, editor of the Marion Chronicle, and Louie DeWolf, a real estate dealer, told to an audience that filled the large auditorium of the church what had been accomplished in Marion and if given proper co-operation predicted Dr. Lyon would do equally as great things in this city.

Mr. DeWolf said he had never spoken in public in his life until after the Lyon meetings. Before he had given little thought to the work of the church and was very much opposed to the tabernacle meeting. He said he felt it wasn't necessary to employ an out-of-town man to hold a revival, believing that the ministers of the city could do just as much good and at much less expense. He was soon to be convinced of his mistake, he said.

"A year ago I had little use for the church even though I believed in Jesus Christ," he continued. "I thought the churches were full of hypocrites, but during the Lyon meeting I made up my mind that it was better to be in church with a few hypocrites than in h— with all of them."

Converts From Muncie.

When 1,400 Lyon converts from Muncie marched past the club where he was sitting one night on their way to the tabernacle it caused him to think. He had often prayed for some dear one who was ill, but after they had been restored to health he had always gone on his way forgetting God and his duty to the church. He told of an explosion when his wife was horribly burned and for days hovered between life and death. At that time he prayed to God to save her and He did. Again he forgot his God.

It was the visitors from Muncie that caused him to really think and the next night or two he attended and soon was converted. He said he never knew before there were so many good people in the world.

The speaker urged the Christians of Fort Wayne to pray for the success of the meeting and then to work. He said it was hypocrisy to pray for a thing and not work for it. There has been a wonderful change in Marion since the meetings, he declared. The churches have been awakened and the city in general has been benefited.

"In years to come you will look back to the meetings in Fort Wayne and thank God for having sent Dr. Lyon and his party here," he said in closing.

Lindsay Talks.

While an active church member Mr. Lindsay said that at first he was opposed to the coming of Dr. Lyon. In spite of his opposition, however, the tabernacle was erected and he soon made up his mind to get in line.

"Whether the meetings are conducted as you would conduct them, even though Dr. Lyon does not preach to suit you, or the music is not to your liking, jump right into the meetings anyway," he said. "I made up my mind that an evangelistic meeting might even do me good."

He said he put his newspaper back of the movement, giving it space right on the front page. Although an editor always regards his editorial page as the sacred part of his paper he said he cheerfully opened that page to it, attempting to answer all objections and do everything he could to boost the movement.

At first he declared the meetings did not particularly interest him—it didn't seem that much headway was being made. But soon there was a great awakening, especially following the visit of the Muncie delegation. Then, he said, he began to sit up and take notice.

Not a Miracle Worker.

"I would not have you think that Dr. Lyon is a miracle worker," he continued. "At first you may be disappointed in him. He's very earnest and enthusiastic and not particularly gifted in oratory. I think his strength can best be explained in that biblical expression, 'Not by might nor by power, but by My spirit saith Jehovah of Hosts.' I think that is one reason why we had such permanent results."

Mr. Lindsay said that much personal work was done and that he believed that if the devil had come to reside in Marion during that time an effort would have been made to bring him to Christ. He told of the necessity for personal work, declaring that the people will be more responsive than at any other time. The meetings in Marion resulted in a general uplift in the town, better citizenship and better conditions generally.

NEW EFFORT TO SETTLE STRIKE

President Hopeful Commission May Bring Peace in Colorado.

Washington, Nov. 30.—Another effort at the settlement of the Colorado coal strike moved forward today with President Wilson's appointment of a commission to attempt to bring the operators and miners together. The commission is composed of Seth Low, of New York; Charles W. Mills, of Philadelphia, and Patrick Gilday, of Clearfield, Pa. All of them have been prominently identified with the settlement of labor troubles.

The commission will not deal with the present differences between the operators and miners in the Colorado coal fields, but will attempt to settle similar disputes in the future. Efforts to bring about a settlement of the present strike by an agreement between the operators and miners, it is announced, will be continued by the federal mediators who have been endeavoring for some time to adjust the controversy.

The president in a statement announcing the appointment of the commission reviews in detail the various steps taken by the federal government to bring about a settlement of the present troubles. He then expresses the hope that the parties to the controversy will make use of the commission as an instrument of peace to prevent a repetition of similar troubles in the future.

President Wilson's plan for a temporary settlement of the strike which he suggested some time ago contemplated appointment of a commission similar to the one he has just named. The plan was accepted by the miners, but rejected by the operators, their principal objection being to a commission.

The president said: "I think the country regretted their decision and was disappointed that they should have taken so uncompromising a position."

HAS NOTHING TO SAY.

Indianapolis, Nov. 30.—The Colorado coal strike situation was to form one of the principal topics of the adjourned meeting of the executive board of the United Mine Workers of America at the union headquarters here today. John P. White, president of the organization, said the unfinished business left over from the Philadelphia meeting would also be considered.

"The appointment of the arbitration board by President Wilson has not yet come to me officially, and I have nothing to say regarding it," said Mr. White when asked about the commission. He added that he might have something for publication later.

GARY TAKES BACKWARD STEP.

Reform Mayor Permits Re-opening of Redlight District.

Gary, Ind., Nov. 30.—The "redlight" district which has been closed since July 29, re-opened here last night with the sanction of the mayor and the chief of police. The administration announced that the policy of suppression has been a failure. They found it impossible to prevent disorderly places springing up in residence sections, they said, and decided that the protection of the community demanded a segregated district under police regulation.

A secret meeting of the Gary Association of Ministers last night decided to call on the mayor today and demand that he close the houses under threat of impeachment.

AN APPARENT TRIUMPH OF RUSSIAN STRATEGY.

Map showing how the Russians have enveloped a whole German army in Poland. The black triangle reaching from Lodz to Keluski past Lowicz is a large German army. The arrow indicates the path of reinforcements which, if they arrive in time may save the imperiled divisions.

URGES A PHYSICAL TEST FOR COLLEGE

Columbia University Officer Says It Would Be Beneficial.

New York, Nov. 30.—A physical test is urged by Dr. William H. McCastline, Columbia university medical officer, as an entrance requirement for admission to the colleges throughout the country. In his annual report made public today Dr. McCastline says that "if the colleges throughout the country were to place more emphasis upon the health of the candidates for admission those in control of the child in the home and the school would be stimulated to take more judicious care of his physical needs and to encourage him to appreciate the relative value of health to the full enjoyment of play and work.

"For entrance to college a man must prepare himself intellectually for his work and show by certificate or examination his qualifications. Until recently, little attention has been given to his health qualifications and physical fitness.

"I believe that even with the raising of the standards of scholarship the college and university experiences would find men in a better state of health at graduation and in better shape physically as well as mentally to take up their life work, if proper stress be laid upon health and physical habits during the formative years of the boy's training in the upper elementary and high schools."

RUSS GUNS BATTER AUSTRIAN FORTRESS

Milan, Via London, Nov. 30.—(8:10 a. m.)—The siege of Cracow has begun, according to a correspondent of the newspaper Corriere Della Sera, who is with the Muscovite army.

He wires that the Russians are bombarding the forts with their heavy siege guns and that one of the suburbs of the city is reported to be in flames.

NOT CLAIMING SO MUCH.

Russian Triumph Over Germans Heavily Discounted.

London, Nov. 30.—(11:30 a. m.)—References to the Russian success in North Poland have become somewhat chastened since the cautionary report by Grand Duke Nicholas, commander of the Russian forces in the field, was made public. Nevertheless, the military critics in the capitals of the allies according to dispatches reaching London, remain convinced that the German invasion of Russian Poland has suffered a check which only the most strenuous efforts of the German commanders can save from degenerating into disaster.

A news report from Petrograd sets forth that the Germans, apparently ignorant of the extent of the Russian opposition along the Vistula are holding this opposition in contempt, threw heavy forces against the Russian center, leaving very thin lines of communication between their wings. This created a situation said to be without precedence in the history of military strategy.

In the meantime the resumption of the Russian offensive resulted in a wedge, dominated by Lodz, being thrust into the German center. If the Germans can hold their lines of communication with their wings intact the invaders may be able to withdraw, in the view of British observers, without suffering disaster.

Berlin and Vienna continue to report that the battle along the rivers Vistula and Warta is proceeding without decisive result, although minor successes attended with the capture of prisoners and guns are claimed for the Austrian and German operation.

On the western front, according to the communication given out in Paris last night, a lull prevailed except in the Argonne, where the German attacks are said to have been fruitless. Unofficial dispatches declare that Zeebrugge is again preparing for an assault from the sea, with the Germans directing their activities toward the suppression of all efforts to signal from the land to British ships off the coast.

WAR TAX BILL INFULL EFFECT

Washington, Nov. 30.—The emergency war tax bill to raise $100,000,000in revenue goes into full effect tomorrow. The provisions of the measure levying taxes on tobacco, beer and wine went into effect on Nov. 1 and the remaining sections now become effective.

The latter include taxes on bankers, pawnbrokers, brokers, proprietors of theaters, including motion picture houses, owners of circuses and other shows, perfume, cosmetics, chewing gum and similar articles, commercial paper of all description, steamship tickets, parlor car seats and sleeping car berths and telephone and telegraph messages where the charge exceeds fifteen cents. Stamps in denomination of from $5 to one cent are to be affixed to these articles.

Orange shipments from California and Florida to Canada are increasing, having been 600,000 boxes during the first eight months of 1913, and 1,400,000 boxes during the eight months ended August 30, 1914.

PUTS BAN ON BRITISH SONG.

Daniels Approves Action of Lieutenant Commander Evans.

Washington, Nov. 30.—Secretary Daniels today expressed approval of the action of Lieut. Commander F. T. Evans, commanding the naval training station at Newport in forbidding the singing of "It's a Long Way to Tipperary" by naval apprentices. Secretary Daniels said as "Tipperary" was the marching song of the British forces, it ought not to be sung or played by American sailors any more than should the Marseillaise or "Wacht am Rhine."

Charles Hopkins and John Edward Em ety in "The Marriage of Columbine."

New York, Nov. 28.—Pews in a theater! It's a sight to make the most hardened playgoer gasp. And it hits him right in the face when he steps from the quaint and tiny lobby of the Punch and Judy, New York's newest "little theater," into its quaint and tiny auditorium.

There they are, some thirty rows of dark, polished pew-backs, stretching unbrokenly across from one side-aisle to the other. The impression of having gotten into a beautifully appointed little chapel is for a moment almost too insisted to shake off. Then you observe the asbestos drop, and the bow of coop-like boxes running around the upper part of the wall, and you realize that you really are in a theater.

The Punch and Judy is an actor's dream of a theater, come true. Charles Hopkins is the actor. He wanted just such a little theater, in the metropolis, in which to produce artistic and intimate plays. He got the money. He built the theater, and he has produced his first play, "The Marriage of Columbine."

What's that? Did some one ask, "Where did an actor get money enough to build a theater?" Can't say. The program doesn't announce. But it certainly was some considerable stunt. There's many an actor on Broadway this fall who would like to get money enough to build a back-yard dwelling for a pom poodle.

Both exterior and interior of the Punch and Judy are old English in construction and design. On the stucco front, and also on the walls, each side of the proceniun, are painted representations of the historic characters after whom the playhouse was named.

"The Marriage of Columbine" is a somewhat satirical little comedy, dealing with the lives of circus performers in provincial England. It was written by Harold Chapin, an English actor, now at the front. Hopkins plays the leading part. His wife has the principal feminine role, and they are assisted by probably the most capable trio of character actors who could be assembled on the American stage today. Edward Emery, Louise Closser Hale and Herbert Yost. The work of these three, in this play, would justify the building of several new theaters.

NON-RESIDENTS PROHIBITED.

Will Not Be Allowed Hereafter to Seine Cisco in This State.

Seinin grisco by non-residents will not be allowed in this state in the future. Four Ohio and two Michigan men who had been seining cisco for a week at Clear lake were ordered to turn in their nets Saturday evening by Captain Rodney Fleming, of the state fish and game department. While seining cisco is a violation of the state law, which forbids the use of nets of any character, cisco fish cannot be caught in any other way and as a result the department has permitted it. In the future, however, the privilege will not be allowed to non-residents.

This Is the Heart of
TOYLAND

Our Toy Section never held such a wealth of Toys from the Toy centers of the world as is shown this season.

Readers of this advertisement have, no doubt, seen from time to time statements to the effect hat there would be few toys for American children this Christmas. However true that statement may be in the majority of instances, it is totally disproved in OUR TOY SECTION. So far in advance do we order, and in such great quantities, that the Toys for The People's Store are among the first made and the first shipped. We repeat, THERE IS NO SHORTAGE OF TOYS HERE.

The children, and the fathers and mothers of children are invited to visit the Toy Section any day, whether to purchase or merely to examine at leisure the multitude of interesting things pertaining to the holiday season.

In its much enlarged and improved surroundings the Toy Section this year offers facilities for enjoyment never equaled in the history of the store. Third Floor.

BOYS FIGHT WITH KNIVES.

Bloody Duel is Fought by Lads in Huntington.

Huntington, Ind., Nov. 30.—A gash of four inches long was cut in Nelson Fosnough's right arm Saturday afternoon in a clash with Earl Isenberg in the alley between Jefferson and Warren streets.

Fosnough is twelve years old and Isenberg fifteen. The fight was the result of a quarrel which started last Friday, the younger of the boys resenting the question "What were you and the old woman chewing the rag about?" and replying "It is none of your business."

When they met yesterday in the alley the quarrel was resumed. Isenberg drew a large pocketknife and Fosnough defended himself with a penknife. There was no one to interfere and the boys sparred for an opening. Isenberg slashed Fosnough on the right arm and at the sight of the blood the latter broke into tears and hastened to a doctor's office and the former lost no time in going to his home. The cut was not deep, but required five stitches to close it. Fosnough choked back the tears and remained quiet when chided by the physician.

MARKLE SCHOOL NOT BARRED.

Bluffton, Ind., Nov. 30.—Markle high school authorities have been notified by the board of control of the Indiana High School Athletic association that its ruling in the controversy between Roanoke and Markle over the latter playing a professional in a recent basketball game was not intended to expel Markle from the association but the professional players, Von Crow, of Zanesville, whose entrance in a tied game which had gone overtime turned the tide in favor of Markle, can not play with any team in the association under the amended ruling of the board and Markle can continue meeting amateur teams in the county league.

TETANUS PROVES FATAL.

Hartford City, Ind., Nov. 30.—The first victim of the deadly corn shredder is Clarence Shaw, who died Saturday at his home west of the city from lockjaw following injury to his left hand, which was mangled in a corn shredder a week ago last Thursday. Tetanus developed last Wednesday and since that time Shaw's life had been despaired of. The decedent lived near Kidner bridge, about nine miles west of this city.

ELKHART PIONEER PASSES.

Goshen, Ind., Nov. 30.—Benjamin F. Kinney, aged 79 years and long a resident of Elkhart county, is dead at his home in Washington township, four miles northwest of Bristol, after an illness with a complication of ailments. Born in Snyder county, Pa., Oct. 22, 1835, Mr. Kinney came to this county by wagon in 1840, settling in Washington township. The journey required four weeks. In 1850 he married Miss Catherine Layton and they had ever since lived on the farm where they began housekeeping. Mrs. Kinney died the 21st of last month.

BOYS ARRESTED FOR CRUELTY.

Lagrange, Ind., Nov. 30.—Fourteen-year-old sons of Lee Fair and Dale Hart, of this place, are under arrest for cruelty to animals for having saturated a high-bred dog belonging to L. R. Wade with turpentine and setting fire to the inflammable liquid. The dog tore madly through the streets, his hairy coat a mass of flames. Edward Penchard caught the dog and extinguished the flames. The Hart and Fair lads were arrested and confessed. They implicate Ralph Foster, 18, in the act, claiming he furnished money to buy the turpentine and assisted to pour it on the dog.

WARSAW ELKS' MEMORIAL.

Warsaw, Ind., Nov. 30.—On next Sunday, Dec. 6, at 3 o'clock p. m., Warsaw lodge, No. 802, Benevolent and Protective Order of Elks, will hold its annual "Lodge of Sorrow." It is the occasion of the annual memorial services dedicated to departed members and the order of exercises is always appropriate for the occasion. Hon. Samuel Strickler, who is a member of Marion (Ind.) lodge of Elks, has accepted the invitation to deliver the memorial address.

AUBURN KINDERGARTEN OPENED.

Auburn, Ind., Nov. 30.—Auburn's first kindergarten was opened today at 9 o'clock at the home of Mrs. Carrie DePew on South Main streets. Miss Royce, an experienced teacher in kindergarten work and a licensed Indiana teacher, has charge of the school. The work will be conducted in such a way that at the completion of the term the pupils will be prepared to do primary work.

BOY LOSES ARM IN SHREDDER.

Columbia City, Ind., Nov. 30.—William Johnson, aged 20, had an arm torn off in a corn shredder on the farm of Henry W. Miller in Thorncreek township. The machine had become clogged and Johnson thrust in his hand to remove the obstruction and his arm was drawn into the roller and crushed to a pulp up to the elbow. Amputation was necessary.

CORN PRIZES AWARDED.

Van Wert, O., Nov. 30.—The second annual Van Wert county corn show came to a close Saturday and in the opinion of the judges and others qualified to speak, it was the best show of the kind ever held in this section of the state. The entries in the corn section number 216 and included some of the finest specimens of corn ever grown in this county. The prizes were awarded Saturday.

QUARANTINE NOT LIFTED.

Kendallville, Ind., Nov. 30.—Acting on advice given by Dr. J. W. Morr, health officer of Noble county, the local health authorities decided not to lift the diphtheria quarantine in this city today as had been intended. Dr. Morr thought it better to go on the principle of "safety first" and be sure that the ground already gained in fighting the scourge should not be lost by hasty action. It is believed the worst is over and that within a few days affairs will resume normal channels in Kendallville.

DOCTORS GET BIG WELCOME

Many Call During Day and Warmly Welcome Our New Specialists.

Such an enthusiastic reception as was given the great medical specialists, the Inter-State Doctors, is seldom accorded any scientific organization. All day long their quarters on the second floor at 205 West Berry street, were crowded with callers. Many patients from the city waited hours to get to consult the master specialist, Dr. Bartley, who is in personal charge. Business men were there also to extend a welcoming hand to the doctors.

One man came from Kokomo. Mr. Goodyear, of Wabash, came to see the specialist because his brother had been cured of rheumatism at the Inter-State Doctors' Steubenville, Ohio, institute. The doctors were very well pleased, but indeed tired, when the noon hour came and gave out news that other members of the staff would arrive from the east next week and an additional room be secured, so that all callers can be taken care of promptly.

The grand offer of free examination, free consultation and free treatment which extends to all callers before Dec. 15, is indeed a generous offer. The only charge made is for the medicine used, which must be cash. To the very poor medicine will be furnished free.

The object of this free offer is to show to the sick of the community what the Inter-State Treatment will do in curing long standing, deep-seated chronic diseases.

THE SENTINEL'S DAILY SCRIPTURE READING.

II Peter 3:1-13.

1 This second epistle, beloved, I now write unto you; in both which I stir up your pure minds by way of remembrance:

2 That ye may be mindful of the words which were spoken before by the holy prophets, and of the commandment of us the apostles of the Lord and Saviour:

3 Knowing this first, that there shall come in the last days scoffers, walking after their own lusts,

4 And saying, Where is the promise of his coming? for since the fathers fell asleep, all things continue as they were from the beginning of the creation.

5 For this they willingly are ignorant of, that by the word of God the heavens were of old, and the earth standing out of the water and in the water:

6 Whereby the world that then was, being overflowed with water, perished:

7 But the heavens and the earth, which are now, by the same word are kept in store, reserved unto fire against the day of judgment and perdition of ungodly men.

8 But, beloved, be not ignorant of this one thing, that one day is with the Lord as a thousand years, and a thousand years as one day.

9 The Lord is not slack concerning his promise, as some men count slackness; but is long suffering to us-ward, not willing that any should perish, but that all should come to repentance.

10 But the day of the Lord will come as a thief in the night; in the which the heavens shall pass away with a great noise, and the elements shall melt with fervent heat, the earth also and the works that are therein shall be burned up.

11 Seeing then that all these things shall be dissolved, what manner of persons ought ye to be in all holy conversation and godliness,

12 Looking for and hastening unto the coming of the day of God, wherein the heavens being on fire shall be dissolved, and the elements shall melt with fervent heat?

13 Nevertheless we, according to his promise, look for new heavens and a new earth, wherein dwelleth righteousness.

MONDAY, NOVEMBER 30, 1914.

Gary and the Vice Problem

Following a somewhat impressive fanfare of reform trumpets a few months ago, the city of Gary is permitting its old redlight district to re-establish itself, and administration authorities there are quoted as declaring that the policy of suppression has been a failure. It has been found impossible, says the Gary dispatch, to prevent disorderly houses from springing up in residence sections of the city, and whereat there as an ignominious retreat to the old conditions which provoked criticism and terminated in the upheaval that placed the present administration in power.

But one construction can be placed on such a decision as is now announced from Gary. It amounts to nothing less than a shameless admission of police inefficiency that is most amazing. The reform policy was inaugurated on July 29, last. In precisely four brief months of a trial the administration is willing to concede that it is beaten—that it is unable to cope with the powers of the underworld and that it is in point of fact not in control and is unable to enforce the laws. It virtually confesses to the world that it is unequal to the task it undertook, but one looks in vain for any disposition to step down and out and make way for others who might accomplish it. Altogether, the situation does not present an especially comforting basis for reflection.

Very happily, however, there is evidence that public opinion in Gary is not a unit as to the wisdom of the administration's retreat. Law-abiding citizens there are threatening impeachment of the mayor unless he rescinds the action under which the segregated district again becomes a recognized institution in the steel city. They decline to accept the administration position that it is helpless and refuse to believe that decency is a failure. Altogether the situation is one which promises some developments which ought to prove valuable to other Indiana cities with similar problems.

Following closely upon Russia's recent action in making that vast nation "dry" by royal edict, comes a movement to abolish liquor in the British army that promises to be effectual. Together these constitute the most noteworthy and most significant of recent temperance efforts. The leaders of these vast legions of fighting men are in position to see that the alcoholic drink is as great an evil in the business of war as it is in other avenues of life. The world is rapidly coming to realize that it will be vastly better off without it.

Marion county, which comprises the Seventh congressional district, discovers that in proportion to the representation in other districts of Indiana, it is entitled to substitute one and one-fourth of a congressional district instead of merely one as at present. Perhaps the undersheriff in any of the districts surrounding the Seventh would be willing to spare one-fourth of the opposition if this little act of kindness would make the state capital any happier.

Doubtless the persistent habitues of the county jail will promptly catalogue the new determination to compel them to work along with those other horrors with which the European war is now filling the newspapers. Anything that is liable to break in upon the protracted periods of idleness and ease at public expense is certain to produce a profound shock among those who have been enjoying relief from life's strenuosities as guests of the county.

General Gonzales is the latest Mexican patriot to proclaim himself provisional president of our neighbor on the south. Oh, well; a few provisional presidents more or less, can scarcely add to the multitudinous governmental perplexities that constitute Mexico's chief output these days. There is yet room for others.

SUPERIOR JUDGE IN SAN FRANCISCO HOLDS COURT IN A STABLE.

Session of Judge Graham's court in a stable. On the extreme right is the judge. In the center of the picture is the chief witness—a horse.

San Francisco, Nov. 30.—Judge Thomas F. Graham, of this city, convened his department of the superior court in a barn here recently. A horse, a stableman, a farmer and a number of court attaches attended.

This is how it came about: James Smith, a drayman, was being sued by Thomas O'Hara, a rancher, for $73, balance due on a $3,000 shipment of hay.

Smith alleged and averred to Judge Graham that "rocks, bricks, clods and stones as big as your-r head, your-r honor, were in the middle of thim bales." so he held out payment on their equivalent value in hay.

As Smith couldn't bring his stable into court in order to prove his contention it was decided to move the court to his stable where the horse which had eaten the hay could be duly sworn to testify as to whether he had found rocks, clods and bones in his fodder or not.

PRESS COMMENT ON SMYRNA INCIDENT.

"A Friendly Act."

Ohio State Journal:—"The Smyrna harbor was mined. The shot across the bow of the launch was simply to impress the seamen with the warning that it was dangerous to proceed further. It was a friendly and not a hostile act."

"The Kindly Turk."

Kansas City Journal:—"It seems that the kindly Turk fired that shot only to warn of nearby submarines. How could we ever have suspected the benevolent purposes of our humane friend, the Turk."

"No Reason to Doubt."

Philadelphia Press:—"There is no reason to doubt the truth of explanations on the part of the officials of the Turkish government and neither is there any reason to believe that that government would intentionally offer any affront to ours."

"Smoke Cleared Away."

Cleveland Plain Dealer:—"So the haze and smoke are cleared away, and this little 'international incident' assumes its proper unimportance. No one has been barking or making faces at the United States."

"Not Exactly Hostile."

Kansas City Times:—"The Turkish shots at the Tennessee's boat are reported by the captain to have been not exactly hostile, but 'unfriendly.' Well, they might be so regarded."

"American Citizens."

Schenectady Gazette:—"It will be well for the government to impress upon Turkey, however, the fact that the Turkish government will be held responsible for any injury to American citizens within its jurisdiction."

"Subject for Congratulation."

Baltimore Sun:—"At all events, the explanation is one which we cannot refuse to accept, and the passing of this possible cause of international friction is a subject for general congratulation."

"The Last Thing."

Utica Press:—"The last thing Americans want is to be in any way mixed up with the present European complications, and there is no reasonable likelihood that they will be."

TIMES LOOKING UP.

(Grand Rapids News.)

There is no better barometer of trade and manufacturing conditions than the business forecast issued by the banks. To those who may doubt whether labor conditions are improving, the following bank statement may be of interest:

"Probably 40 per cent. of the labor employed in the metal trades, the textile trades and heavy manufacturing generally was out of employment at the beginning of this closing quarter of the year. Not since 1893 has the number of unemployed been so large in this country as on October 1. Since that date, increased orders for home consumption, the opening, conversion or equipment of factories for the making of goods previously bought in Europe and the receipt of heavy orders for supplies from the belligerent nations have each served to reduce the number of the unemployed. Within a fortnight, enough mills have resumed or increased their working forces to re-employ 25 per cent. of the idle, and it is safe to assume that not more than 25 per cent. of the labor usually employed in the heavy manufacturing lines is idle at this writing, with good prospects of the number being decreased daily. Among those concerns which have been favored with heavy orders from the nations at war, many are operating at full capacity and some working twenty-four hours a day for the first time in their histories."

Every condition today seems to point toward a prosperous year to come. America is becoming the supply station for Europe, and American labor is as certain to reap the benefit as the sun is certain to rise tomorrow.

Pointers for Women.

Almost every woman who has raised a family will remember instances where she has prevented serious sickness by having the right medicine at hand ready for instant use when needed. A common cold can be cured much more quickly when properly treated as soon as the cold has been contracted instead of waiting until it has become settled in the system. You will find Chamberlain's Cough Remedy especially efficient in cases of colds and croup in children. When given as soon as the child becomes hoarse, which is the first symptom of croup, it will prevent the attack. For sale by all dealers.—Adv.

FEWER SUICIDES SHOW PROSPERITY

F. L. Hoffman, an Authority on Subject, Reports Big Decrease.

New York, Nov. 28.—A study of suicide in its relation to life insurance contributed by Frederick L. Hoffman, to the Spectator, discloses the fact that suicide is on the decline. The highest average rate per 100,000 of population in 100 cities of the United States is shown by the statistics from San Diego, Cal., where the average rate last year was 47.7, an increase of 6.1 on the figures for the decade ending in 1912. San Francisco is next, with a rate of 45.1, a decline of 3.9 for the same decade, and Sacramento, Cal., third, with a rate of 34.5, a decline of 4.7 for the decade.

The statistics show that the suicide rate for Manhattan and the Bronx last year was 17.8 in 100,000 population, a decline of 1.9 from the average suicide rate for the decade ending in 1912. Last year there were 533 suicides in the two boroughs, as against 5,087 for the previous ten years. The city showing the fewest suicides is Gloucester, Mass., where one person killed himself last year, as against thirty for the ten years previously a decline in the average rate of 7.6. For insured males, there is a decided increase in the rate, while for insured females the rate is practically the same for each period of life.

From 1903 to 1912, in 100 cities of this country, 40,705 persons committed suicide, being an average of 19.7 per 100,000 of population. In 1913 there were 4,470 suicides in the same cities, or a rate of 18.7. There was, therefore, an actual decline in the suicide rate of 1 per 100,000 of population. Of the 100 cities, 49 show an increase in the suicide rate and 51 show a decline. Out of 20 cities, which during the decade ending with 1912 had a suicide rate of from 22.6 to 49.0, 11 show an increase in suicidal frequency against 9 showing a decline.

"As far as it is possible to judge," says Mr. Hoffman, "a maximum suicide figure for American cities was attained in 1908, when the rate reached 21.8 per 100,000 of population. The rate of 18.7 for 1913 was the lowest on record since 1903, with the exception of 1906. A diminishing suicide rate may be safely assumed to reflect in a general way an improvement in the social and economic condition of the country, and in this respect the evidence available is quite conclusive that the year 1913 was one of widely diffused prosperity."

Mr. Hoffman says further that while much is being done through associated effort to diminish the mortality from typhoid fever, which in 1912 approximated 16,000 deaths, practically nothing is being done to produce a wholesale and necessary reaction of public opinion against the most indefensible of all crimes, the wrongful act of self-murder.

TEACHER-MOTHER ROUSES SYMPATHY OF NATION IN FIGHT FOR RIGHTS.

New York, Nov. 30.—While Mrs. Lorna Wagner, the New York high school teacher, is taking care of her new-born baby, the press of the nation and the people, too, are discussing the right of the board of education to suspend her because she lived up to her belief that teachers should not be barred from motherhood.

The board refused to give Mrs. Wagner leave of absence and suspended her because she remained out of school. She will ask the courts to decide her right to leave of absence.

Alfred Gamble Thinks in Figures and Thinks Like Lightning.

Rochester, N. Y., Nov. 30.—Alfred A. Gamble thinks in figures, and when he thinks he thinks like lightning.

When he was going to school in Rochester "teacher" called him "a crank on figures." He knew a whole lot more about them than she did. When he grew up, university professors became interested in him, and he's now giving demonstrations in "lightning calculating" before psychology classes in the west and northwest.

In six seconds this rapid-fire calculator can multiply 7,698 by 5,321 and give the answer, 40,955,737. Give him the date of your birth and he can tell you almost instantly the day of the week you were born.

"It's just a knack, this rapid figuring of mine," says Gamble. "I've been doing it ever since I was five years old. I was always adding or multiplying the house numbers and automobile license numbers and before I knew it I was a 'lightning calculator.'" Columbia, McGill, Syracuse and Berkeley are some of the universities before which Gamble has demonstrated his ability in figures. He is twenty-one years old.

Explosive Coughs Fairly Rack You to Pieces

Foley's Honey and Tar is Just Like Oil on Troubled Waters for those Violent Racking Coughs.

They rasp and strain your throat, tear at your chest and lungs, congest the blood in your neck and head, almost strangle you, leave you weak and fairly exhausted. Often they are a symptom of such grave diseases as bronchitis, pleurisy, pneumonia—even tuberculosis.

"Oh, for a bottle of FOLEY'S HONEY and TAR to stop this awful coughing."

FOLEY'S HONEY AND TAR COMPOUND spreads a healing, soothing coating as it glides down the raw inflamed throat. It loosens the cough, brings the phlegm up easily. Takes away that tight feeling across the chest, and eases stuffy, wheezy breathing and hoarseness.

A dealer of Toledo, Ohio, (name furnished) who has sold FOLEY'S HONEY AND TAR for years, writes: "One of my customers came into store to use long distance telephone. He was coughing so violently that he could not talk. I sat him down and gave him a bottle of FOLEY'S HONEY AND TAR, and in 10 minutes he had recovered. He had been unable to work for three months, due to this cough. He says FOLEY'S HONEY AND TAR relieved him entirely of this trouble."

S. MARTIN, Bassett, Nebr., writes: "I had a severe cough and cold and was almost past going. I got a bottle of FOLEY'S HONEY AND TAR and used it frequently, when having violent coughing spells, and am glad to say it cured my cough entirely and my cold soon disappeared."

THE ORPHEUM.

"THE MASTER KEY."

Third Chapter of Story-Picture Headlines Program.

Springing into instant favor at the projection of the very first installment, "The Master Key" is a photo-drama that has set wonderful precedents, and impressed the theater-going public of this city immediately with the significance of the claim of the producers; to-wit: That this is the greatest, the most comprehensive and the costliest serial picture ever made. A tale of adventure and love, it abounds with gripping circumstances, thrilling passages and tremendous climaxes that fairly shake the onlooker with their sheer dramatic power. Robert Leonard and Ella Hall, two of the most prominent luminaries in the moving-picture kingdom, assume the leading roles.

The co-feature with this powerful attraction introduces us to one of the uproarious L-K comedies, "The Blighted Spaniard." Special numbers have been arranged by the orchestra, prominent among them being Sousa's "Charlatan" march and a late "hit" entitled "What More Do You Want." Miss Lyons will sing the official song of the Panama-Pacific Exposition, "California and You."

Next Wednesday and Thursday the long-looked-for "Newlyweds in Fort Wayne" pictures will be seen at the Orpheum.

AT THE TEMPLE.

With a bevy of delightfully graceful young girls furnishing a sweet, charming background for a medley of pleasing dances and contributing materially to the enjoyment of a score or more catchy song hits presented by the peppery, gingery principals, "The Froliques of 1914," the opening performance of the Temple's new burlesque season, is on in full blast. Daily matinees at 2:30 o'clock and evening performances at 8:15 o'clock will be given throughout the week, the Froliques having been booked here long enough to insure everyone's enjoying an opportunity of seeing it.

The Temple's burlesque is super-refined, retaining only the ginger, go and vim of the old style burlesque endeavors with everything suggestive rigorously eluded, but sacrificing none of the pleasure to be derived from a pretty chorus and superb principals.

AT THE EMPRESS.

Morris and Allen, the comedians with the pies, headline the new bill for the first half of the week at the Empress theater. These two young men are comedians who sing with all the success of grand opera stars and their offering gets lots of applause. They have a line of up-to-the-minute comedy and a bunch of songs that are snappy and modern.

"The Man From Italy" is the interesting title of an interesting sketch that is being presented at the Empress by Murry Livingston and company. Mr. Livingston plays the main role in this dramatic comedy playlet, which tells the efforts of an Italian to find his little daughter whom he has not seen for fifteen years. The manner in which he finally discovers her is unexpected and wholly delightful. The remainder of the bill is also pleasing.

AT THE JEFFERSON.

"WHEN THE EARTH TREMBLED."

Is Powerful Co-Attraction With "The Prison on the Cliff" and One of the Linder Farces.

Do you like action? Do you like a good love story? Do you care for a tale crammed full to overflowing with mystery, intrigue and red-blooded adventure? If you do, then you will be an interested spectator at the Jefferson today. The moving powers will evidence themselves in the form of two exceptional dramatic releases, "When the Earth Trembles" and "the Prison on the Cliff," a couple of brilliant photoplays containing an appeal that penetrates and grips. The first named of these pictures is an adaptation from the E. P. Roe novel of that title.

Found on the same program with these two features we have another of the famous Max Linder comedies. Linder is the highest-priced comedian appearing in motion pictures, and in this absurdity, called "Max Has the Boxing Fever," we are given to understand the reason why Linder commands fifty thousand dollars a year for his efforts.

Tomorrow Clara Kimball Young comes to the Jefferson in Owen Davis' peculiar drama, "Lola," the story of a girl who was brought back from the dead, and lived again, though divested of her soul.

The finest grained modeling clay in the world comes from Italy.

AT THE MAJESTIC.

Thurston, the Magician, at the Majestic, Starting Thursday.

Thurston, the magician, will be the attraction at the Majestic three nights and Saturday matinee, opening Thursday, Dec. 3rd.

Few people know of the extent of his tours. Three times has he encircled the globe. There are few crowned heads of Europe before whom he has not appeared and in the far east those rulers over millions, with their odd and unpronounceable titles, have also been astounded by his wonderful performance.

It is no wonder that people of all nationalities want to see this man and entertainer, who attracts by his marvelous mysteries thousands who rarely attend the theater.

It is a great program that Thurston presents this season—many of the old favories that his admirers have seen before and will be more than anxious to see again, and many new ones, including "The New Woman," "Noah's Vision," "The Evolution of the Negro," "Aerial Fishing," "Balaam and His Donkey," "Animated Sketches" and a score of others go to make a program said to be the best offering in the history of magic.

NEWEST OF "TROTS" IS THE FOX TROT, AND MISS NEIL WRITES OF IT.

MISS NEIL POSES WITH HER PARTNER IN FOX TROT.

Here's another new dance.

Yes, it's a "trot." Most of the new dances are "trots" of one kind or another, but the long, loping stride of the fox, not the strut of the turkey, is the model for the newest "trot"—the "fox trot" that has just come out of London and is presented now to Sentinel readers by Miss Edna Neil.

Miss Neil will tell exactly how the "trot" is danced by exponents of correct ballroom dancing, and that means there are no high "kicks" or vulgar "dips" or fantastic "limps" to detract from its grace or to mar one's enjoyment in the newest of the season's "trots."

Miss Neil is a pupil of Pavlowa's and the originator of many of the season's new ballroom dances.

(By Edna Neil.)
Formerly With Pavolowa in Imperial Russian Ballet.

The new-step is the basis of the new fox trot; the basic step is merely a walking step, the gentleman stepping forward, with the left foot, the lady back with the right.

The dance is opened with four slow one-steps, allowing two beats of music to each step. After these slow steps there are eight fast steps, allowing one step to each beat of music. As the music is very fast, this makes a sort of patter step. These eight fast steps are continued after each of the following figures.

Figure 1—Gentleman steps left diagonally forward to two counts of the music, slides right across behind left to two counts of the music and runs forward four steps, left foot beginning the running step. Each of the four running steps is done to one beat of the music.

Figure 2—The zig-zag run—The gentleman moves forward, lady backward. He crosses his foot back and she hers to the front. Gentleman then runs, left foot to left side (count one) to the music, right cross back (count two), left to left side (count 3), right to right side (count 4), left cross back (count 5), right to right side (count 6), and continue through 12 counts or three measures of music.

Figure 3—This is a maxixe two step. Gentleman does a maxixe with left foot (count 1, 2, 3), hold (count 4), four running steps backward beginning with the right foot (count 5, 6, 7, 8). Repeat, starting with left foot.

Figure 4—Fox trot turn—Four running steps, left, right, left, right. Then four running steps, turning to the right in a complete turn.

Figure 5—Wave and box turn—Gentleman takes three steps to the left of his partner or left, right, left, three to the right, three to the left and turn half around, having partner on his left side after the turn.

HOUSEHOLD HELPS.

When engaged on delicate needlework a good idea is to have a little flour in a saucer by you and to dip your fingers in it from time to time. This will not only keep the hands dry, but the work beautifully clean.

Silk handkerchiefs should be washed in a warm lather made with pure soap. This should be blued, as should the rinsing water. Roll up tightly in a cloth and iron the handkerchief between linen or they will turn yellow.

Heavy hats cause headaches and are very bad for the hair. A hat should be light and should not be worn so tightly on the head as to exclude all the air. Lack of ventillation for the hair is one of the causes of baldness.

Destroy the smell of paint by placing pailfuls of cold water in the rooms which are being painted. Change the water night and morning, and, when possible, add a handful of hay to the water in each pail.

BLUNDER BY AN ADMIRAL DID IT

Tradition Forced Our Occupancy of Vera Cruz for Seven Months.

(By Gilson Gardner.)

Washington, Nov. 30.—It was a blunder which landed the American forces in Vera Cruz—a blunder by an admiral. Traditionally the admiral was right, but the tradition survived from a time before there were telegraphs or cables or wireless, when admirals were entrusted in distant waters with the functions of international diplomacy. Admirals in the old days were accustomed to uphold the dignity of the nation by compelling respect for the flag and by insisting upon certain formal observances like the firing of guns in salute of the flag and the presentation of apologies when these observances were neglected. Thus it happened that what an admiral regarded as an insult to the American flag made it necessary for the president to send the fleet and 6,000 men to Vera Cruz and to keep them there at large expense for many months.

President Wilson has always opposed war or any step which would lead to forcible intervention in Mexico. But like the kaiser, he is partly surrounded by militarists and in the Mexican incident he was to a certain extent a victim of our military coterie. It was pointed out to him that the morale and prestige of the whole navy would be destroyed should he refuse to back up the admiral who had demanded salutes and apologies without consulting his superiors in Washington. So he backed up the admiral and at once found himself in the position of making war against a friendly people without a declaration of war and without a casus belli. With this situation confronting him, his purpose, quickly hit upon, was to back out with as much dignity as might be assumed. The mediation by the three South American countries was a part of the machinery of this dignified retreat. His final victory was achieved Tuesday, November 24, when General Funston evacuated Vera Cruz and the Mexican revolutionists were left to stew in their own revolution and the Mexican people to work out their political salvation by revolution or otherwise as all nations have done since nations have existed.

Of course American concession holders, including speculators and investors in mines, railroads, oil wells and ranches in Mexico, disapprove of the president's policy, and of course they were keenly disappointed when he resolutely evacuated Vera Cruz. Even the administration organ in New York, The World, shed tears of salt with the regret of depreciated Mexican smelter, mine and railroad securities. It was unpatriotic and poor politics from Wall street's point of view. Even the democratic glorifiers of Wilson as our principal angel of peace gagged at the practical promotion of peace evangelized in the withdrawal of our fleet and troops. Hearst, too, with his million-acre ranch, has suffered the agonies of a boy with green-apple colic.

The explanation is simple on all sides, and the president's Mexican policy is easy to understand when one keeps in mind always this fact: That we blundered into Vera Cruz and that our effort to give the Mexicans freedom and constitutional government does not really extend to a deliberate purpose to shoot them down in order to force democracy and self-government upon them.

Some plan for a system of personal credit banking rather than for land mortgage banks seems to be favored now as a solution of the rural credits proposition. The conference here is working along the lines of the so-called Millikan plan, which is embodies in a bill to aid farmers in pooling their own credit so that this credit may be issued by themselves to carry on farm operations and improvements rather than to establish banks which will refund farm mortgages at a lower rate of interest.

The kitchen sink has commanded the attention of the scientific brains of the agricultural department, and for the liberation of the housewife, a bulletin is now published which declares, "most sinks are too low for even a woman of medium height to wash dishes without stooping and it would be better to have a box or stool for a child or short person to stand on than to oblige a tall woman to stoop to a low sink. The bottom of the sink should not be less than thirty inches from the floor and thirty-one inches is better for a woman of average height." In the same bulletin are a lot more hints about rearranging stove, table and sink in their relation to the pantry door and the dining room door, in order to save steps for the housewife.

BEST SEASON IN FRIAR'S HISTORY

Closed With Victory and Fans Saw Excellent Gridiron Work.

(By Morton B. Williams).

With a victory that read 38 to 0 over the Congerville Athletic club football team of Muncie, the Friars closed on Sunday the best season in the history of independent football here, both in point of good sport and financial success the year will go down as a high mark for the athletic boards that come after the present one.

The record of games for the year is seven won and three lost and in hanging up this mark the Friars have taken on some of the best of the independents and added one college-trained club to the list.

There is just one regret. Wabash is yet to be beaten. Men on the club, the entire membership of the Friars and all of Fort Wayn's vast crowd of fans wanted to see that Wabash crowd downed this year but this pleasure was not afforded them. However, another season is coming.

In addition to the defeat administered by the Wabash club, the locals lost to the Evanston North Ends and to the South Bend Silver Edge aggregation, and among the clubs defeated were the Walsh hall of Notre Dame, Jackson, Mich., Mapleton of Indianapolis, Alexandria and Huntington.

Advanced prices did not materially affect the attendance and the patrons indicated that they will pay good prices to see good football and apparently they were satisfied with the results. The support given the team is all that could have been asked and Prof. Louis Ward, Capt. G. E. Rwonde, the players and the athletic board all share in the honor of giving Fort Wayne its best season in football.

Congerville has been here twice before and in the defeat of Sunday lost the rubber game to the Friars.

The visitors kicked off and the Friars lost the ball on a fumble and Muncie started to gain but the locals tightened and they were forced to punt. The Friars got the ball, lost it and recovered it and pulled up to the Muncie goal when Chambers carried it through for the locals' first touchdown. Laird added another point with the kick. During the remainder of the quarter the ball was in the possession of the Friars and the play went up and down the field. This period was the best one played, there was little scrapping and no dirty playing to speak of. In the last part of the period Baird caught a long pass and the play netted the locals forty-five yards. The quarter ended with the ball on Congerville's twenty yard line in Friar hands and the score 7 to 0.

At the start of the second Laird on an end run ran across the Muncie goal but the referee ruled that he ran out and the ball went to the one foot line, from which place Island carried it over. For the next five minutes Muncie and the locals alternated with three attempts to gain, punt and repeat with the opposite side. After this bit of play the visitors made two first downs, netting them a total of twenty-five yards, but after that were unable to gain and the ball went over. A pair of forward passes, one to Pask and the other to Baird, gave forty yards, but on attempting to work the pass game again, a touchback was made and the ball was put in play on Muncie's twenty yard line. After a penalty for off-sides Muncie punted; Island caught the kick and ran, squirmed and wiggled through the field for forty yards. Another end run by Laird gave the Friars their third six points. This was increased one more by his successful goal. The locals had no more than kicked off when the time of the period was up. Score 21 to 0 in the locals' favor.

After the first few minutes of play, when the locals had gained possession of the ball and had lost nearly ten yards, Laird, backed up as if for a drop kick, and then proceeded to make up the loss and a few yards to spare by a fake. After this bit of inside football the Friars lost ground and were forced to kick. Checkaye got the ball back of his own line and got to his own three yard line when he was dropped. While attempting to punt out of danger Muncie was downed by Laird for a touchback. It was Congerville's ball on the twenty and she punted out of such close quarters. After the locals had lost some ground Island made it up and on coming closer to the goal dropped one over. Some minutes later the Friars got the oval on a fumble and Lubker, who was in at quarter, Island having been hurt in a collision with a heavy Muncie player, gained twenty-five on a quarterback run. A forward pass to Baird gave the same amount and Lubker went through for another touchdown. Laird missed goal. The quarter ended with the score at 32 to 0.

In the first five minutes of play Lubker ran around end for a touchdown after the locals had been penalized twice. Laird was not in form and he missed the kick. The rest of the game was little more than a slugging match, the Congervilleites having found that it was impossible to win took no pains to conceal their slugging and it was visible from all parts of the field. When the whistle blew the score was 38 to 0 and the locals were thoroughly tired out and disgusted.

The whole Friar back field was in great form and its play was largely responsible for the local victory. The Friar line was not in such good shape but all played good ball considering the team they went up against.

Lubker scored the most touchdowns, with two to his credit, and Island came next with one touchdown and a field goal. Chambers and Laird each had one.

The lineup and score:

The Preliminary.

The West Ends and the South Sides clashed in a one-sided contest that was all West End until the last minute of play when Minnich of the losers dropped one over the goal posts from the thirty yard line. The game was on ice from the time the West Ends started their triumphant march to their first touchdown until the referee's whistle ended the contest and gave the winners the undisputed amateur championship of the city. The game was fast and well played throughout and was minus the kicking which marred the big game. Touchdowns were scored by Bradley, Herring, Bauer and Hilgeman, while Heerter, Merrill and Bradley kicked goals. The lineup and score:

West Ends, 38.		South Side A. A., 3.

SPEEDSTER GETS EARLY START

Billy Carlson

With the race yet six months away, Billy Carlson, shown above, is already lined up for the next Indianapolis sweepstakes contest, at the wheel of a Maxwell. He believes in getting an early start. Carlson is one of the youngsters of the racing profession, but, nevertheless, must be figured with the best of them.

O'MARA WAS OFF TO GREAT START

Former Fort Wayne Player Hitting Fine Clip When He Was Hurt.

Ollie O'Mara was going at a great clip with the Brooklyn National league club when he broke one of his legs early in the season and was retired for the remainder of the year as the official batting averages which have just been released for publication indicate that in sixty-seven games he hit for an average of .267, stole fourteen bases and his safe drives netted him a total of eighty-two bases, ten of his wallops having netted him a couple of socks each while he landed two three-ply blows and one that was good for the circuit.

Most players have some difficulty getting back in their stride after breaking a leg, but O'Mara is not more than twenty years of age and his injury ought to mend rapidly and permanently.

One of the saddest things in the official records is the line devoted to John H. Wagner, of the Pittsburg team. This great switchman and popular baseball player tumbled from his lofty seat in the .300 division to .252 in 150 games and it is safe to wager that in the entire league there is not a player, manager, owner or anybody connected with baseball who is not sorry that this grand veteran of the national game did not finish in his accustomed place among the leaders.

As has been said before, Joseph Connoly is the only Boston player who landed in the charmed circle. He played in 120 games and his record is largely due to the generalship of Manager Geo. Stallings, who did not force him to bat against the left-handed pitchers, and in that way made the best of his batting strength.

Eugene F. Hargrave, who went to the Cubs from the Terre Haute club, and who helped to make the town of New Haven, Allen county, Indiana, more or less famous, played in twenty-three games during his first year in the majors and compiled a batting average of .222, which is pretty good for a youngster whose time was mostly taken up warming up pitchers.

Bob Bescher barely held his place with the Giants as his batting and base running were below his normal standard. He hit .270 in 136 games and pilfered thirty-six bags. This makes him a valuable player but he friends believe that under the tutelage of Manager John J. McGraw he would develop better strength both on the bases and at bat.

George "Dode" Paskert, who had a year of misfortunes, managed to plug along in the face of difficulties and in the end he hung up a mark of .264 in 122 games, while Maximilian Carnarius, otherwise known as Max Carey, slumped badly in batting and base running and in 156 games attained a record of .243 while his base running record suffered very materially and only thirty-eight times did he manage to beat the catchers' throw to the bag.

Edward Joseph Pfeffer, whose pitching for the Brooklyn team was one of the marvels of 1914 baseball, held his own as a batsman. He hit .198 in forty-four games and that is about as well as he ever did in the Central league, which shows that the former Fort Wayne and Grand Rapids hurler hit just the same against National league pitching as against the brand served in the minors.

Earl Yingling's transfer to the Cincinnati club evidently affected his batting eye. Last year he was a pinch hitter extraordinary for the Dodger outfit but when the figures were tabulated at the close of the 1914 season they indicated that this celebrated southpaw had only .188 to his credit. Pete Knisely tumbled to .130, and although William L. Doak, known in Central league circles as "Whitey," hurled marvelous ball for the Cardinals, the best he could do with the willow was .111.

GOLF AND AUTOS HURT BASE BALL

Attendance Falls Off and These Are Two of the Causes.

(By Hugh S. Fullerton.)

There has been much argument during the last year as to whether or not baseball will regain its past popularity.

There are some who, deceived by tricks in figures, contend that baseball has not gone back. The truth is it has dropped approximately 40 per cent. in the organized leagues since 1911 high figures and that includes an approximate loss of 25 per cent. in one major league.

Even with the addition of the attendance on Federal league games last season major league baseball shows a heavy loss in attendance. The three leagues drew last year approximately 15 per cent. fewer persons than two did in the years from 1908 to 1912.

There have been so many reasons assigned for this decrease in interest all over the country that it is worth a study. One thing is certain, when there are great major league races minor league business increases. People are interested in baseball and go to any kind of game. When the prospects of a race are poor in the major leagues, business is poor in the minors. This was the case last season—until Boston started its phenomenal spurt. Then business improved all through baseball. Even the Federals drew better. Hard times also are blamed, disgust with the actions of the owners, the greed of players, the Feds; almost everything has been advanced in explanation.

Conditions in Chicago are just about the same as in all other towns. Chicago's attendance fell off heavily, the three clubs not drawing as well as two usually do, even though Comiskey held up well in attendance. Why did not the people go to baseball?

There are around Chicago approximately fifty golf clubs. From figures obtained at least 25,000 persons play golf or watch it at the week ends.

An automobile statistician furnishes figures to prove that on a nice Saturday afternoon or Sunday there are at least 180,000 persons riding in automobiles. Figure one-third of that number as men and boys and you have 60,000 out in automobiles.

That makes at least 85,000 men and boys of the athletic outdoor type drawn away from baseball on Saturdays and Sundays.

But it will require good baseball and exciting races to get a golfer to quit active playing of golf in order to watch someone else play baseball and it will take much to get a fellow to abandon an automobile ride into the country to sit in a grandstand. If you don't believe it wait until you are invited to a ride and a ball game the same afternoon.

JUDGE EGGEMAN SPEAKS HIS MIND

Criticises Opponents of Detention Home in Sentencing Girls.

"But for the fact that some people in this city have effectively opposed it we would have in Fort Wayne a proper place where you might be cared for and given the influences and surroundings that would make you a better woman. We need such a home and you ought to have the care and influence of such a home, but the opposition I speak of has prevented our having it, though it is well known and admitted that a detention home for girls is one of the greatest needs of this city. I have no other course, much as I would like to give you the chance you deserve, than to let the sentence stand."

So spoke Judge John W. Eggeman in the circuit court Monday forenoon in pronouncing sentence on Mrs. Velma Myers, one of the three young shoplifters arrested last week. Judge Eggeman spoke with feeling and his allusion was to opposition that was made to the plan to use the home of the late Samuel Baum, 1313 West Wayne street, as a detention home for girls and women. Miss Minnette Baum, who inherited the property from her father, had offered to utilize the residence for that purpose, but the proposal aroused in the neighborhood an opposition that seems likely to defeat the proposed benevolence.

Mrs. Velma Myers, aged 19, and her sisters-in-law, Misses Millicent Myers, aged 20, and Naomi Myers, aged 18, pleaded guilty to petit larceny and on their pleas the state rested. The young women were put on the stand by the defense. Each told the story of her life. Millicent and Naomi Myers early in life lost their father, the late Charles Myers, of Huntertown, and were left on the hands of their mother, who was then and still is an almost helpless paralytic. They were put in the Allen county orphans' home and for varying periods remained there. Millicent left when young and most of the time worked for her living. Naomi remained there until older and was for a time in the Julia Work school for girls at Plymouth. Mrs. Myers lost her father when she was a young girl and she told of a long course of wandering from city to city to earn her living. She met her husband, Clarence Myers, brother of the other two girls, in Kansas City. Last April they were married in Fort Wayne. All the girls denied that they had ever stolen anything before they began their shoplifting campaign in this city two weeks ago. Millicent confessed moral delinquency of another sort. They confessed the robberies at the Myers Dry Goods company's store, at the People's store, at Saul's and the stealing of a set of furs at the Orpheum theater. When they presented themselves for sentence, Millicent Myers, weeping bitterly, asked Judge Eggeman to be merciful to her younger sister, whom she said was less to blame than any of them. Judge Eggeman then pronounced the following sentences: Mrs. Velma Myers, ninety days in the correctional department of the woman's prison; Millicent Myers, one to eight years in the woman's prison; Naomi Myers, ninety days in the correctional department of the woman's prison. The age of Millicent compelled the court under the law to be more severe, but the sentence was suspended on her promise to go to the home of Mrs. James Nipper, in Lakeside, where she will be taken care of. She promised to be obedient and to keep off the streets. Naomi's sentence was suspended upon her promise to go to the Julia Work school for a time, try to improve her education and to make a good woman of herself. Judge Eggeman had no alternative but to commit Mrs. Myers to the correctional department of the woman's prison and it was when he spoke of that being the only course that he alluded to the defeat of the detention home plan.

The three girls were arrested by Detective Sergeant W. F. Pappert and Officer Charles Eisenhut in their rooms in the old Calderwood hotel block, where some $300 worth of stolen property was recovered.

The great sale of Hart, Schaffner & Marx fine suits and overcoats at the Patterson-Fletcher Co. store began at 10 o'clock this morning. Although the weather is very bad for winter clothing the store was crowded with buyers. One thing quite noticeable was the many outside customers from places like Bluffton, Huntington, Lagrange and Auburn. When these people see Hart, Schaffner & Marx suits and overcoats at $12 and $15 that cost them $22 and $25 at home they do not have to be urged to buy.

TRIP IS POSTPONED.

Tour of County by Red Cross Seal Workers to Be Made Later.

Because of the inclement weather the automobile tour of the county in the interest of the sale of Red Cross seals which was to have started Monday morning has been postponed indefinitely. Just as soon as the weather will permit it is expected that all the towns in the county will be visited.

While several sales were made Monday there was none for any large amount. Those sold today were as follows: Fort Wayne Mercantile company, $10; Perry Randall, $5; Ed Longfield, $5; Seavey Hardware company, $5; Klett Lumber company, $5; Keller & Son, $5; L. H. Ransom, $5; Improved Order of Red Men, $5. A total of 106,700 seals have been sold since the campaign started and a strenuous effort is being made to pass the 300,000 mark.

That the new concrete road from the city limits to New Haven is now fully completed and open without restriction it entire length is announced by the county commissioners. PRISONERS ALL PLEAD SICKNESS

Not a Man Consents to Go Out of Jail to Work for City.

"Are we sick?"

"Yea, verily, we are sick unto death."

"Do we want to go outside to earn our bread in the sweat of our brows?"

"Verily, we do not."

"Shall we work?"

"Nay, good masters, none of us shall work."

Of this import and tenor was the almost unanimous rejoinder of the twenty-one bums in the Allen county jail when told to get ready Monday morning to go out and work for the city of Fort Wayne. Twenty-one had been inspected and thought fit for labor. Of these an even score pleaded sickness or physical unfitness of some sort. Every malady from an old stomach trouble to corns and ingrowing toenails was given for refusing to work. The one man who was willing to work was not permitted to go because it is suspected that he means to take leg bail if he gets a chance.

The weather may have had something to do with it, but the fact remains that instead of a dozen prisoners being put to work along the river banks under Street Superintendent Strodel not a county convict heaved a shovel load or delivered a stroke with a pick or an ax. Another trial will be made with them.

TESTED UP TO LIMIT.

A Load of 3,000 Kilowats Put on New Unit at Lighting Plant.

The new 2,000-kilowatt turbo generator at the city electric light plant was given a test up to the limit Monday afternoon. The full load that the big generator is designed to carry was put on it and it stood the test. The new unit that has more than doubled the capacity of the city light and power works, had been given previous tests, but this was the first full load it had been asked to carry. The current from the new unit will not be put on the distribution lines until further tests of connections have been made.

WILL BRING BACK THE PLANS.

General Agent Blair, of Nickel Plate, to See Engineers.

General Agent S. K. Blair, of the Nickel Plate railroad, informed the board of works Monday that he would be in Cleveland Tuesday and would then obtain from the Nickel Plate civil engineers the plans and estimates for grade separation at Canal and Coombs streets and for the elevation at a new street the railroad proposes as a substitute for the other two. The board is waiting for these plans in order to pass a resolution for track elevation at Canal and Coombs streets, which the people of the east end are clamoring for. A new saloon is being erected on property that will have to be vacated to widen Canal street if that thoroughfare should be opened across the tracks.

OIL PEDDLERS COME IN.

City Sealer C. B. Tolan had all the oil peddlers in the city at his office Saturday and Monday to inspect their measures. There are eight vendors, not counting the Standard and other large jobbers. The measures were found accurate.

GROCERY INSPECTION ON.

The inspection division of the board of health is now conducting the semi-annual inspection of groceries, meat markets and the like. Conditions so far have been found in most cases good. State Inspector Hutchins, who was in the city all last week, says Fort Wayne outranks all other cities in the state in respect of places where foodstuffs are sold.

BUILDING SHOWS SLUMP.

During the present month the volume of building in Fort Wayne, as shown by the permits taken out, was $100,975, as compared with $102,150 in November, 1913. The total for the eleven months of this year is $2,220,735, as compared with $2,861,462 in the corresponding period last year.

CITY COURT RECEIPTS.

The city court receipts for November, 1914, are $825, a heavy gain over November last year, when the receipts were but $297.

SAME CHECK MAN PULLED THIS JOB

The same man who defrauded the Suelzer grocery, on Fairfield avenue, of over $11 Saturday night, similarly victimized the Gable & File grocery, corner of Creighton avenue and Gay street, a little while later. The man went into the Gable & File store, purchased a bill of goods amounting to $1.50, tendered a check for $12.60, drawn in the Old National bank, and received $11.10 cash in change. He ordered the groceries delivered to 2325 Weisser Park avenue. When the delivery boy went out on that street he found there was no such number. The check is identical in appearance with the one passed at the Suelzer store and that the same man worked both jobs is clear.

Deputies in County Clerk's Office Have Nothing Definite Planned.

Deputies Robert J. Travis, John J. Lantenier, William M. Clutter and John C. Dowling, deputies in the office of County Clerk William E. Gerding, say they have not yet had time to plan for their future activities following their retirement from positions in that office January 1. County Clerk-elect David C. Stout has announced the appointment of an entire new office staff and all the deputies now in service, some of whom have been in the office many years, will go into other employment. Mr. Clutter, superior court deputy, will probably devote his time to life insurance, in which he has been engaged when relief from official duties permitted, and Mr. Travis, office deputy, will give attention to work for a bonding company that he has been connected with. Mr. Dowling, circuit court deputy, has not considered his future employment, nor has Mr. Lantenier, office deputy. William H. Roehrs, cashier and bookkeeper in the office, has been confined to his home for many weeks with serious illness. None of the deputies knew for a certainty until announcement of the new appointees was made just what Clerk-elect Stout purposed to do in the reorganization of the force. All of the deputies are diligent, faithful and capable men and will not be apt to find it difficult to obtain the sort of employment they are best suited for.

The men chosen by Clerk-elect Stout for the deputyships under him are as follows:

Fred Schnitker, of New Haven, succeeds Robert J. Travis.

Alois J. Brink, 628 East Wayne street, Fort Wayne, succeeds John J. Lantenier.

Edward W. Young, 1328 Stophlet street, Fort Wayne, succeeds John C. Dowling in the circuit court room.

Arthur Lamont, Jefferson township, succeeds William M. Clutter in superior court room.

Samuel Henline, 1225 Barthold street, Fort Wayne.

Mr. Schnitker is democratic precinct committeeman in New Haven, where he is engaged with his father in manufacturing pursuits.

A. J. Brink is a bookkeeper and was for a time with the Federal Security company. Arthur Lamont resides on a farm in Jefferson township. His father is Frank Lamont, trustee of that township.

Edward W. Young is a machinist in the Fort Wayne Electric works, but has had experience as a bookkeeper.

Samuel Henline is a carpenter contractor and has had experience that equips him for clerical duties.

All of these men have been active in democratic work and all of them have had business college training. Clerk-elect Stout says he knows all his appointees are qualified, fit and competent and will give satisfaction. The new appointees will enter the clerk's office within a few days and remain with the deputies they are to succeed a few days in order to gain some familiarity with their duties.

Mrs. Edwin Ginn, of Winchester, is the guest of her son, E. Hubert Ginn, and family.

TAMMANY CHIEF AND INDIAN BRIDE HONEYMOONING AT PALM BEACH.

Richard Croker and Indian bride.

Palm Beach, Fla., Nov. 30.—Richard Croker, former chief of the Tammany "braves," and his girl bride, Princess Sequoyah of the Cherokee tribe of Indians, are the 'observed of all observers' and the target of all camera men at Palm Beach, where they are spending their honeymoon at the Croker estate.

The marriage of the veteran political leader and horseman took place in New York November 26. Although the bride is a descendant of Chief Sequoyah and rightfully a princess, she was known before her marriage as Miss Beulah Benton Edmondson. She is twenty-three. Croker is seventy-three.

RELIEF UNION OPENS NURSERY

The Relief Union at 1118 Hanna street has established a day nursery which opened Monday for the first time. The superintendent of the union, Mrs. Youst, lives in the home and will have help when necessary to care for children left in her charge.

Plenty of good food, milk, etc., places to nap and things to amuse have been provided for the nursery, which is to help the mothers who find it necessary to leave home to be able to do so and still be comfortabe about their children. While the nursery is not free the charge for leaving a child is so small that any mother earning something will be able to pay for the aid thus obtained.

NEW OFFICERS OF FORT WAYNE LODGE, NO. 136, BROTHERHOOD OF RAILROAD TRAINMEN.

J. E. KARNS, President.

L. J. CHRISTMAN, Vice-President.

N. S. PATTON, Secretary.

E. D. SPAHR, Treasurer.

Few people in Fort Wayne, outside of Brotherhood of Railroad Trainmen ranks, know that Fort Wayne lodge, No. 136, B. R. T., ranks second in point of numbers of the 877 lodges in the United States and Canada. The brotherhood has a total membership of 135,000 and of these 750 are enrolled in Fort Wayne lodge. This number does not embrace the entire number of eligible people in the city, but it is a big per cent, and if the increase of the past year is maintained another year, January, 1916, will see a 100 per cent. B. R. T. lodge in Fort Wayne.

Besides its influence in maintaining the high standard of wages that exists among train employes in the United States, the B. R. T. is a power for good generally. It promotes the general welfare and the social, moral and intellectual interest of its members and when disability or death occurs, it cares for the dependents of the members through the benefits provided. It has four classes of insurance and each is paid in full in case of death or total disability. The policies are for $550, $1,100, $1,500 and $2,000 respectively. The insurance branch was organized thirty-two years ago and has paid to the beneficiaries of deceased or crippled members during that time over $30,000,000. There are women and children in Fort Wayne, widows and orphans of deceased members, who have been saved from want by this means.

Fort Wayne lodge, No. 136, B. R. T., held its election last Friday night, as stated in Saturday's Sentinel, and above are the portraits of four of the successful candidates for office. It was a referendum ballot system election, the names of the candidates being printed with a blank following each name for the X, which indicates the voter's choice for that office. Two of the officers, Secretary N. S. Patton and Treasurer E. D. Spahr, were re-elected, as were also the two medical examiners, Dr. I. E. Morris and Dr. L. J. Schermerhorn. W. E. Ferguson, who is succeeded as president by J. E. Karns, held that office for six consecutive years and was not a candidate for re-election. President J. E. Karns is a local freight flagman on the Pennsylvania; Vice President L. J. Christman is a Pennsylvania yard conductor; Treasurer E. D. Spahr is a passenger flagman on the Pennsylvania, and Journal Agent R. A. Knoff is a freight flagman on the Pennsylvania. These officers will be installed at the last meeting in December.

DANALDSON WANTS STATION

Appeals to Public Utiltiy Board and Investigation is Being Made.

Donaldson, a small station on the Pennsylvania seventy-two miles west of Fort Wayne, wants a new freight and passenger station and failing to immediately interest the railway company, took the matter up with the public utility commission. That body and the division officials visited Donaldson today to look over the ground and confer with some of the leading residents, including the town officials. The railway officials went to Donaldson on the division special train. In the party were Supt. W. M. Wardrop, Trainmaster C. L. Hamilton, Chief Clerk Robert Learmonth, Division Freight Agent E. T. Wood, Division Engineer Guy Scott, Attorney Fred E. Zollars and Star Union Agent H. M. Quicksell.

RECEIVED BAD SCALPWOUND.

John Scott, engine preparer at the Wabash round house, working at nights, received a bad scalp wound at 8:30 o'clock last night, to close which Dr. C. F. Knadt had to take five stitches. The wound was received when a chunk of coal rolled from the tender and struck Mr. Scott on the head, knocking him unconscious.

MUST STAMP BILLS OF LADING.

The war tax on bills of lading becomes effective tomorrow and local freight agents have provided themselves with stamps to be sold to the shippers in case the latter have not been supplied from other sources. Every bill of lading must receive a one-cent revenue stamp, furnished by the shipper and carefully cancelled by him before the freight will be moved. The full text of the act was published by the Sentinel some days ago.

On the return trip the special will leave New York next Friday. George Bradley accompanied the boys, representing the Pennsylvania trainmaster, and the train crew was made up as follows: Conductor A. T. Smith, Engineer H. E. Wagner, Fireman G. L. Case and Brakemen C. A. Hess and W. J. Smith. The train was pulled to Crestline by engine 7048.

The accident happened Friday at Jonesville, Mich., where Dagress and a gang of men were doing some track work. Dr. J. M. Dinnen attended the man.

One of the engines attached to the Pennsylvania limited, No. 2, last night, broke a tire at Richey, Ohio, and had to abandon the run. While being cut out from the train, the engine was derailed and the wreck crew had to go to Richey to pick up the crippled engine and bring it to the city. The train was taken into Crestline by the single engine, arriving there only twenty-five minutes late.

Vacunas Petree, a foreigner, arrested Saturday by Pennsylvania Patrolman Connor, when he found the man wandering around in the east yards, was later released by Captain Henry Stoll. The fellow told the captain that he was robbed of $35 and his overcoat at 5 o'clock Friday night at Gary, and being out of employment, came here in search of work. The fellow appeared to be honest.

Grimes will be promoted to the position vacated by E. P. Grimes.

GET RID OF THAT MISERABLE FEELING.

You may learn something from the experience of Mrs. William Troute, Ilion, N. Y., who was sick for a long time from a badly disordered stomach. "I felt miserable all of the time," she writes. Has Been Agent For Fifteen Years

EDWIN H. KIRKLAND.

Edwin H. Kirkland, Pennsylvania freight agent at Fort Wayne, and one of the best known traffic men in the city, is rounding out the fifteenth year in that capacity. He was transferred from Lima to this city to succeed Fred Sawyer December 1, 1899, and then several months later, in June, 1900, the present transfer system, which increased the work of the agent and the men over whom he has charge, was established. Mr. Kirkland will soon be eligible to membership in the Pennsylvania Employes' Veteran association. He began work for the company in the capacity of messenger in the Chicago office, under William Borner, who later became general western agent of the Pennsylvania. From that humble position Mr. Kirkland worked upwards, receiving many promotions, until he became chief clerk of inbound freight. A few months later the outbound freight clerk resigned and his duties were added to those of Mr. Kirkland and performed by him until October 1, 1898, when he received the appointment of freight agent at Lima, from whence he came when he assumed the duties of his present office. Mr. Kirkland worked under four superintendents—C. D. Gorham, C. D. Law, J. B. McKim and W. M. Wardrop. Mr. McKim was superintendent of the Western division when Mr. Kirkland came to Fort Wayne.

WEST COAST NOT SO NERVOUS NOW

British Columbia Cities Learn German Cruisers Are Far Away.

Seattle, Wash., Nov. 30.—With all five of the German cruisers in the Pacific accounted for in southern waters, the British Columbia cities of Victoria, Vancouver and Prince Rupert have recovered from the feeling of uneasiness which prevailed when the Scharnhorst, Gneisenau, Leipzig, Dresden and Nurnberg were reported at several places in North American waters. The Leipzig was sighted as far north as Cape Mendocino, Cal., Aug. 19, and then headed for South America. This is the nearest approach of a German cruiser to British Columbia since the war began.

Reports of naval engagements in the north Pacific persist, yet are pure invention, according to British naval authorities. The allies' patrol of the coast continues, with the powerful Japanese cruiser Idzumo off California, the large British cruiser Newcastle moving along the Oregon and Washington coast and the Canadian cruiser Rainbow, which is not formidable, guarding British Columbia. The huge Blunnel liner, Protesistaus, renamed the Aid, and the tramp steamer Banksdale are coal carriers for these three cruisers. There are coaling stations at Esquimalt and a harbor on the west coast of Vancouver Island. There are two ... orines at Esquimalt.

Broughton channel, just north of Vancouver island, has been closed and mined and is commanded by shore guns. The lights have been extinguished.

NO NEW CASES.

Officials Believe Hoof and Mouth Disease Is Under Control.

Officials of Allen county believe they have the hoof and mouth disease under control. No new cases have been reported, although there are many false alarms.

The herd of cattle on the John Nail farm was not killed until Monday on account of the trench not being completed. Two herds on the Huntington road were inspected Sunday by Dr. W. F. Myers, county veterinarian, but no symptoms of the hoof and mouth disease were found.

GERMAN SHIPS IN SOUTH ATLANTIC

Buenos Aires, Nov. 30.—Dispatches received here from Montevedio insist there is good reason to believe that the German squadron which has been operating in the Pacific ocean is at present in the South Atlantic. Neither the French nor the British legation here has any information to confirm these reports; nevertheless, private dispatches give them credence. It is related among other things that several German steamers are preparing to leave Montevedio to provision the German warships.

Reports that the German Pacific squadron had succeeded in making its way to the Atlantic have been current for two days. Under date of November 28 Montevedio reported that the German squadron had been sighted 600 miles north of Punta Pilar, Brazil, heading northeast.

LOVE, NOT DREADNAUGHTS.

Bryan Says Armaments Will Never Bring World Peace.

Chicago, Nov. 30.—"Love, not dreadnaughts and siege guns will bring peace to warring Europe," said Secretary of State Bryan here last night in an address to a meeting of Chicago Presbyterians. Mr. Bryan declared that national flags should stand for brotherly love instead of armaments. He denounced the liquor traffic, saying that it was useless to attempt to cure the evils of society without stopping the sources of evil.

Secretary Bryan was embarrassed when, after his address a young woman, one of a line formed to shake his hand, attempted to embrace him. The young woman said that she was "Miss Lowe," and declared that she was a cousin of Mr. Bryan and that she was going to give him a hug. She attempted to do so, but Mr. Bryan evaded the caress, saying that he did not know her.

KNOCKS WHEEL OFF CAB.

Mrs. Charles Crawsby and Babies Have a Narrow Escape.

Mrs. Charles Crawsby, 1305 Sherman street, had a narrow escape Saturday evening in attempting to cross Berry street on Calhoun. She was pushing a baby cab in which were two youngsters when an automobile driven by C. F. Mize, 712 Lawton place, came along and knocked one of the wheels off the cab. She did not lose her presence of mind but grabbed her babies and saved them from serious injury or possible death. Mize immediately stopped his machine and took Mrs. Crawsby and children home. Nobody was to blame, according to the crossing policeman.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed with Sulphur It Brings Back Its Lustre and Abundance.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks dry, wispy and scraggly, just a few applications of Sage Tea and Sulphur enhances its appearance a hundredfold.

Don't stay gray! Look Young! Either prepare the tonic at home or get from any drug store a 50 cent bottle of "Wyeth's Sage and Sulphur Compound." Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully and removes dandruff, stops scalp itching and falling hair; besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.—Adv.

SPEAKS TO TRAVELING MEN.

Rev. A. J. Folsom Delivers Sermon for Salesmen in the City.

Rev. A. J. Folsom, pastor of the Plymouth Congregational church, delivered a sermon Sunday evening to the members of the Commercial Travelers and many other salesmen in the city on the subject, "The Salesman at Work." Many of the firms of the city co-operated with Rev. Folsom and urged their salesmen to attend.

"There are three principles in western civilization," said Rev. Folsom, "and they are efficiency, action and achievement. Efficiency becomes the great word, action the master force and achievement the alluring ideal." We are living in a time when life is substituted for philosophy. To think clearly is not enough—one must act clearly." He finished by saying, "Therefore what a man is and what he does is the true measure of life."

Washinton Society Gives Her Welcome

Mrs. Hugh L. Scott

Washington, D. C., Nov. 30.—The new leader of the "army set," Mrs. Hugh L. Scott, has received a cordial welcome from Washington society.

General and Mrs. Scott made their home in Washington a few years ago when the former was head of the army war college. So Mrs. Scott is by no means a stranger to capital society.

GIRL TEACHER BATTLES MADMAN TO SAVE CHILDREN FROM SLAUGHTER.

Grace Jones

(By Norman Rose.)

Washington, Pa., Nov. 30.—Grappling frantically with a madman, who wielded a huge corn cutter, Grace Jones, a frail little school teacher, preserved by her heroism her own life and the lives of the forty children in her school.

This is sthe girl's first term as teacher and she has charge of the little country schoolhouse in West Finley township. Robert Dreamer, a boy of seventeen, had previously been among the pupils of the school, but during the early part of Miss Jones' term was away from his home visiting relatives.

A few days ago he returned and began to attend the school. Teacher and pupils, as well as other persons in the neighborhood, soon noticed that he was mentally unbalanced, but for a day or two he showed no sign of being dangerous. Then, one day, he drew a large knife several times during school hours, and menaced the teacher when her back was turned. Several of the children screamed, and warned Miss Jones, who, quite without fear of the boy, rebuked him and made him put away his knife.

The next day Dreamer appeared suddenly at the school, some time after its session had begun, rushing in with the corn cutter in his hand and threatening the lives of teacher and pupils. He first made a lunge at a boy sitting near the door. The little chap, with a scream, evaded him, and fled to Miss Jones, behind whose skirts he took refuge.

The girl bravely faced Dreamer and for a few moments cowed him simply by her fearlessness. She also spoke to the children, who were screaming in terror, and to some extent reassured and quieted them. She then commanded Dreamer to leave the school, and by sheer self-possession forced him to retreat part way to the open door.

But the demented boy suddenly darted around her, picked up a dictionary from her desk, and hurled it at her, knocking her down. Before she could get up, he was upon her with the corn knife, and a terrible struggle ensued. The slender girl battled desperately, but was almost exhausted when one of the larger boys in the school finally got up courage to come to her aid, and between them they forced Dreamer out of the door, closing and locking it after him.

The madman then attempted to get in at the various windows, but teacher and pupils together attacked him whenever his face appeared at a window, and he was kept out until the screams of the children had attracted the attention of men passing by. Upon the approach of these men, Dreamer fled, and Miss Jones and her pupils were taken to their homes.

No insanity warrant has been issued for Dreamer, and as he is still at liberty, parents have refused to send their children to the school, which is closed, and is likely to remain so until some action is taken.

Miss Jones is recuperating at the home of her parents, and there seems little likelihood of her returning to the school. She refuses to talk of her terrible experience. Efforts are under way among parents of the children whose lives she saved to procure a Carnegie heroism medal for her.

Distressing Bronchial Coughs "Hang On" and Weaken.

Foley's Honey and Tar easily raises the phlegm and heals the raw inflamed surfaces.

That tight feeling over your chest, and distressing bronchial cough are usually worse at night, and you lose the sleep you sorely need to keep up your strength.

FOLEY'S HONEY AND TAR eases that tight feeling and leaves a healing coating as it glides down the throat. The tickling, rasping cough and hoarseness disappear, and the phlegm is raised easily and copiously.

There is more healing in one bottle of FOLEY'S HONEY AND TAR COMPOUND than in a like quantity of any other cough and cold medicine. It heals to the last drop.

W. J. BELLAMY, Clarksburg, Ky., writes: "My boy, 16 years old, had bronchial trouble ever since he was a baby. We feared he would go into consumption. I heard of a similar case where FOLEY'S HONEY AND TAR COMPOUND effected a cure, and bought a bottle. My son commenced to improve after the first few doses, and the first bottle stopped his stubborn cough. FOLEY'S HONEY AND TAR has given better satisfaction than any medicine I ever used. I think this wonderful medicine has saved the boy's life."

You save money when you buy FOLEY'S HONEY AND TAR COMPOUND, because just a few doses stops the cough and cold, one bottle lasts a long time, and the last dose is as good as the first. Refuse substitutes

ROCKEFELLER TO CHANGE HIS PLEA

Millionaire Now Seeking Permission from Federal Court.

New York, Nov. 30.—William Rockefeller, Standard Oil millionaire, besought today permission of the federal court to change his plea to the indictment charging him and twenty other former directors of the New York, New Haven & Hartford Railroad company with criminal violation of the anti-trust law. Mr. Rockefeller filed a plea in abatement last Monday.

Mr. Rockefeller was joined in his application for such permission by Robert W. Taft, Charles A. Brooker, Wm. Skinner and James S. Elton. These defendants filed pleas in abatement with Mr. Rockefeller last Monday.

In their applications to Judge Sessions the defendants did not indicate the nature of the plea they had in mind but simply asserted their desire to file a substitute plea.

Under the plea in abatement they sought to have the indictment dismissed on the grounds that it was defective. The alleged defect consisted of the fact that one of the court officials connected with drafting the indictment was a resident of New Jersey instead of New York.

Applications for permission to change their pleas were made also by D. Newton Barney, Frederick F. Brewster, Henry K. McHarg and George F. Baker. A vigorous argument against the granting of such permission was made by Assistant Attorney General Swacker. Judge Sessions granted permission to all nine men to change their pleas. Substitute pleas were not offered at once, however, and argument proceeded on the original pleas in abatement.

CHICAGO GRAIN AND PROVISIONS.

Chicago, Nov. 30.—Lower cables and big receipts northwest had a bearish effect today on the wheat market here. After opening unchanged to ½c lower, the market rallied a little, but then sagged lower than before. Heavy arrivals of new crop shipments gave a setback to corn. The opening, which ranged from ⅛c to ¾c higher, was followed by a decided break all around.

The close was strong at ⅞c to 1⅛@1¼c net advance.

Oats were governed by corn.

The close was from ⅛c off to ⅛c up compared with Saturday night.

Provisions weakened owing to plentiful receipts of hogs at the principal western centers.

THE DAY ON WALL STREET.

New York, Nov. 30.—The bond market opened dull and listless on the New York stock exchange today, the first full day of trading of any sort since the exchange was closed on July 30. Unusual interest was manifested among brokers, who thought that the two hour session of Saturday did not afford a full test of conditions and feared that there might be a general tendency to liquidate by foreign holders.

Nothing of this sort developed durng the first quarter hour of trading. For a full minute after the opening the ticker remained silent; not a single bond was sold. Five minutes after the opening gong nine bonds with a face value of $9,000 had been sold. The market appeared to be in a state of stagnation. U. S. Steel 5s rose ⅛ to 99¾; Southern Pacific convertible 4s and Distillers' securities 5s were off ⅛, selling at 80⅝ and 55½, respectively. Westinghouse convertibles declined three points and Central Pacific 4s declined 3½ points.

All fears of a flood of liquidation from abroad seemed to vanish within the first quarter of an hour. Indications were that the second day of restricted trading in bonds would be much like the first.

As the day progressed the bulk of the trading was in small lots but occasionally twenty or thirty bonds changed hands in one transaction. Prices were irregular, with a better inquiry for a limited number of industrials and specialties whose products have been in greater demand by reason of the war.

Notable declines of the early session ranged from three to seven points in Central Pacific 4s, Chicago, Rock Island & Pacific railway 5s, Oregon Short Line 6s and Lorillard 7s. Among the few advances were Interborough 4s, Pennsylvania 3½s and Lackawanna Steel 5s.

Altogether forty-six different issues were traded in up to noon. At that time sales approximated $550,000.

MONEY MARKET.

New York, Nov. 30.—Mercantile paper, 4½@5 per cent.; sterling exchange, steady; 60 day bills, 4.675; for cables, 4.90; for demand, 4.89; bar silver, 43½c.

New York, Nov. 30.—Exchanges, $228,942,228; balances, $11,484,557.

STONE SPEAKS FOR EMPLOYES

(Continued from Page 1.)

suffered by the men, their long hours of service, the hazards which they encounter and weight of responsibility thrown on the man at the throttle and the fireman at the stoke hole. He insisted that there would be no attempt on the part of the employes to distort facts and that by truthful witnesses he would show that the employes were clearly entitled to better service conditions and higher wages than the railroad managers were inclined to accord them. In brief, he said, that the wage movement of the employes was begun two years ago and that later it was decided that the Brotherhood of Locomotive Firemen and engineers should work jointly with the Brotherhood of Locomotive Engineers in the presentation of requests to the railroads, and in October, 1913, the sixteen articles to be arbitrated by the present board were approved by the membership of both organizations. He told of counter propositions being submitted by the railroad managers and of the joint conference which occupied several months last winter, culminating in July in the agreement to arbitrate.

Opposes Any Decrease.

Mr. Stone insisted that any award of the board of arbitration should not decrease the present wages or impose less desirable conditions on the employes and in this connection quoted from a statement of the railroad managers that "it was not intended to make any reduction in wages."

"This being true," he said, "we have not come here to give away a single thing we have but we want and believe we are entitled to the increase we ask to go with it."

After describing the hardships of the men in the cab and noting that traffic each year is becoming more congested, that each year the public demands faster time and better service, that each year larger locomotives are built and heavier tonnage hauled, the chief engineer said "and it must not be overlooked that all of these increased burdens fall on the same men, their number not having been increased for the purpose of dividing this work and responsibility.

Much Taken Out of Men.

"There never was a time in the history of the railroad world when as much was being taken out of the men in the cab as now—requirements that are beyond the limit of human endurance."

Summing up he declared "We shall endeavor to show that during the past 24 years the western railroads have made remarkable gains in productive efficiency by the installation of locomotives of greater tractive power. By the elimination of curves and reduction of grades remarkable increases in train loads have been made. The burden of all these economies in the interests of railroad investments is borne by the men in the transportation service.

"The effect on engineers and fireman has been threefold.

"There has been increase in their labor and responsibilities. Their productive efficiency has been greatly increased. Their earning capacity even at the slightly increased scales of payment they have received has declined.

"We hope to show that these railroads not satisfied with the present hard conditions which have reached the limit of human endurance, are intending to add further to existing train loads, thereby increasing the labors and responsibilities of the engineers and firemen."

Quoting a statement of the managers last July in which it was pointed out that increase in the expenses of railroad operation through compliance with the employes requests would in the long run make the public the sufferers, Mr. Stone said: "A little group of financial pirates will exploit some railroad and place a burden on the public which generations yet unborn will have to bear, and you hear not even a whisper of the rights of suffering public."

JEFF WAS GIVEN A DOUBLE JOLT

Police Court Regular Goes Over to Jail to Join the Winter Colony.

The constitutional rights of Jeff Myers, dean of local police characters, were invaded in the city court Monday morning by the infliction of cruel and unusual punishment. Twice in a period of three minutes Jeff was jolted for the same offense. Guilty of public intoxication with previous offenses laid against him, Jeff begged hard to be let go and flashed an order from Wayne Township Trustee Henry Branning admitting him to the poor house.

"Your honor, this is the first time in all my life I have been driven to this. I want to get out there for the winter and I will stay there."

Examination of the order disclosed that it was issued to "J. Mark," the which was not by any means Jeff.

"I'll have to send you over, Jeff, for a long term. I have let you off twice before and you don't make good. One hundred days in jail and $10 and costs."

Jeff's jaw fell and a spasm of pain contorted his features. He was taken back to his cell. Then it was discovered that the court had reversed the details of the penalty and Jeff was sent for. He came with blithe step into the court room, his face beaming with joy. He thought the court had relented on more careful consideration of his deserts.

"Jeff, I didn't do what I thought I was doing when I pronounced sentence. That fine of $10 and costs and one hundred days in jail do not stand," said Judge Kerr, and Jeff looked the gratitude he could not utter.

"You are fined $100 and costs and sentenced to ten days in jail. It's all the same—one hundred and twenty days in jail, which is what I meant to give you. They are putting the boys over there to work outdoors and you will have plenty of exercise, lots of sunshine and a good appetite. That's all."

Again Jeff's jaw did the business of dropping, and he pleaded that he was an old man and might not survive the ordeal of long confinement and hard work. He will be in jail until March 29.

Met Man With the Bottle.

Harry Dockery, on Sunday, met up with the mysterious man with the bottle, only in his case there were two of him. He imbibed with gusto and went clear down and clear out on Lewis street, just east of Calhoun, and was there picked up by the police. Dockery said he had been on the water wagon since August and succumbed easily to a moderate quantity of booze. He got fifteen days.

Other City Court Cases.

Frank Williams was the name given by a man picked up drunk Saturday night. He had lost his bearings and about all else and he was locked up. He said he had taken the jag cure eighteen months ago and that Saturday, in Detroit, he tore the hair off his diploma for the first time. Williams went over for eleven days.

Harry Callahan was crazy drunk when Officer Fred Smith got him early Sunday morning. In court he said he would climb the water wagon and lash himself to the seat. Judge Kerr gave him a chance and ordered him to report in thirty days. He was released on his own recognizance.

Frank Bush, of Lima, Ohio, came to Fort Wayne and got drunk. He said he would get right back to Lima and was told to start.

Theodore Browning and Ellsworth Bradford, drunks, were fined $1 and costs, and John R. Kane, another drunk, was held until December 3 to get thoroughly sober.

John O'Brien, vagrant, and Harry Holsey and William Snyder, drunks, were turned loose.

U. S. SOCIETY WOMAN TURNS COOK TO AID LONDON'S POOR.

MRS. BEN LATHROP.

San Francisco, Nov. 30.—Mrs. Ben Lathrop, former San Francisco society matron and wife of a well known stock broker, is to don a cook's apron and prepare gallons of soup to be sold to starving women in the Duchess of Marlborough's soup kitchen in London.

Mrs. Lathrop formerly was Miss Isabelle Harris, and is well known as a talented singer.

The novel mode of relief in which Mrs. Lathrop is to participate will be inaugurated for the benefit of hungry and poverty stricken women. The charges will be trivial—a quart of soup with a quarter of a pound of bread for a penny.

The first kitchen will be opened in the Islington section. It is here that Mrs. Lathrop will be cook, and it is expected that a heavy demand upon the duchess' kitchen will keep the charity workers busy day and night.

WAS JAMES KAPLAN'S CAR.

Owner of Auto That Struck Another Gave Fictitious Name.

Last Wednesday night, when Willett Clayton, 636 Prospect street, driving his car on the Lincoln highway east of the city, was run into from the rear by another car, the offending driver gave the name of Williams and said his residence was 516 Webster street. The police investigated and found that there was no such number on Webster street and that no man named Williams resided in the neighborhood. The car driven by the alleged Williams more Indiana license No. 64,756. Chief Lenz has just received from the secretary of state, in response to his inquiry, the information that license 64,756 was issued to James Kaplan, 223 East Main street, Fort Wayne. Kaplan will be asked to explain and may be prosecuted for violating the law that requires motorists who injure persons or damage property to report to the police, giving correct name and address.

THROWS AT DOG; BREAKS PANE.

Mrs. Florence Mentzer, 411 Bass street, reports to the police that three men who passed her home had annoyed her dog. When the dog ran out one of the men threw a stone at it, missed the canine and broke a window of the residence. The men then ran away.

RESIDENCE IS ROBBED.

The residence of George Davidson, 706 Davis street, was robbed some time between 7 and 9 o'clock Saturday evening, while the family was absent. A gold locket, a gold signet ring, a razor and a small iron clock were taken.

THE UNKINDEST CUT.

A colored tramp who was given something to eat by Pearl Green, colored maid at the home of I. Weil, 721 West Wayne street, stole her purse containing $7 while she was getting food for him.

CASHES WORTHLESS CHECK.

A worthless check calling for $12.66 and drawn on the Old National bank, was cashed Saturday evening at the Joe Suelzer grocery, 2201 Fairfield avenue. The check was drawn in favor of "Roy Leese" and signed "R. C. Richardson." A small bill of groceries was purchased and the change for the balance was given in cash.

At Christmas Time You Remember Your Friends

Realizing that it is a task to write letters to friends away from home, THE WEEKLY SENTINEL has been newly arranged to take the place of these letters. If you have a son, a daughter, an uncle or an aunt, or a cousin or a dear friend that you are remembering in this way call at THE SENTINEL office and get a sample copy of THE WEEKLY SENTINEL free of charge and see how well we have taken the place of your weekly letter. The paper is made up almost entirely of purely local news of Fort Wayne, Allen county and adjoining counties and towns. Sixteen pages per week, 832 pages per year of bright local news.

If you are sending that friend a Christmas gift, send him or her THE WEEKLY SENTINEL and you will be giving them something that will be appreciated the whole year through. You can do it for only one dollar, payable in advance. Less than the cost of postage on your weekly letter.
